Board of Trustees
Finance and Facilities Committee Meeting
Fairwinds Alumni Center
September 25, 2014

MINUTES

CALL TO ORDER

Trustee Marcos Marchena, chair of the Finance and Facilities Committee, called the meeting to order at 10:49 a.m. Committee members Weston Bayes, Alex Martins, and Reid Oetjen were present. Committee member John Sprouls attended via teleconference. Chair Olga Calvet and Trustees Clarence Brown, Richard Crotty, Ray Gilley, and Beverly Seay were present.

NEW BUSINESS

Golden Knights Corporation East Side Club and Athletic Leadership Center Debt (FFC-1)
William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer, and Brad Stricklin, Senior Associate Athletics Director and Chief Financial Officer, presented a plan to issue debt up to \$8 million through the Golden Knights Corporation via a 15-year bank loan. The loan will be used to construct a premium seating and club lounge on the east side of the football stadium bowl and an Athletic Leadership Center adjacent to the football stadium on the east side. Stricklin updated the committee on the funding already received and how the financing of the projects has been adjusted accordingly. Merck alerted the committee that the Board of Governors resolution presented to them stated the debt would be issued through the UCF Athletics Association. However, the debt will be issued through the Golden Knights Corporation. The committee unanimously approved the debt issuance with that correction noted.

Florida Advanced Manufacturing Research Center (FFC-2)

Merck and M.J. Soileau, Vice President for Research & Commercialization, requested approval for UCF participation in a center in Osceola County for advanced manufacturing research. Osceola County owns and is setting aside a 165-acre parcel of property to foster the growth of an advanced manufacturing industry cluster. The county is committing \$61 million to the project. UCF is committing \$10 million in contract and grant indirect cost funds in support of research operations. The research and development building will be operated by UCF for 40 years with the ownership transferred thereafter. A non-profit consortium will foster development of the industry center for the promotion of cooperative research and development by UCF, industry, and government partners, with UCF, FHTCC, and the county represented on the board of the consortium. The committee unanimously approved UCF's involvement in this project.

Finance and Facilities Committee Meeting - Minutes

Refinancing of the UCF Convocation Corporation Series 2005A Certificates of Participation Update (INFO-1)

John C. Pittman, Associate Vice President for Administration and Finance, Debt Management, updated the committee on the UCF Convocation Corporation Series 2005A Certificates of Participation refinancing that was approved at the August 5, 2014, Finance and Facilities Committee meeting. The UCFCC accepted a proposal from SunTrust Bank consisting of a 20-year bank loan with an interest rate of 3.8 percent, resulting in \$7.2 million in savings over the life of the refinancing and a 5.96 percent net present value savings.

OTHER BUSINESS

Merck provided the committee with an update on the hotel currently being considered for the UCF property at the corner of Alafaya Trail and University Boulevard.

Chair Marchena adjourned the Finance and Facilities Committee meeting at 11:24 a.m.

Respectfully submitted:

William F. Merck II

Vice President for Administration and Finance

Board of Trustees
Finance and Facilities Committee Meeting
President's Boardroom, Millican Hall, 3rd floor
October 22, 2014

MINUTES

CALL TO ORDER

Trustee Marcos Marchena, chair of the Finance and Facilities Committee, called the meeting to order at 8:32 a.m. Committee members Weston Bayes and Reid Oetjen were present. Committee member Robert Garvy attended by teleconference.

MINUTES APPROVAL

The minutes of the August 5, 2014, Finance and Facilities Committee meeting were approved as submitted.

NEW BUSINESS

Review of Debt Guidelines (FFC-1)

William F. Merck II, Vice President for Administration and Finance and Chief Financial Officer, and John C. Pittman, Associate Vice President for Administration and Finance, Debt Management, explained that after the Board of Governors adopted its revised Debt Management Guidelines in 2010, some types of debt issuances are excluded from requiring the board's approval. However, the university's guidelines currently have no exclusions and require all new issuances of debt to be approved by the board. In order to make the issuance of smaller debt items more efficient, the university guidelines have been amended to allow some of the types of debt currently excluded from requiring approval by the Board of Governors to be excluded from requiring approval by the Board of Trustees under certain conditions. The amendments do not alter existing Board of Governors' policy. The committee unanimously approved the revised debt guidelines, but it asked for an annual report to check on the status of the debt issuances now allowed because of the permitted exclusions.

Revisions to UCF Investment Policy (FFC-2)

UCF's investment policy has cash balances divided into four pools ranging from extremely low risk cash and cash equivalents in Pool I to a combination of longer maturity bonds and equity investments in Pools II, III, and IV. In order to increase portfolio diversification and provide increased flexibility to manage the duration and yield curve exposures and relative value, the university's investment consultant recommended changes to the authorized investment guidelines in Operating Pool II and Operating Pool III. The committee unanimously approved the revisions, but it asked for a report in six months to check on the status of the investments following these changes.

UCF Investments Quarterly Report Ended June 30, 2014 (INFO-1)

Tracy Clark, Associate Vice President for Administration and Finance and Controller, reviewed the investments quarterly update as of June 30, 2014.

University Operating Budget Report Quarter Ended June 30, 2014 (INFO-2)

Clark presented the University Operating Budget Report ended June 30, 2014, as an information item.

Direct Support Organizations' 2013-14 Fourth-Quarter Financial Reports (INFO-3)

Merck and Pittman reported that the direct support organizations' 2013-14 fourth-quarter financial reports ended June 30, 2014, were provided as information items.

Energy and Sustainability Report (INFO-4)

Lee Kernek, Associate Vice President for Administration and Finance, introduced Curtis Wade, Director of Sustainability and Energy Management, who gave a presentation on energy use and sustainability efforts on campus.

UCF Foundation Financial Report Presentation (INFO-5)

Robert J. Holmes Jr., Vice President for Alumni Relations and Development and CEO for the UCF Foundation, Inc., and Bert Francis, Associate Vice President and Chief Financial Officer, presented the UCF Foundation's history, operating results, and budget.

Chair Marchena adjourned the Finance and Facilities Committee meeting at 10:18 a.m.

Respectfully submitted:

William F. Merck II

Vice President for Administration and Finance and Chief Financial Officer

ITEM: FFC-1

University of Central Florida **Board of Trustees** Finance and Facilities Committee

SUBJECT: 2014-15 UCF Convocation Corporation Amended Budget

DATE:

December 3, 2014

PROPOSED COMMITTEE ACTION

Approval of the amended 2014-15 operating budget for the UCF Convocation Corporation.

BACKGROUND INFORMATION

The Florida Board of Governors requires the local boards of trustees for the state universities to approve the operating budgets of the universities' direct support organizations.

The UCF Convocation Corporation has amended its 2014-15 operating budget previously approved by the Board of Trustees.

ITEM: INFO-1

University of Central Florida Board of Trustees Finance and Facilities Committee

SUBJECT: University Audited Financial Report 2013-14

DATE: December 3, 2014

For information only.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management's discussion and analysis (MD&A) provides an overview of the financial position and activities of the University for the fiscal year ended June 30, 2014, and should be read in conjunction with the financial statements and notes thereto. The MD&A and financial statements and notes thereto are the responsibility of University management. The MD&A contains financial activity of the University for the fiscal years ended June 30, 2014, and June 30, 2013.

OVERVIEW OF FINANCIAL STATEMENTS

Pursuant to GASB Statement No. 35, the University's financial report includes three basic financial statements: the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. The financial statements and notes thereto encompass the University and its component units. These component units include:

- > Blended Component Units
 - UCF Finance Corporation
 - · University of Central Florida College of Medicine Self-Insurance Program
- Discretely Presented Component Units
 - · University of Central Florida Foundation, Inc.
 - University of Central Florida Research Foundation, Inc.
 - UCF Athletics Association, Inc.
 - UCF Convocation Corporation
 - Golden Knights Corporation
 - Central Florida Clinical Practice Organization, Inc.

Information regarding these component units, including summaries of the blended and discretely presented component units' separately issued financial statements, is presented in the notes to the financial statements. This MD&A focuses on the University, excluding the discretely presented component units. MD&A information for the discretely presented component units is included in their separately issued audit reports.

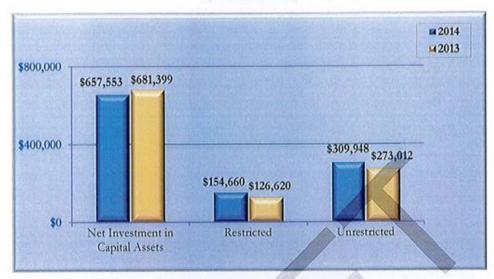

FINANCIAL HIGHLIGHTS

The University's assets totaled \$1.5 billion at June 30, 2014. This balance reflects a \$44.1 million or 3 percent increase as compared to June 30, 2013, resulting from an increase in investments. Deferred outflows of resources at June 30, 2014, totaled \$11.2 million and decreased slightly from prior year by \$0.4 million. Liabilities increased by \$2.6 million or 0.7 percent totaling \$381.4 million at June 30, 2014, as compared to \$378.8 million at June 30, 2013. As a result, the University's net position increased by \$41.1 million, resulting in a year-end balance of \$1.1 billion.

The University's operating revenues totaled \$443.8 million for the 2013-14 fiscal year, representing a 1.9 percent increase over the 2012-13 fiscal year. Operating expenses totaled \$821.7 million for the 2013-14 fiscal year, representing an increase of 6.0 percent over the 2012-13 fiscal year due mainly to an increase in compensation and employee benefits.

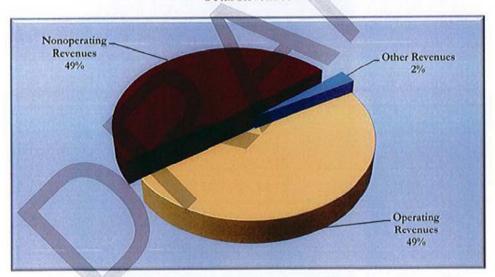

Net position represents the residual interest in the University's assets and deferred outflows of resources after deducting liabilities. The University's comparative total net position by category for the fiscal years ended June 30, 2014, and June 30, 2013, is shown in the following graph:

Net Position (In Thousands)

The following chart provides a graphical presentation of University revenues by category for the 2013-14 fiscal year:

Total Revenues

THE STATEMENT OF NET POSITION

The statement of net position reflects the assets, deferred outflows of resources, and liabilities of the University, using the accrual basis of accounting, and it presents the financial position of the University at a specified time. Assets plus deferred outflows of resources less liabilities equals net position, which is one indicator of the University's current financial condition. The changes in net position that occur over time indicate improvement or deterioration in the University's financial condition.

