AUDIT AND OPERATIONS REVIEW COMMITTEE REPORT

Trustee Conrad Santiago reporting for Olga Calvet, chair of the Audit and Operations Review Committee, reviewed the business of the August 18, 2008, committee meeting:

- The committee approved minor changes to its current charter.
- Amy Voelker, Director of University Audit, reviewed her process for tracking changes that were recommended as a result of audits. Administrators of the audited unit and staff members of University Audit agree on deadlines for the changes to be made, and University Audit uses these deadlines to review units for their compliance with audit recommendations. Ninety-four percent of all audit recommendations have been implemented.
- Committee members expressed concern about the ability to audit information technology functions because of the resignation of the information technology auditor. Trustee Yochum suggested looking into outsourcing the audit of functions associated with information technology.
- Scott Cole, Vice President and General Counsel, provided an overview of the formation and function of direct support organizations.
- The committee scheduled its next meeting for December 5, 2008.

EDUCATIONAL PROGRAMS COMMITTEE REPORT

Trustee Judy Albertson, chair of the Educational Programs Committee, recognized Dr. David Harrison, Vice Provost for Regional Campuses.

Dr. David Harrison thanked members of his administration and staff who were present. He also thanked Dr. Denise Young for her support of the efforts of Regional Campuses at the Cocoa and Palm Bay campuses.

Harrison then gave an overview of the partnerships UCF has with six community colleges in eleven Central Florida counties. He reported that there are now four joint-use facilities with community colleges and two more under construction. In cooperation with community college partners, the UCF regional campus system offers twenty-four bachelor’s degree programs and eighteen minor degree programs. At the graduate level, eleven master’s degree programs and two doctoral degree programs are available. The UCF regional campus system serves 8,500 students per semester, and an additional 10,000 students take online courses taught by Regional Campuses faculty members. More than 1,600 classes are offered each year.

The board thanked Harrison for his presentation and his outstanding work with the regional campus system.

Albertson then presented the following item for board approval:
EP-2 Preliminary University Compact: 2009-10 – A motion was made by Trustee Manoj Chopra and passed by the board to approve the 2009-2010 Preliminary University Compact, which the Florida Board of Governors requested. The university compact outlines the vision and priorities of each university and defines how each institution will accomplish the BOG’s goals.

FINANCE COMMITTEE REPORT

Trustee Conrad Santiago, chair of the Finance Committee, reported on the business of the committee meeting:

- Maribeth Ehasz, Vice President for Student Development and Enrollment Services, reported that the Board of Governors approved the financing plan for the purchase of two fraternity houses.
- Ehasz reported that a third appraisal consultant has been contacted about price issues related to the Sigma Alpha Epsilon house. She hoped the price can be resolved in time for occupancy of the house in Fall 2009.
- Vanessa Fortier, Associate Vice President for Administration and Finance, reported on the operating budget. She stated that Education and General expenditures appear to be well under budget. The medical college’s revenues are up and expenditures are below budget. Sponsored research continues to grow. Student activities are within budget. In addition, concessions expenditures are at expected levels.
- William Merck, Vice President for Administration and Finance, summarized the Support Agreement Fund Balances Report. He commented that the bond insurers require UCF to maintain a sum that is at least twice the maximum annual debt service. UCF currently has 8.1 times the required amount.
- Brad Stricklin, Associate Athletics Director for Business and Finance, UCFAA, gave a report on projections for The Golden Knights Corporation, which included revenues, expenditures, and debt associated with the stadium. Trustee Christiansen suggested that the column titled “Projected 2007-08” be changed to “Actuals 2007-08.” He also requested a clarification of the information included in the “Sources to pay taxable debt” line.
- Santiago reported that the university has, thus far, invested its cash funds in only two accounts, the Special Purpose Investment Account (SPIA) and State Board of Administration (SBA) account. However, the committee has now established a work group to implement an investment plan that will provide greater flexibility for investing and managing cash reserves.
  - Santiago briefly explained participation in Certificate of Deposit Account Registry Service (CDARS), which allows an institution FDIC insurance on $50 million in certificates of deposit. Deposits are made with one banking institution, but they are then divided into increments of not more than $100,000 and distributed throughout the banks in the CDARS program. In this way, FDIC insurance covers all the funds. Approximately seven local banks participate in the program.
To take advantage of the CDARS program, UCF funds have been allocated to four pools:

1. cash reserves
2. debt service due in one year
3. debt service due in two to five years
4. remainder, not to exceed 20% of the total cash available

The plan is to keep Pool #1 funds invested in SPIA. Funds invested in the CDARS program will be taken from Pools #2 and #3. The levels in the respective pools will be revisited as the overall cash balance changes.

Chair Walsh remarked that the purpose of the CDARS investment plan is to provide good fiduciary stewardship of university funds.

NOMINATING COMMITTEE REPORT

Trustee Phyllis Klock, chair of the Nominating Committee, reported on the business of the August 21, 2008, committee meeting:

- Discussions continued on the presidential selection process.
- Trustee Klock noted that the committee was developing a presidential selection process for use in the future and that there is no intent to implement the process at this time.
- The committee has refined and adopted the critical-success-factors document and the leadership statement. The committee will annually review both documents to keep them current.
- Trustee Klock noted that the committee had failed to consider the need for an interim president. However, the committee has now begun to discuss a process for identifying an interim president should one be needed.
- Trustee Klock noted that she had a lengthy discussion with Diana Morgan, who is current chair of the University of Florida Board of Trustees and who was vice chair of the University of Florida presidential search committee. Klock will report on that discussion at the next meeting.
- The next meeting of the Nominating Committee is October 1, 2008.