The following summarizes the University's assets, deferred outflows of resources, liabilities, and net position at June 30:

Condensed Statement of Net Position at June 30 (In Thousands)

		2014		2013
Assets				
Current Assets	\$	521,440	\$	468,619
Capital Assets, Net		857,163		869,179
Other Noncurrent Assets	_	113,710	_	110,416
Total Assets	_	1,492,313		1,448,214
Deferred Outflows of Resources	_	11,219	4	11,583
Liabilities				
Current Liabilities		77,557		79,606
Noncurrent Liabilities		303,814	_	299,160
Total Liabilities	_	381,371	_	378,766
Net Position				
Net Investment in Capital Assets		657,553		681,399
Restricted		154,660		126,620
Unrestricted	-	309,948		273,012
Total Net Position	\$	1,122,161	\$	1,081,031

Total assets as of June 30, 2014, increased by \$44.1 million or 3.0 percent. Current assets increased \$52.8 million primarily due to an increase in investments of \$54.0 million including unrealized gains of \$11.0 million. Deferred outflows of resources consist of accumulated decreases in fair value of hedging derivatives related to an interest rate swap agreement used to manage the risk of rising interest rates on variable rate-based debt. Total liabilities remained consistent with prior year.

THE STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET POSITION

The statement of revenues, expenses, and changes in net position presents the University's revenue and expense activity, categorized as operating and nonoperating. Revenues and expenses are recognized when earned or incurred, regardless of when cash is received or paid.

The following summarizes the University's activity for the 2013-14 and 2012-13 fiscal years:

Condensed Statement of Revenues, Expenses, and Changes in Net Position For the Fiscal Years (In Thousands)

	 2013-14	 2012-13
Operating Revenues Less, Operating Expenses	\$ 443,779 821,707	\$ 435,463 775,254
Operating Loss Net Nonoperating Revenues	(377,928) 395,778	(339,791) 318,630
Income (Loss) Before Other Revenues, Expenses, Gains, or Losses Other Revenues	17,850 23,280	(21,161) 10,292
Net Increase (Decrease) In Net Position Net Position, Beginning of Year	41,130 1,081,031	(10,869) 1,091,900
Net Position, End of Year	\$ 1,122,161	\$ 1,081,031

Operating Revenues

GASB Statement No. 35 categorizes revenues as either operating or nonoperating. Operating revenues generally result from exchange transactions where each of the parties to the transaction either give up or receive something of equal or similar value.

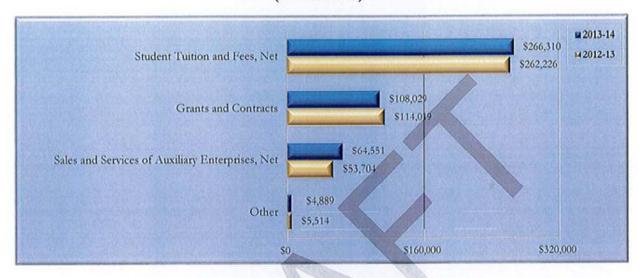

The following summarizes the operating revenues by source that were used to fund operating activities for the 2013-14 and 2012-13 fiscal years:

Operating Revenues (In Thousands)

		2013-14		2012-13
Student Tuition and Fees, Net	\$	266,310	\$	262,226
Grants and Contracts		108,029		114,019
Sales and Services of Auxiliary Enterprises, Net		64,551		53,704
Other	-	4,889	_	5,514
Total Operating Revenues	\$	443,779	\$	435,463

The following chart presents the University's operating revenues for the 2013-14 and 2012-13 fiscal years:

Operating Revenues (In Thousands)

Total operating revenues increased \$8.3 million or 1.9 percent. Net sales and services of auxiliary enterprises increased \$10.8 million or 20.2 percent. The increase was due primarily to an increase in housing and utilities revenue.

Operating Expenses

Expenses are categorized as operating or nonoperating. The majority of the University's expenses are operating expenses as defined by GASB Statement No. 35. GASB gives financial reporting entities the choice of reporting operating expenses in the functional or natural classifications. The University has chosen to report the expenses in their natural classification on the statement of revenues, expenses, and changes in net position and has displayed the functional classification in the notes to financial statements.

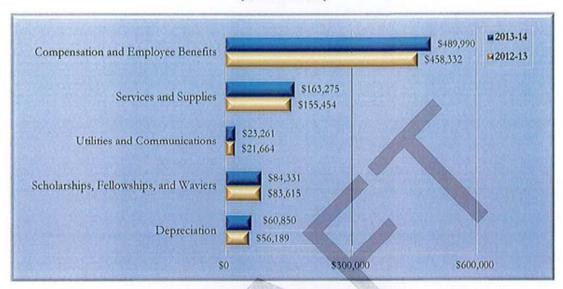

The following summarizes the operating expenses by natural classifications for the 2013-14 and 2012-13 fiscal years:

Operating Expenses
For the Fiscal Years
(In Thousands)

 2013-14		2012-13

\$ 821,707	\$	775,254
	\$ 489,990 163,275 23,261 84,331 60,850	\$ 489,990 \$ 163,275 23,261 84,331 60,850

The following chart presents the University's operating expenses for the 2013-14 and 2012-13 fiscal years:

Operating Expenses (In Thousands)

Operating expenses totaled \$821.7 million for the 2013-14 fiscal year. This represents a \$46.5 million or 6.0 percent increase over the 2012-13 fiscal year. The increase in compensation and employee benefits of \$31.7 million or 6.9 percent was primarily due to increases in salaries of \$14.6 million, health care and retirement contributions of \$11.8 million, and postemployment benefits and compensated absences expenses of \$4.2 million.

Nonoperating Revenues and Expenses

Certain revenue sources that the University relies on to provide funding for operations, including State noncapital appropriations, Federal and State student financial aid, certain gifts and grants, and investment income are defined by GASB as nonoperating. Nonoperating expenses include capital financing costs and other costs related to capital assets. The following summarizes the University's nonoperating revenues and expenses for the 2013-14 and 2012-13 fiscal years:

Nonoperating Revenues (Expenses) For the Fiscal Years (In Thousands)

	:	2013-14	 2012-13
State Noncapital Appropriations	\$	273,554	\$ 195,589
Federal and State Student Financial Aid		137,019	135,539
Investment Income		21,861	10,142
Other Nonoperating Revenues		10,486	9,413
Loss on Disposal of Capital Assets		(263)	(489)
Interest on Capital Asset-Related Debt		(7,648)	(8,402)
Other Nonoperating Expenses	_	(39,231)	(23,162)
Net Nonoperating Revenues	\$	395,778	\$ 318,630

Net nonoperating revenues increased by \$77.1 million or 24.2 percent primarily due to an increase in State noncapital appropriations of \$78.0 million. The fiscal 2013-14 budget adopted by the Florida Legislature restored a \$52 million non-recurring budget reduction from the prior year. In addition, appropriations of \$16.3 million were received for funding of employee compensation and benefits. Other nonoperating expenses primarily consist of expenses incurred by the athletics department and transfers out to other agencies.

Other Revenues, Expenses, Gains, or Losses

This category is mainly composed of State capital appropriations and capital grants, contracts, donations, and fees. The following summarizes the University's other revenues, expenses, gains, or losses for the 2013-14 and 2012-13 fiscal years:

Other Revenues, Expenses, Gains, or Losses For the Fiscal Years (In Thousands)

	2	013-14	2	012-13
State Capital Appropriations Capital Grants, Contracts, Donations, and Fees	\$	21,514 1,766	\$	8,410 1,882
Total	\$	23,280	\$	10,292

Other revenues, expenses, gains, or losses totaled \$23.3 million for the 2013-14 fiscal year. This represents a \$13.0 million increase compared to the 2012-13 fiscal year due primarily to an increase in State capital appropriations.

THE STATEMENT OF CASH FLOWS

The statement of cash flows provides information about the University's financial results by reporting the major sources and uses of cash and cash equivalents. This statement will assist in evaluating the University's ability to generate net cash flows, its ability to meet its financial obligations as they come due, and its need for external financing. Cash flows from operating activities show the net cash used by the operating activities of the University. Cash flows from capital financing activities include all plant funds and related long-term debt activities. Cash flows from investing activities show the net source and use of cash related to purchasing or selling investments, and earning

income on those investments. Cash flows from noncapital financing activities include those activities not covered in other sections.

The following summarizes cash flows for the 2013-14 and 2012-13 fiscal years:

Condensed Statement of Cash Flows For the Fiscal Years (In Thousands)

		2013-14	_	2012-13
Cash Provided (Used) by:				
Operating Activities	\$	(301,469)	\$	(271,785)
Noncapital Financing Activities		396,474		320,040
Capital and Related Financing Activities		(59,324)		(70,537)
Investing Activities	4	(37,167)	_	(29,364)
Net Decrease in Cash and Cash Equivalents		(1,486)		(51,646)
Cash and Cash Equivalents, Beginning of Year	// _	56,410	1	108,056
Cash and Cash Equivalents, End of Year	8	54,924	\$	56,410

Cash and cash equivalents decreased \$1.5 million. Cash used by operating activities increased by \$29.7 million compared to fiscal year 2012-13 due primarily to a \$26.1 million increase in cash payments to employees for compensation. Cash inflows from noncapital financing activities increased by \$76.4 million due primarily to increases in cash received from State noncapital appropriations. Cash used by capital and related financing activities decreased by \$11.2 million due primarily to a decrease of \$18.6 million in purchases and construction of capital assets. Total cash used by investing activities increased by \$7.8 million.

Major sources of funds came from State noncapital appropriations (\$273.6 million), net tuition and fees (\$264.7 million), Federal and State student financial aid (\$136.8 million), and grants and contracts (\$106.0 million). Major uses of funds were for payments made to employees (\$471.6 million), payments to suppliers for goods and services (\$188.2 million), payments to students for scholarships and fellowships (\$84.3 million), and purchase or construction of capital assets (\$63.1 million).

CAPITAL ASSETS, CAPITAL EXPENSES AND COMMITMENTS, AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2014, the University had \$1.5 billion in capital assets, less accumulated depreciation of \$627.6 million, for net capital assets of \$857.2 million. Depreciation charges for the current fiscal year totaled \$60.8 million. The following table summarizes the University's capital assets net of accumulated depreciation at June 30:

Capital Assets, Net at June 30 (In Thousands)

		2014	_	2013
Land	\$	24,822	\$	24,822
Construction in Progress		9,296		55,945
Buildings		722,711	AP.	677,064
Infrastructure and Other Improvements		32,286	1	34,094
Furniture and Equipment	1	42,473		47,414
Library Resources		20,602		23,300
Leasehold Improvements		3,981		5,675
Works of Art and Historical Treasures		992		865
Capital Assets, Net	\$	857,163	\$	869,179

Additional information about the University's capital assets is presented in the notes to financial statements.

CAPITAL EXPENSES AND COMMITMENTS

Major capital expenses through June 30, 2014, were incurred on the following projects completed during the year: Academic Villages II, Classroom Building II, and Parking Garage VII. The University's major construction commitments at June 30, 2014, are as follows:

	mount housands)
Total Committed	\$ 12,972
Completed to Date	 (9,296)
Balance Committed	\$ 3,676

Additional information about the University's construction commitments is presented in the notes to financial statements.

DEBT ADMINISTRATION

As of June 30, 2014, the University had \$207.9 million in outstanding capital improvement debt payable, bonds payable, and installment purchases payable, representing a decrease of \$9.6 million or 4.4 percent from the prior fiscal year.

The following table summarizes the outstanding long-term debt by type for the fiscal years ended June 30:

Long-Term Debt at June 30 (In Thousands)

	 2014	_	2013
Capital Improvement Debt	\$ 151,541	\$	158,975
Bonds Payable	55,380		56,620
Installment Purchases Payable	 950	_	1,900
Total	\$ 207,871	\$	217,495

Additional information about the University's long-term debt is presented in the notes to financial statements.

ECONOMIC FACTORS THAT WILL AFFECT THE FUTURE

The University's economic condition is closely tied to that of the State of Florida. The budget adopted by the Florida Legislature for the 2014-15 fiscal year provided a 7 percent increase to State universities, including \$100 million in new recurring performance-based funding. The University of Central Florida received \$16.7 million of this new performance-based funding in addition to \$14.1 million of recurring funds that were reclassified to performance-based funding. Economic recovery and demand for State resources will continue to influence appropriations to higher education. The University manages these influences through the continual conservation and efficient use of resources and entrepreneurial efforts by academic, administrative, and auxiliary departments.

In addition to State funding, the University relies on other revenue streams to maintain open access to and a high quality of its academic programs. For the 2013-14 fiscal year, gross tuition and fee revenue increased by 1.8 percent. Enrollment remained constant with a student count of approximately 59,700. The University continues to invest in recruitment, retention, and academic advising initiatives to manage enrollment and support students' success.

REQUESTS FOR INFORMATION

Questions concerning information provided in the MD&A or other required supplemental information, and financial statements and notes thereto, or requests for additional financial information should be addressed to Tracy Clark, CPA, Associate Vice President for Finance and Controller, University of Central Florida, 12424 Research Parkway, Suite 300, Orlando, Florida 32826-3249.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity. The University is a separate public instrumentality that is part of the State university system of public universities, which is under the general direction and control of the Florida Board of Governors. The University is directly governed by a Board of Trustees (Trustees) consisting of thirteen members. The Governor appoints six citizen members and the Board of Governors appoints five citizen members. These members are confirmed by the Florida Senate and serve staggered terms of five years. The chair of the faculty senate and the president of the student body of the University are also members. The Board of Governors establishes the powers and duties of the Trustees. The Trustees are responsible for setting policies for the University, which provide governance in accordance with State law and Board of Governors' Regulations. The Trustees select the University President. The University President serves as the executive officer and the corporate secretary of the Trustees and is responsible for administering the policies prescribed by the Trustees.

Criteria for defining the reporting entity are identified and described in the Governmental Accounting Standards Board's (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. These criteria were used to evaluate potential component units for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the primary government's financial statements to be misleading. Based on the application of these criteria, the University is a component unit of the State of Florida, and its financial balances and activities are reported in the State's Comprehensive Annual Financial Report by discrete presentation.

Blended Component Units. Based on the application of the criteria for determining component units, the UCF Finance Corporation (Corporation) and the University of Central Florida College of Medicine Self-Insurance Program (Program) are included within the University's reporting entity as blended component units, and they are therefore reported as if they are part of the University. The Corporation's purpose is to receive, hold, invest, and administer property and to make expenditures to or for the benefit of the University. The Program's purpose is to provide comprehensive general liability and professional liability coverage for the University's Trustees and students for claims and actions arising from clinical activities of the College of Medicine, College of Nursing, UCF Health Services, College of Health and Public Affairs, and the Central Florida Clinical Practice Organization, Inc., faculty, staff, and resident physicians. Condensed financial statements for the University's blended component units are shown in a subsequent note.

Discretely Presented Component Units. Based on the application of the criteria for determining component units, the following direct-support organizations (as provided for in Section 1004.28, Florida Statutes, and Board of Governors Regulation 9.011) and the Central Florida Clinical Practice Organization, Inc. (an affiliated organization) are included within the University reporting entity as discretely presented component units. These legally separate, not-for-profit corporations are organized and operated to assist the University to achieve excellence by providing supplemental resources from private gifts and bequests, and valuable education support services. The Statute authorizes these organizations to receive, hold, invest, and administer property and to make expenditures to or for the benefit of the University. These organizations and their purposes are explained as follows:

- University of Central Florida Foundation, Inc. ("the Foundation"), is a not-for-profit Florida Corporation whose principal function is to provide charitable and educational aid to the University. During the year ended June 30, 2014, the Foundation paid \$5,920,207 for scholarships and institutional support to the University.
- University of Central Florida Research Foundation, Inc., was organized to promote and encourage, as well as assist in, the research activities of the University's faculty, staff, and students.
- UCF Athletics Association, Inc., was organized to promote intercollegiate athletics to benefit the University and surrounding communities.
- UCF Convocation Corporation was created to finance and construct a convocation center, and to manage the Towers student housing and its related retail space on the north side of campus.
- Golden Knights Corporation was created to finance, build, and administer an on-campus football stadium.
- Central Florida Clinical Practice Organization, Inc., is an affiliated organization component unit of the University and was formed for the purpose of supporting the medical education program and clinical faculty within the College of Medicine.

An annual audit of each organization's financial statements is conducted by independent certified public accountants. The annual reports are submitted to the Auditor General and the University Board of Trustees. Additional information on the University's discretely presented component units, including copies of audit reports, is available by contacting the University's Associate Vice President for Finance and Controller. Condensed financial statements for the University's discretely presented component units are shown in a subsequent note.

Basis of Presentation. The University's accounting policies conform with accounting principles generally accepted in the United States of America applicable to public colleges and universities as prescribed by GASB. The National Association of College and University Business Officers (NACUBO) also provides the University with recommendations prescribed in accordance with generally accepted accounting principles promulgated by GASB and the Financial Accounting Standards Board (FASB). GASB allows public universities various reporting options. The University has elected to report as an entity engaged in only business-type activities. This election requires the adoption of the accrual basis of accounting and entitywide reporting including the following components:

- Management's Discussion and Analysis
- Basic Financial Statements:
 - · Statement of Net Position
 - · Statement of Revenues, Expenses, and Changes in Net Position
 - · Statement of Cash Flows
 - Notes to Financial Statements
- Other Required Supplementary Information

Basis of Accounting. Basis of accounting refers to when revenues, expenses, and related assets, deferred outflows of resources and liabilities, are recognized in the accounts and reported in the financial statements. Specifically, it relates to the timing of the measurements made, regardless of the measurement focus applied. The

University's financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, deferred outflows of resources, and liabilities resulting from nonexchange activities are generally recognized when all applicable eligibility requirements, including time requirements, are met. The University follows GASB standards of accounting and financial reporting.

The University's blended and discretely presented component units use the economic resources measurement focus and accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred, and they follow GASB standards of accounting and financial reporting.

Significant interdepartmental sales between auxiliary service departments and other institutional departments have been accounted for as reductions of expenses and not revenues of those departments.

The University's principal operating activities consist of instruction, research, and public service. Operating revenues and expenses generally include all fiscal transactions directly rolated to these activities as well as administration, operation, and maintenance of capital assets and depreciation on capital assets. Nonoperating revenues include State noncapital appropriations, Federal and State student financial aid, investment income (net of unrealized gains or losses on investments), and revenues for capital construction projects. Interest on capital asset-related debt is a nonoperating expense.

The statement of net position is presented in a classified format to distinguish between current and noncurrent assets and liabilities. When both restricted and unrestricted resources are available to fund certain programs, the University's policy is to apply first the restricted resources to such programs, followed by the use of the unrestricted resources.

The statement of revenues, expenses, and changes in net position is presented by major sources and is reported net of tuition scholarship allowances. Tuition scholarship allowances are the difference between the stated charge for goods and services provided by the University and the amount that is actually paid by a student or a third party making payment on behalf of the student. The University applied "The Alternate Method" as prescribed in NACUBO Advisory Report 2000-05 to determine the reported net tuition scholarship allowances. Under this method, the University computes these amounts by allocating the cash payments to students, excluding payments for services, on a ratio of total aid to the aid not considered third-party aid.

The statement of cash flows is presented using the direct method in compliance with GASB Statement No. 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting.

Cash and Cash Equivalents – University. Cash and cash equivalents consist of cash on hand and cash in demand accounts, money market funds, and investments with original maturities of three months or less. The University cash deposits are held in banks qualified as public depositories under Florida law. All such deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool required by Chapter 280, Florida Statutes. The University also holds \$38,817,004 in money market funds and short-term investments. The money market funds and investments are permissible under the current investment policy; the primary portion of these investments are held in Rule 2a-7

mutual funds and securities rated AAA (or its equivalent) by a Nationally Recognized Statistical Rating Organization (NRSRO). The Corporation, a blended component unit, holds \$5,919,393 in money market funds. The money market funds are uninsured but collateralized by securities held by the financial institutions not in the name of the Corporation. Cash and cash equivalents that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other restricted assets are classified as restricted.

<u>Cash and Cash Equivalents – Discretely Presented Component Units</u>. Cash and cash equivalents for the University's discretely presented component units are reported as follows:

Component Unit		Cash in Bank	Money Market Funds	1	Short-Term Suaranteed Investment Contracts		Total
The University of Central Florida	e	9,631,653	\$ 6,728,926	\$	-	\$	16,360,579
Foundation, Inc. The University of Central Florida	\$	9,031,033	0,120,820	÷		•	10,000,010
Research Foundation, Inc.		1,534,603	3,678,161				5,212,764
The UCF Athletics Association, Inc.		2.593.441	-				2,593,441
The UCF Convocation Corporation			14,252,978		10,054,831		24,307,809
The Golden Knights Corporation			6,096,017		3,031,485		9,127,502
The Central Florida Clinical			A				500 470
Practice Organization, Inc.		526,476	-	_	<u>-</u>	_	526,476
Total Component Units	\$	14,286,173	\$ 30,756,082	\$	13,086,316	\$	58,128,571

The University holds certain cash balances for various discretely presented component units. Cash held for University of Central Florida Research Foundation, Inc., UCF Convocation Corporation, and Golden Knights Corporation was \$2,699,789, \$4,204,516, and \$744,508, respectively.

UCF Convocation Corporation and Golden Knights Corporation. These component units follow the investment policy of the University for managing credit risks. Money market funds are uninsured and collateralized by securities held by the institution, not in the Corporations' names. The money market funds invest in diversified portfolios of high-quality, dollar-denominated short-term debt securities. Short-term guaranteed investment contracts are investment vehicles that guarantee a return on principal invested in the account over the life of the investment. For the year ended June 30, 2014, the Corporations had benefitresponsive investment contracts with an insurance company that maintains the funds in guaranteed interest accounts. The accounts are credited with earnings on the underlying investments and are subject to withdrawals. The contracts are included in the financial statements at fair value as reported to the Corporations by the insurance company. Fair value represents contributions made under the contract plus earnings less plan withdrawals. There are no reserves against fair values for credit risk of the contract issuer or otherwise. For 2014, the average yield and crediting interest rates were 5.0 percent for the Convocation Corporation and 5.0 percent for the Golden Knights Corporation, based on maturities through June 30, 2015, and June 30, 2014, respectively. These assets are segregated and subject to withdrawal by the authorized trustee. The guaranteed investment contracts were purchased by the corporations to invest the unused proceeds received from the issuance of debt.

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Pursuant to Section 218.415(16), Florida Statutes, the Corporations' investments in securities must provide sufficient liquidity to pay obligations as they come due.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The University's investment policy limits fixed income exposure to investment grade assets and provides credit quality guidelines applicable to the investment objective. The investment policies provide information on asset classes, target allocations, and ranges of acceptable investment categories.

Custodial Credit Risk: Custodial credit risk is the risk that, in the event of the failure of the counterparty, the corporations will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. In order to manage the custodial credit risk, the University's investment policy specifies certain requirements to pre-qualify financial institutions and brokers or dealers and requires an annual review of the institutions used. The Corporations' investments are held by a third-party custodian, not in the name of the corporations.

Other Component Units

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the component unit will not be able to recover deposits.

- University of Central Florida Foundation, Inc. Cash deposits consist of non-interest-bearing demand deposits, money market, and cash deposits swept on an overnight basis from operating bank accounts into interest-bearing money market accounts with maturity dates of less than 90 days. At June 30, 2014, approximately \$10,344,124 in cash deposits were not insured by Federal deposit insurance and were not collateralized.
- University of Central Florida Research Foundation, Inc. At June 30, 2014, the Research Foundation had deposits in banking institutions. A portion of the deposits, totaling \$73,848, were in excess of the Federal deposit insurance limit as of June 30, 2014.
 - The Research Foundation maintains a repurchase sweep account with a local bank. The target balance in the main operating account is "swept" overnight by the bank and is collateralized by mortgage-backed securities issued by the Federal National Mortgage Association and/or the Federal Home Loan Mortgage Corporation, which have been temporarily sold to the Research Foundation under the terms of the repurchase agreement. The balance in the repurchase account as of June 30, 2014, was \$1,203,995. This amount is not included in the deposit amount uninsured by FDIC.
- UCF Athletics Association, Inc. The Association does not have a deposit policy for custodial credit risk although all demand deposits with banks are federally insured up to FDIC limits. As of June 30, 2014, \$2,829,312 of the Association's bank balance was exposed to custodial credit risk as uninsured and uncollateralized.

<u>Capital Assets</u>. University capital assets consist of land; construction in progress; buildings, infrastructure and other improvements; furniture and equipment; library resources; leasehold inprovements; works of art and historical treasures; and computer software and other capital assets. These assets are capitalized and recorded at

cost at the date of acquisition or at estimated fair value at the date received in the case of gifts and purchases of State surplus property. Additions, improvements, and other outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The University has a capitalization threshold of \$4 million for intangible assets, which includes computer software, and \$5,000 for tangible personal property. New buildings and improvements have a \$100,000 capitalization threshold. Depreciation is computed on the straight-line basis over the following estimated useful lives:

- ➤ Buildings 20 to 50 years
- ➤ Infrastructure and Other Improvements 12 to 50 years
- ➤ Furniture and Equipment 5 to 10 years
- ➤ Library Resources 10 years
- ➤ Leasehold Improvements the lesser of the remaining lease term, or the estimated useful life of the improvement
- Works of Arts and Historical Treasures- 5 to 15 years
- ➤ Other Capital Assets 5 to 10 years

Noncurrent Liabilities. Noncurrent liabilities include principal amount of capital improvement debt payable, bonds payable, installment purchases payable, compensated absences payable, other postemployment benefits payable, and other noncurrent liabilities that are not scheduled to be paid within the next fiscal year. Capital improvement debt is reported net of unamortized premium or discount. The University amortizes debt premiums and discounts over the life of the debt using the straight-line method.

2. INVESTMENTS

Section 1011.42(5), Florida Statutes authorizes universities to invest funds with the State Treasury and State Board of Administration (SBA), and the statute requires that universities comply with the statutory requirements governing investment of public funds by local governments. Accordingly, universities are subject to the requirements of Chapter 218, Part IV, Florida Statutes. The University's Board of Trustees has adopted a written investment policy establishing investment parameters within applicable Florida Statutes and the University investment manual. Pursuant to Section 218.415(16), Florida Statutes, the University is authorized to invest in the Florida PRIME investment pool administered by the SBA; interest-bearing time deposits and savings accounts in qualified public depositories, as defined in Section 280.02, Florida Statutes; direct obligations of the United States Treasury; obligations of Pederal agencies and instrumentalities; securities of, or interests in, certain open-end or closed-end management type investment companies; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; and other investments approved by the University's Board of Trustees as authorized by law. Investments set aside to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital assets are classified as restricted.

The University's investments at June 30, 2014, are reported at fair value, as follows:

Investment Type		Amount
External Investment Pools:		
State Treasury Special Purpose Investment Account	\$	272,979,393
SBA Florida PRIME		1,437
SBA Fund B Surplus Funds Trust Fund		20
SBA Debt Service Accounts		1,402,443

External Investment Pools -State Treasury Special Purpose Investment Account

The University reported investments at fair value totaling \$272,979,393 at June 30, 2014, in the State Treasury Special Purpose Investment Account (SPIA) investment pool, representing ownership of a share of the pool, not the underlying securities. The SPIA carried a credit rating of A+f by Standard & Poor's, had an effective duration of 2.57 years, and had a fair value factor of 1.0074 at June 30, 2014. The University relies on policies developed by the State Treasury for managing interest rate risk or credit risk for this investment pool. Disclosures for the State Treasury investment pool are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

State Board of Administration Debt Service Accounts

The University reported investments totaling \$1,402,443 at June 30, 2014, in the SBA Debt Service Accounts. These investments are used to make debt service payments on bonds issued by the State Board of Education for the benefit of the University. The University's investments consist of United States Treasury securities with maturity dates of six months or less, and they are reported at fair value. The University relies on policies

developed by the SBA for managing interest rate risk or credit risk for these accounts. Disclosures for the Debt Service Accounts are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

Other Investments

The University and its discretely presented component units invested in various debt and equity securities, money market funds, mutual funds, and certificates of deposit. The following risks apply to the University's and its discretely presented component units' investments other than external investment pools:

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Pursuant to Section 218.415(16), Florida Statutes, the University's investments in securities must provide sufficient liquidity to pay obligations as they come due. Investments of the University and its component units in debt securities and bond mutual funds, and their future maturities at June 30, 2014, are as follows:

University Debt Investments Maturities

Investment Type		Fair	0	Invest	ment	s Maturities (In	Yea	ars)
		Value	_	Less Than 1		1 - 5		More Than 5
U.S. Government and Federally-Guaranteed Obligations	\$	49,516,070	\$	10,867,851	\$	35,538,360	\$	3,109,859
Federal Agency Obligations Bonds and Notes	27	23,017,776 55,908,991		340,344 2,508,106		5,887,194 41,811,220		16,790,238 11,589,665
Mutual Funds - Bonds		8,708,788	_	43,585		5,099,081	_	3,566,122
Total University	\$	137,151,625	\$	13,759,886	\$	88,335,855	\$	35,055,884

Component Units' Debt Investments Maturities

Investment Type	Fair		Invest	Years)			
mount if	Value	Less Than 1		1 - 5			More Than 5
Mutual Funds - Bonds	\$ 49,523,926	\$	5,886,703	\$	40,037,140	\$	3,600,083
Total Component Units	\$ 49,523,926	\$	5,886,703	\$	40,037,140	\$	3,600,083

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Obligations of the United States government or obligations explicitly guaranteed by the United States government are not considered to have credit risk and do not require disclosure of credit quality. The University's investment policy limits fixed income exposure to investment grade assets and provides credit quality guidelines applicable to the investment objective. The University's component units' investment policies provide information on asset classes, target allocations, and ranges of acceptable investment categories. The following schedule represents the ratings at June 30, 2014, of the University's and its component units' debt instruments using Moody's and Standard and Poor's, nationally recognized rating agencies:

University Debt Investments Quality Ratings

Investment Type	_	Fair Value		AAA		AA	_	Α	1,000	Not Rated
Federal Agency Obligations Bonds and Notes Mutual Funds - Bonds	\$	23,017,776 55,908,991 8,708,788	\$	23,017,776 19,454,641	\$	10,587,882 1,124,519	\$	24,617,273 7,584,269	\$	1,249,195 -
Total University	\$	87,635,555	\$	42,472,417	\$	11,712,401	\$	32,201,542	\$	1,249,195
Investment Type	(Component U	nits'	Debt Investn	nents	AA AA	ngs	A	ı	ess Than
		Value								Α
Mutual Funds - Bonds	\$	Value 49,523,926	\$	5,886,703	5	26,098,890	\$	8,853,855	\$	A 8,684,478

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of the University's or its component units' investments in a single issuer. The University's and its component units' investment policies require diversification sufficient to reduce the potential of a single security, single sector of securities, or single style of management having a disproportionate or significant impact on the portfolio. The University's policy states that not more than 5 percent of the investment portfolio's assets shall be invested in securities on any one issuing company, and no single corporate bond issuer shall exceed 5 percent of the portfolio. Guidelines for individual sectors of the portfolio further indicate percentage limitations.

3. RECEIVABLES

Accounts Receivable. Accounts receivable represent amounts for contract and grant reimbursements due from third parties, student tuition and fees, various sales and services provided to students and third parties, and interest accrued on investments and loans receivable. As of June 30, 2014, the University reported the following amounts as accounts receivable:

Description	Amount				
Grants and Contracts	\$ 21,991,426				
Student Tuition and Fees	16,502,597				
Other	7,240,040				
Total Accounts Receivable, Net	\$ 45,734,063				

<u>Loans and Notes Receivable</u>. Loans and notes receivable represent all amounts owed on promissory notes from debtors, including student loans made under the Federal Perkins Loan Program and other loan programs.

Allowance for Doubtful Receivables. Allowances for doubtful accounts and loans and notes receivable are reported based on management's best estimate as of fiscal year-end considering type, age, collection history, and other factors considered appropriate. Accounts receivable and loans and notes receivable are reported net of allowances of \$1,667,000 and \$789,231 respectively, at June 30, 2014.

4. DUE FROM STATE

This amount consists of \$33,547,994 of Public Education Capital Outlay, Capital Improvement Fee Trust Fund, or other allocations due from the State to the University for construction of University facilities.

5. CAPITAL ASSETS

Capital assets activity for the fiscal year ended June 30, 2014, is shown below:

Description	Beginning Balance		Additions		Reductions		Ending Balance		
Nondepreciable Capital Assets: Land Works of Art and Historical Treasures Construction in Progress	\$	24,821,959 218,000 55,945,203	5	22,583,921	\$	69,233,237	\$	24,821,959 218,000 9,295,887

Total Depreciable Capital Assets, Net	\$	788,193,612	\$	40,006,770	\$	5,372,894	\$	822,827,488	

6. UNEARNED REVENUE

Unearned revenue includes grant and contract prepayments, auxiliary prepayments, and student tuition and fees received prior to fiscal year-end related to subsequent accounting periods. As of June 30, 2014, the University reported the following amounts as unearned revenue:

Description	Amount				
Grant and Contract Prepayments	\$	6,140,051			
Auxiliary Prepayments		7,136,158			
Student Tuition and Fees		935,007			
Total Unearned Revenue	\$	14,211,216			

7. DEFERRED OUTFLOW OF RESOURCES

The University's blended component unit (Corporation) entered into an interest rate swap agreement in connection with its \$60 million bond issuance to manage the risk of rising interest rates on its variable rate-based debt. Deferred outflow of resources includes the effect of deferring accumulated decreases in fair value of a hedging derivative related to this interest rate swap agreement. The Bonds Payable section of Note 8 below includes a complete discussion of the swap agreement.

8. LONG-TERM LIABILITIES

Long-term liabilities of the University at June 30, 2014, include capital improvement debt payable, bonds payable, installment purchases payable, compensated absences payable, and other postemployment benefits payable. Long-term liabilities activity for the fiscal year ended June 30, 2014, is shown below:

Description	Beginning Balance		Additions		Reductions		Ending Balance		Current Portion	
Capital Improvement Debt Payable	\$ 168,974,6	47	s -	\$	7,433,920	\$	151,540,727	\$	8,280,000	
Bonds Payable	56,620,0	00			1,240,000		55,380,000		1,295,000	
Installment Purchase Payable	1,900,0	00			950,000		950,000		950,000	
Compensated Absences Payable Other Postemployment	39,878,1	33	6,640,098		3,207,254		43,310,977		3,031,768	
Benefits Payable	35,492,0	00	14,095,000		1,410,000		48,177,000		-	
Interest Rate Swap	11,583,0	87			364,030		11,219,057		-	
Other Noncurrent Liabilities	6,853,3	32			60,000		6,793,332

<u>Capital Improvement Debt Payable</u>. The University had the following capital improvement debt payable outstanding at June 30, 2014:

Type and Series		Amount Amount of Original Outstanding Debt (1)		Interest Rates (Percent)	Maturity Date To	
Student Housing Debt:					A	
2002 - Housing	\$	14,055,000	\$	7,454,152	3.875 - 4.5	2021
2007A - Housing		38,780,000		31,557,533	4.0 - 5.5	2030
2012A - Housing	_	66,640,000	_	68,138,906	3.0 - 5.0	2042
Total Student Housing Debt	_	119,475,000	_	107,150,591		
Bookstore Debt:			1			× (84,654)
1997	_	3,570,000	Δ	792,429	5.10 - 5.125	2017
Student Health Center Debt:						
2004A	_	8,000,000	_	4/788:244	4.2 - 5.0	2024
Parking Garage Debt:		1		10		
2004A - Parking Garage V		18,455,000	400	9,032,704	3.5 - 4.2	2024
2010A - Parking Garage VI		3,855,000	1	1,404,169	4.0	2016
2010B - Parking Garage VI	600	11,140,000		11,140,000	4.5 - 6.2	2029
2011A - Parking Garage	10	11,005,000		9,402,267	3.0 - 5.0	2022
2012A - Parking Garage	1	7,860,000		7,830,323	3.0 - 5.0	2032
Total Parking Garage Debt		52,315,000	-	38,809,463		
Total Capital Improvement Debt	5	183,360,000	\$	151,540,727		

Note: (1) Amount outstanding includes unamortized discounts and premiums.

The University has pledged a portion of future housing rental revenues, bookstore revenues, parking and transportation fees, and health service facility fees based on credit hours to repay \$183,360,000 in capital improvement revenue bonds issued by the Florida Board of Governors on behalf of the University. Proceeds from the bonds provided financing to construct student housing, a bookstore, student health facilities, and student parking garages. The bonds are payable solely from housing revenues, bookstore revenues, parking revenues, and student health fees, and they are payable through 2042. The University has committed to appropriate each year amounts sufficient to cover the principal and interest requirements on the debt. Total principal and interest remaining on the debt is \$215,129,321, and principal and interest paid for the current year totaled \$13,993,904. During the 2013-14 fiscal year, operating revenues generated from housing revenues, bookstore revenues, parking revenues, and student health fees totaled \$28,701,629, \$1,675,257, \$18,710,830, and \$14,126,908, respectively.

Annual requirements to amortize all capital improvement debt outstanding as of June 30, 2014, are as follows:

Fiscal Year Ending June 30	Principal		_	Interest		Total
2015	\$	8,280,000	\$	6,534,437	\$	14,814,437
2016		8,610,000		6,209,420		14,819,420
2017		8,435,000		5,832,471		14,267,471
2018		8,520,000		5,430,116		13,950,116
2019		8,355,000		5,013,526	>	13,368,526
2020-24		40,405,000		18,989,853		59,394,853
2025-29		33,130,000		10,451,398		43,581,398
2030-34		15,230,000		4,897,700		20,127,700
2035-39		10,315,000	1	2,689,719		13,004,719
2040-42	_	7,325,000	7	475,681		7,800,681
Subtotal		148,605,000	~	66,524,321	1	215,129,321
Plus: Net Bond Discounts and Premiums		2,935,727	_		_	2,935,727
Total	\$	151,540,727	\$	66,524,321	\$	218,065,048

Bonds Payable. One of the University's blended component units, the UCF Finance Corporation (Corporation), issued \$60 million in bonds to finance the construction of the Burnett Biomedical Sciences Building, part of the University's medical school. The bonds are secured by indirect cost revenues received by the University from Federal, State, and private grants and further secured by a letter of credit issued by a local bank not to exceed \$60 million. The bonds are variable interest rate bonds with a synthetic interest rate of 4.49 percent at June 30, 2014. They mature on July 1, 2037.

The University agreed to use a ground sublease to lease to its blended component unit, the Corporation, a parcel of property located in Orange County, Florida, where approximately 198,000 square feet of classroom, laboratory, and administrative office space together with related infrastructure was constructed. The facilities are used solely for education and research purposes and are operated and managed by the University. The University and the Corporation entered into an agreement where the Corporation leases the facilities to the University for the occupancy of the facilities. The University has agreed to pay a base rent equal to all amounts due and payable under the bond indenture and all amounts required to be paid associated with the bond issuance.

Annual requirements to amortize the outstanding bonds as of June 30, 2014, are as follows:

		Bonds	Paya	able				
Fiscal Year Ending June 30		Principal		Interest		Interest ate Swap	_	Net Cash Flows
2015	\$	1,295,000	\$	2,423,428	\$	60,918	\$	3,779,346
2016		1,355,000		2,366,759		59,493		3,781,252
2017		1,415,000		2,307,464		58,003		3,780,467
2018		1,490,000		2,245,544		56,446		3,791,990
2019		1,555,000		2,180,342		54,807		3,790,149
2020-24		8,945,000		9,814,491		246,708		19,006,199
2025-29		11,245,000		7,665,437		192,687		19,103,124
2030-34		14,160,000		4,961,289		124,712		19,246,001
2035-38	_	13,920,000	_	1,557,855	_	39,160	_	15,517,015
Total	\$	55,380,000	\$	35,522,609	\$	892,934	\$	91,795,543

The Corporation entered into an interest rate swap agreement in connection with its \$60 million variable-rate bond issuance as a means to lower its borrowing costs when compared with fixed-rate bonds at the time of their issuance in June 2007. The Corporation utilizes such derivatives to manage the risk of rising interest rates on its variable interest rate-based debt. The counterparty to the interest rate swap agreement is a regional bank. Credit loss from counterparty nonperformance is not anticipated. Under the interest rate swap agreement, the Corporation pays the counterparty a fixed payment of 4.38 percent and receives a variable payment based on the Securities Industry and Financial Market Association swap index (0.04 percent at June 30, 2014). The variablerate coupons of the bonds are reset weekly by auction. As of June 30, 2014, the Corporation was not exposed to credit risk on this interest rate swap agreement because it had a negative fair value of \$11,219,057, which is reported in deferred outflows of resources on the statement of net position. This deferred outflow reflects the settlement amount the Corporation would have to pay on June 30, 2014, to cancel the interest rate swap agreement. The liability is estimated based on valuation models. If interest rates change and the fair value of the interest rate swap agreement becomes positive, the Corporation would have a gross exposure to credit risk in the amount of the derivative's fair value. In accordance with the Corporation's policy to mitigate the potential for credit risk, the Corporation may require that the fair value of the interest rate swap agreement be fully collateralized by a letter of credit if the counterparty's credit quality falls below AA/Aa. As of June 30, 2014, collateralization was not required due to the swap agreement having a negative fair value.

The University entered into a support agreement such that it will fund certain deficiencies that may arise in the event the Corporation is unable to make the minimum payments on the bonds. The University is obligated only to the extent it has legally available revenues to cover the unpaid amounts.

Compensated Absences Payable. Employees earn the right to be compensated during absences for annual leave (vacation) and sick leave earned pursuant to Board of Governors regulations, University regulations, and bargaining agreements. Leave earned is accrued to the credit of the employee and records are kept on each employee's unpaid (unused) leave balance. The University reports a liability for the accrued leave; however, State noncapital appropriations fund only the portion of accrued leave that is used or paid in the current fiscal year. Although the University expects the liability to be funded primarily from future appropriations, generally accepted accounting principles do not permit the recording of a receivable in anticipation of future appropriations. At June 30, 2014, the estimated liability for compensated absences, which includes the University's share of the Florida Retirement System and FICA contributions, totaled \$43,310,977. The current portion of the compensated absences liability, \$3,031,768, is the amount expected to be paid in the coming fiscal year, and it is based on actual payouts over the last three years calculated as a percentage of those years' total compensated absences liability.

Other Postemployment Benefits Payable. The University follows GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, for certain postemployment healthcare benefits administered by the State Group Health Insurance Program.

Plan Description. Pursuant to the provisions of Section 112.0801, Florida Statutes, all employees who retire from the University are eligible to participate in the State Group Health Insurance Program, an agent multiple-employer, defined-benefit plan (Plan). The University subsidizes the premium rates paid by retirees by allowing them to participate in the Plan at reduced or blended group (implicitly subsidized) premium rates for both active

and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the Plan on average than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. A stand-alone report is not issued and the Plan information is not included in the report of a public employee retirement system or another entity.

Funding Policy. Plan benefits are pursuant to the provisions of Section 112.0801, Florida Statutes, and benefits and contributions can be amended by the Florida Legislature. The University has not advance-funded or established a funding methodology for the annual other postemployment benefit (OPEB) costs or the net OPEB obligation, and the Plan is financed on a pay-as-you-go basis. For the 2013-14 fiscal year, 422 retirees received postemployment healthcare benefits. The University provided required contributions of \$1,410,000 toward the annual OPEB cost, comprised of benefit payments made on behalf of retirees for claims expenses (net of reinsurance), administrative expenses, and reinsurance premiums. Retiree contributes totaled \$2,540,000, which represents 0.8 percent of covered payroll.

Annual OPEB Cost and Net OPEB Obligation. The University's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that if paid on an ongoing basis is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the University's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the University's net OPEB obligation:

Description	Amount
Normal Cost (Service Cost for One Year)	\$ 8,637,000
Amortization of Unfunded Actuarial	
Accrued Liability	4,733,000
Interest on Normal Cost and Amortization	535,000
Annual Required Contribution	13,905,000
Interest on Net OPEB Obligation	1,420,000
Adjustment to Annual Required Contribution	(1,230,000)
Annual OPEB Cost (Expense)	14,095,000
Contribution Toward the OPEB Cost	(1,410,000)
Increase in Net OPEB Obligation	12,685,000
Net OPEB Obligation, Beginning of Year	35,492,000
Net OPEB Obligation, End of Year	\$ 48,177,000

The University's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation as of June 30, 2014, and for the two preceding fiscal years were as follows:

Fiscal Year	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2011-12	\$ 11,469,000	14.2%	\$ 25,828,000
2012-13	11,519,000	16.1%	35,492,000
2013-14	14,095,000	10.0%	48,177,000

Funded Status and Funding Progress. As of July 1, 2013, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$141,984,000, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$141,984,000, and a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$305,107,256 for the 2013-14 fiscal year, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 46.5 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information following the notes to financial statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The University's OPEB actuarial valuation as of July 1, 2013, used the entry-age cost actuarial method to estimate the actuarial accrued liability as of June 30, 2014, and the University's 2013-14 fiscal year ARC. This method was selected because it is the same method used for the valuation of the Florida Retirement System. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 4 percent rate of return on invested assets. The actuarial assumptions also included a payroll growth rate of 4 percent per year and an inflation rate of 3 percent. Initial healthcare cost trend rates were 7.4 percent, 7 percent, and 8.2 percent for the first three years, respectively, for all retirees in the Preferred Provider Option (PPO) Plan, and 3.9 percent, 7.8 percent, and 8.3 percent for the first three years for all retirees in the Health Maintenance Organization (HMO) Plan. The PPO and HMO healthcare trend rates both grade down to an ultimate rate of 5 percent over 70 years. The unfunded

actuarial accrued liability is being amortized over 30 years using the level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2014, was 23 years.

Interest Rate Swap. As described previously in the Bonds Payable paragraph above, the Corporation entered into an interest rate swap agreement in connection with its \$60 million bond issuance. As of June 30, 2014, this interest rate swap agreement had a negative fair value of \$11,219,057.

Other Noncurrent Liabilities. Other noncurrent liabilities consist mainly of the liability for the Federal Capital Contribution (advance) provided to fund the University's Federal Perkins Loan Program and an interest rate swap agreement. Under the Perkins Loan program, the University receives Federal capital contributions that must be returned to the Federal Government if the program has excess cash or the University ceases to participate in the program. Federal capital contributions held by the University totaled \$6,793,332 at June 30, 2014.

Certificate of Participation Payable – Component Units. During the 2004-05 and 2005-06 fiscal years, two certificates of participation were issued by the UCF Convocation Corporation to fund the construction of four residential housing towers, two adjacent parking facilities, and certain surrounding commercial retail space. Also during the 2005-06 fiscal year, the UCF Convocation Corporation issued two additional certificates of participation to fund the acquisition, construction, and installation of a new convocation center, renovation of the existing University Arena, and construction of related infrastructure.

The UCF Convocation Corporation extinguished Certificate of Participation long-term debt obligations by the issuance of a new Certificate of Participation debt instrument as follows:

On May 29, 2014, the UCF Convocation Corporation issued a \$58,645,000 Refunding Certificate of Participation, Series 2014A to a bank. The certificate will mature on October 1, 2034, and bears interest at a fixed rate of 3.61 percent per annum. Proceeds of \$58,482,785 from the Refunding Certificate plus an additional \$1,236,784 from a Series 2004A account were used to purchase \$59,719,568 of U.S. Treasury State and Local Government Series Securities. These securities were placed in an irrevocable trust with an escrow agent to provide for all future debt service payments on the Series 2004A tax-exempt certificates, which defeased the certificates. The trust assets and the liability for the defeased certificates are not included in the statement of net position. The trust extinguished the defeased certificates on October 1, 2014. At June 30, 2014, the outstanding balance of the defeased debt was \$58,290,000. As a result of the refunding, the UCF Convocation Corporation reduced its capital improvement debt service requirement by \$9,893,750 over the next 20 years and obtained an economic gain of \$6,944,510.

The outstanding balance of the remaining certificates at June 30, 2014, was \$212,430,000 before an unamortized premium of \$3,050,586.

During the 2006-07 fiscal year, certificates of participation were issued by the Golden Knights Corporation for the construction of a football stadium on the campus of the University. The outstanding balance of these certificates at June 30, 2014, was \$40,600,000 before an unamortized premium of \$405,064. The certificates are secured by a pledge from the UCF Athletic Association, Inc., of gross ticket revenues, Association rent, conference distributions, and sponsorship revenue.

The University entered into support agreements with the UCF Convocation Corporation and the Golden Knights Corporation such that it will fund certain deficiencies that may arise in the event either corporation is unable to

make the minimum payments on the bonds. The University is obligated only to the extent it has legally available revenues to cover the unpaid amounts.

In addition, the University has entered into various support agreements with UCF Convocation Corporation whereby, in the event of certain deficiencies for debt service coverage requirements or reserve account shortfalls, the University agrees to transfer funds to cover any such deficiencies. For the fiscal year ended June 30, 2014, transfers from the University totaled \$2,500,000.

Also, in fiscal year 2014, the UCF Convocation Corporation met requirements necessary to release certain restricted funds held by the Convocation Corporation's trustee. The Convocation Corporation's governing board made the decision to remit these funds back to the University. Transfers to the University were \$1,902,774 for the fiscal year ended June 30, 2014.

Loans and Notes Payable – Component Units. In October 1997, the University of Central Florida Foundation, Inc., signed renewal annuity notes payable with two Charitable Remainder Annuity Trusts for which the Foundation is named as irrevocable beneficiary. As of June 30, 2014, the outstanding principal balance of the notes payable was \$1,968,352, and annuity obligations were \$503,494. The notes mature in October 2017.

During the 2004-05, the University of Central Florida Foundation, Inc., entered into two notes of \$10,400,000 and \$2,800,000, respectively, with banks for land and buildings purchased. The \$10,400,000 note was refinanced during the 2008-09 fiscal year. The notes are secured by the land and lease revenues. The combined outstanding balances of the notes payable at June 30, 2014, were \$10,115,000, and the notes mature on April 1, 2029, and April 1, 2015.

During the 2007-08 fiscal year, the Golden Knights Corporation entered into a loan agreement with a bank for \$16,700,000. The proceeds of the loan were used to purchase all of the formerly issued and outstanding Series 2006B Taxable certificates of participation. Those certificates of participation are held in trust and have been registered in the name of the bank as pledgee. The note is payable from and secured by a lien upon and pledge of all the payments received with respect to the certificates. The outstanding balance of the note payable at June 30, 2014, was \$11,825,000, and the loan matures on April 1, 2016.

During the 2009-10 fiscal year, the University of Central Florida Foundation, Inc., entered into a loan agreement with a bank for \$19,925,000. The note is comprised of both a tax-exempt portion and a taxable portion. The note is secured by building and lease revenue. The outstanding balance for both the taxable and tax exempt portions was \$16,960,000 and the loan matures on October 1, 2025.

The University of Central Florida Foundation, Inc., entered into a \$2,450,000 line of credit with a credit union for construction of the Alumni Center. As of June 30, 2014, the outstanding principal balance of the line of credit was \$323,425.

9. RETIREMENT PROGRAMS

Florida Retirement System. Essentially all regular employees of the University are eligible to enroll as members of the State-administered Florida Retirement System (FRS). Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions,

and benefits are defined and described in detail. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and it consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (Plan), with a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the FRS Investment Plan (Investment Plan).

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service, except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Members of both Plans may include up to four years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. University employees already participating in the State University System Optional Retirement Program or DROP are not eligible to participate in this program. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded by employer and employee contributions that are based on salary and membership class (Regular Class, Senior Management Service Class, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the Investment Plan vest at one year of service.

The State of Florida establishes contribution rates for participating employers and employees. Contribution rates during the 2013-14 fiscal year were as follows:

Class	Percent of Gross Salary					
	Employee	Employer				
	_	(A)				
Florida Retirement System, Regular	3.00	6.95				
Florida Retirement System, Senior Management Service	3.00	18.31				
Florida Retirement System, Special Risk	3.00	19.06				
Deferred Retirement Option Program - Applicable to	A 40					
Members from All of the Above Classes	0.00	12.84				
Florida Retirement System, Reemployed Retiree	(B)	(B)				

Notes: (A) Employer rates include 1.20 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.03 percent for administrative costs of the Investment Plan.

(B) Contribution rates are dependent upon retirement class in which reemployed.

The University's liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the University. The University's contributions including employee contributions for the fiscal years ended June 30, 2012, June 30, 2013, and June 30, 2014, totaled \$7,435,235, \$7,750,823, and \$10,053,835, respectively, which were equal to the required contributions for each fiscal year.

There were 805 University participants in the Investment Plan during the 2013-14 fiscal year. The University's contributions including employee contributions to the Investment Plan totaled \$3,114,368, which was equal to the required contribution for the 2013-14 fiscal year.

Financial statements and other supplementary information of the FRS are included in the State's Comprehensive Annual Financial Report, which is available from the Florida Department of Financial Services. An annual report on the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information is available from the Florida Department of Management Services, Division of Retirement.

<u>State University System Optional Retirement Program</u>. Section 121.35, Florida Statutes, provides for an Optional Retirement Program (Program) for eligible university instructors and administrators. The Program is designed to aid State universities in recruiting employees by offering more portability to employees not expected to remain in FRS for eight or more years.

The Program is a defined-contribution plan, which provides full and immediate vesting of all contributions submitted to the participating companies on behalf of the participant. Employees in eligible positions can make

an irrevocable election to participate in the Program rather than the FRS, and they can purchase retirement and death benefits through contracts provided by certain insurance carriers. The employing university contributes, on behalf of the participant, 7.34 percent of the participant's salary, which includes 2.19 percent for unfunded actuarial liabilities for the FRS defined-benefit plan and a small amount used to cover administrative costs. Employees contribute 3 percent of the employee's salary. Additionally, the employee may contribute by payroll deduction an amount not to exceed the percentage contributed by the University to the participant's annuity account. The contributions are invested in the company or companies selected by the participant to create a fund for the purchase of annuities at retirement.

There were 2,178 University participants during the 2013-14 fiscal year. The University's contributions to the Program totaled \$12,921,521, and employee contributions totaled \$9,288,348 for the 2013-14 fiscal year.

10. CONSTRUCTION COMMITMENTS

The University's construction commitments at June 30, 2014, are as follows:

Project Description	Total Committed	Completed to Date	Balance Committed		
Optical Material's Lab	\$ 1,694,296	\$ 1,127,283	\$	567,013	
Utility Plant Chiller Replacement	1,677,097	1,471,891		205,206	
Campus Repaving Project	1,533,290	1,415,650		117,640	
Library Renovations	1,247,761	716,523		531,238	
Other Projects (1)	6,819,226	4,564,540	_	2,254,686	
Total	\$ 12,971,670	\$ 9,295,887	\$	3,675,783	

Note: (1) Individual projects with current balance committed of less than \$1 million at June 30, 2014.

11. OPERATING LEASE COMMITMENTS

The University leased buildings under operating leases, which expire in various intervals through 2037. These leased assets and the related commitments are not reported on the University's statement of net position. Operating lease payments are recorded as expenses when paid or incurred. Outstanding commitments resulting from these lease agreements are contingent upon future appropriations. Future minimum lease commitments for noncancelable operating leases are as follows:

Fiscal Year Ending June 30		Amount
2015	\$	11,555,815
2016		11,356,291
2017		10,865,203
2018		10,481,259
2019		9,954,983
2020-24		8,998,171
2025-29		8,775,203
2030-34		10,172,865
2035-37	_	6,865,790
Total Minimum Payments Required	\$	89,025,580

The University of Central Florida Foundation, Inc. receives rents and reimbursement for certain operating expenses from the University for various buildings owned by the Foundation and occupied by the University. The Foundation and University are also parties to a long-term 99-year ground lease for use of the land at Lake Nona for the Health Sciences Campus. Rents and reimbursements paid by the University for the year ended June 30, 2014 were \$9,566,693.

The University has also entered into lease and rental agreements with the UCF Convocation Corporation for use of the Convocation Center, parking garages, and various retail spaces surrounding the arena. Rents paid to the UCF Convocation Corporation for the year ended June 30, 2014, totaled \$4,536,866.

12. RISK MANAGEMENT PROGRAMS

The University is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Pursuant to Section 1001.72(2), Florida Statutes, the University participates in State self-insurance programs providing insurance for property and casualty, workers' compensation, general liability, fleet automotive liability, Federal Civil Rights liability, and employment discrimination liability. During the 2013-14 fiscal year, for property losses the State retained the first \$2 million per occurrence for all perils except named windstorm and flood. The State retained the first \$2 million per occurrence with an annual aggregate retention of \$40 million for named windstorm and flood losses. After the annual aggregate retention, losses in excess of \$2 million per occurrence were commercially insured up to \$50 million for named windstorm and flood losses. For perils other than named windstorm and flood, losses in excess of \$2 million per occurrence were commercially insured up to \$200 million, and losses exceeding those amounts were retained by the State. No excess insurance coverage is provided for workers' compensation, general and automotive liability, and Federal Civil Rights and employment action coverage; all losses in these categories are completely self-insured by the State through the State Risk Management Trust Fund established pursuant to Chapter 284, Florida Statutes. Payments on tort claims are limited to \$200,000 per person and \$300,000 per occurrence as set by Section 768.28(5), Florida Statutes. Calculation of premiums considers the cash needs of the program and the amount of risk exposure for each participant. Settlements have not exceeded insurance coverage during the past three fiscal years.

Pursuant to Section 110.123, Florida Statutes, University employees may obtain healthcare services through participation in the State group health insurance plan or through membership in a health maintenance organization plan under contract with the State. The State's risk financing activities associated with State group health insurance, such as risk of loss related to medical and prescription drug claims, are administered through the State Employees Group Health Insurance Trust Fund. It is the practice of the State not to purchase commercial coverage for the risk of loss covered by this Fund. Additional information on the State's group health insurance plan, including the actuarial report, is available from the Florida Department of Management Services, Division of State Group Insurance.

University Self-Insurance Program

The University of Central Florida, College of Medicine Self-Insurance Program (Program) was established pursuant to Section 1004.24, Florida Statutes, on September 25, 2008. The Program's purpose is to provide comprehensive general liability and professional liability (malpractice) coverage for the University of Central

Florida Board of Trustees and students for claims and actions arising from the clinical activities of the College of Medicine, College of Nursing, UCF Health Services, College of Health and Public Affairs, and the Central Florida Clinical Practice Organization, Inc., faculty, staff, and resident physicians. The Program provides legislative claims bill protection.

Prior to October 1, 2011, the Program provided the Board and the Trustees with protection of \$100,000 per claim and \$200,000 for all claims arising from a single occurrence; \$100,000 per claim and \$200,000 for all claims arising from the same occurrence for the acts and omissions of students of the colleges protected by the Program engaged in assigned activities at affiliated hospitals or other healthcare affiliates, and this student professional liability coverage may be increased subject to a \$1,000,000 limit per occurrence if higher limits of liability are required by an affiliated hospital of healthcare affiliate; \$250,000 per occurrence in the event that the personal immunity to tort claims as described in Section 768.28(9), Florida Statutes, is inapplicable as to an employee or agent of Trustees while such employee or agent functions within the course and scope of his or her employment or agency; and \$250,000 for employees who act as a Good Samaritan or are engaged in approved Community Service. In response to the Florida Legislature increasing the limits of liability contained in Section 768.28, Florida Statutes, effective October 1, 2011, the limits of protection for sovereign immune entities rose to \$200,000 per claim and \$300,000 for all claims arising from a single occurrence. By action of the UCF College of Medicine Self-Insurance Program Council on March 23, 2012, the student coverage was increased to \$200,000 per claim and \$300,000 from all claims arising from the same occurrence; the \$1,000,000 increased limit was not affected by this action. Under this claims-incurred policy written directly with the Program participants, protection is provided against claims that arise from incidents occurring during the term of the policies irrespective of the time the claim is asserted.

The Self-Insurance Program's estimated liability for unpaid claims at fiscal year-end is the result of management and actuarial analysis and includes an amount for claims that have been incurred but not reported. Changes in the balances of claims liability for the Self-Insurance Program during the 2012-13 and 2013-14 fiscal years are presented in the following tables.

Fiscal Year Ended	Begin 90, 2013 \$	s Liabilities ning of Year	and	rent Claims Changes in stimates	Claims Liabilities End of Year		
June 30, 2013	\$	94,395	\$	(51,092)	\$	43,303	
June 30, 2014		43,303		(5,750)		37,553	

13. LITIGATION

The University is involved in several pending and threatened legal actions. The range of potential loss from all such claims and actions as estimated by the University's legal counsel and management should not materially affect the University's financial position.

14. FUNCTIONAL DISTRIBUTION OF OPERATING EXPENSES

The functional classification of an operating expense (instruction, research, etc.) is assigned to a department based on the nature of the activity, which represents the material portion of the activity attributable to the department.

For example, activities of academic departments for which the primary departmental function is instruction may include some activities other than direct instruction such as research and public service. However, when the primary mission of the department consists of instructional program elements, all expenses of the department are reported under the instruction classification. The operating expenses on the statement of revenues, expenses, and changes in net position are presented by natural classifications.

The following are those same expenses presented in functional classifications as recommended by NACUBO:

Functional Classification	Amount
Instruction	\$ 249,129,617
Research	102,907,388
Public Services	6,087,098
Academic Support	61,758,186
Student Services	48,944,188
Institutional Support	93,921,401
Operation and Maintenance of Plant	39,376,998
Scholarships and Fellowships	84,331,278
Depreciation	60,849,674
Auxiliary Enterprises	74,026,982
Loan Operations	374,341
Total Operating Expenses	\$ 821,707,151

15. SEGMENT INFORMATION

A segment is defined as an identifiable activity (or grouping of activities) that has one or more bonds or other debt instruments outstanding with a revenue stream pledged in support of that debt. In addition, the activity's related revenues, expenses, gains, losses, assets, and liabilities are required to be accounted for separately. The following financial information for the University's Bookstore, Housing, Parking, and Health Services facilities represents identifiable activities for which one or more bonds are outstanding:

18. SUBSEQUENT EVENTS

In October 2014, the Corporation issued a \$59,930,000 Refunding Certificate of Participation, Series 2014B to a bank. The certificate will mature on October 1, 2035, and bears interest at a fixed rate of 3.8 percent per annum. Proceeds of \$58,770,584 from the Refunding Certificate plus an additional \$1,577,608 from the Series 2005A account were used to purchase \$60,348,192 of U.S. Treasury State and Local Government Series Securities. These securities were placed in an irrevocable trust with an escrow agent to provide for all future debt service payments on the outstanding 2005A tax-exempt certificates of participation, which defeased the certificates. The Corporation expects to extinguish the debt on October 1, 2015.

Key Financial Ratios June 30, 2014

UNIVERSITY OF CENTRAL FLORIDA

Primary Reserve Ratio

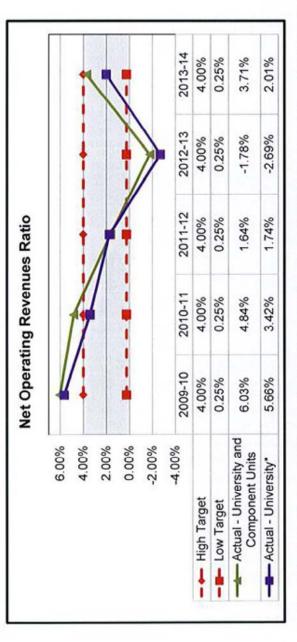

This ratio provides a snapshot of financial strength and flexibility by indicating how long the institution could function using its expendable reserves without relying on additional net assets generated by operations. A ratio of 40 percent (provides about five months of expenses) or better is advisable to give institutions the flexibility to manage the enterprise.

This ratio is calculated as follows:	Primary	Univ	iversity and Con		ponent Unit	Units	語の原	'n	University**	*	
	(in millions)	2009-10	2010-11	2011-12	2012-13	2013-14	2009-10	2010-11	2011-12	2012-13	2013-14
Firmary Keserve Katio Expendable Net Assets*	Expendable Net Assets*	371	419	405	405	463	316	348	334	319	351
Total Expense	Expenses	823	908	921	938	866	711	792	804	807	698

Excludes expendable net assets restricted for capital.

** Includes blended-component units (UCF Finance Corporation and UCF College of Medicine Self-Insurance Program).

Net Operating Revenues Ratio

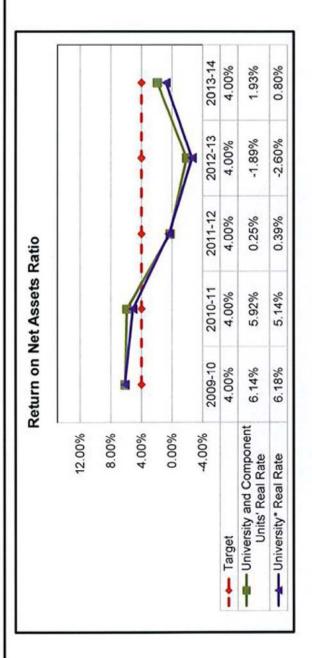

percent is a goal over an extended time period. The result will likely vary from year to year. This ratio does not include capital A positive ratio indicates that the institution experienced an operating surplus for the year. A target range of .25 percent to 4 revenue sources.

This ratio is calculated as follows:	Net Operating	Unive	rsity ar	nd Com	University and Component Units	Units		n	University*	**	
Net Operating Revenues Ratio	(in millions)	2009-10	2010-11	2011-12	2012-13	2013-14	2009-10	2010-11	2009-10 2010-11 2011-12	2012-13	2013-14
Operating and Non-Operating Net Income (Loss)	Operating and non- operating net income (loss)	23	46	15	(16)	38	43	28	14	(21)	18

* Includes blended-component units (UCF Finance Corporation and UCF College of Medicine Self-Insurance Program).

Return on Net Assets Ratio

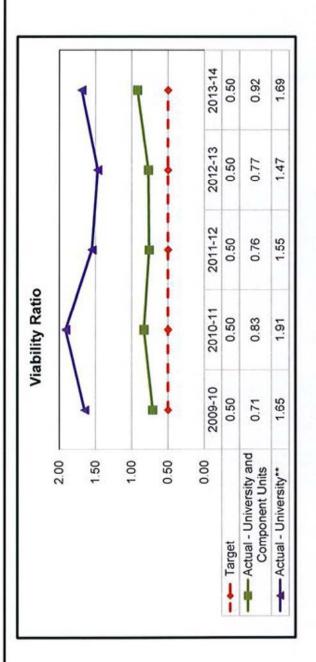

This ratio measures whether the university has improved financially by measuring total economic return or the return on net assets that occurred as a result of the university's activities. The real rate of return adjusts the nominal rate for the effects of inflation using the Higher Education Price Index. The university has established a target of 4 percent.

This ratio is calculated as follows:	Return on Net	Unive	rsity an	University and Component Units	onent	Units		5	University*	*_	
Return on Net Assets	(in millions)		2010-11	2009-10 2010-11 2011-12 2012-13	2012-13	2013-14	2009-10	2009-10 2010-11 2011-12	E. 2052.015	2012-13	2013-14

Computing the Composite Financial Index - Overview of Methodology

This methodology is an arithmetic means of combining the four ratios previously displayed as a measure of fundamental elements of financial health to yield a single composite financial index that represents an institution's overall financial health.

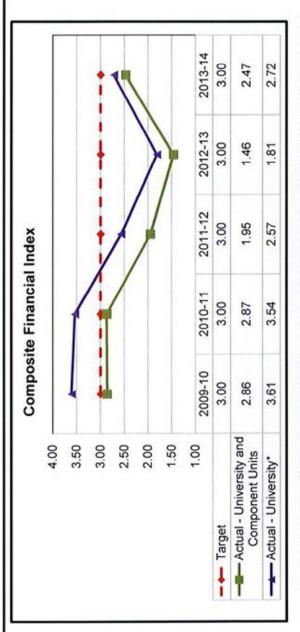

Under the methodology, the composite financial index is calculated as follows:

- determine the value of each ratio
- divide each ratio by an industry determined relevant value to calculate a strength factor
- multiply strength factors by specific weighting factors
- total the resulting four numbers to reach a single CFI score.

nonfinancial indicators. However, the ranges do have enough precision to be indicators of the institutional financial health, and the CFI as well These scores do not have absolute precision but can be indicators of overall institutional well-being when evaluated in conjunction with as its trend line, over a period of time, can be the single most important measure of the financial health for the institution.

• CFI = Sum of $\left(\frac{\text{Ratios}}{\text{Relevant Value}}\right) \times \text{Weight}$

Composite Financial Index - Trend

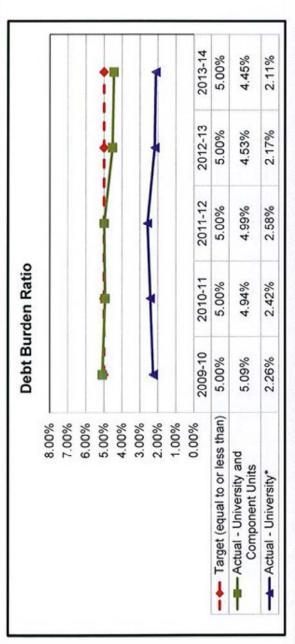

This index is a composite of the four key ratios. When combined, these four ratios deliver a single measure of the overall financial health of the university. The university has established a target of 3.00.

	HAND ON		Unive	rsity an	University and Component Units	onent U	Inits		n	University*	**	
	Relevant Value	Weight	2009-10	2010-11	2011-12	2012-13	2013-14	2009-10	2010-11	2011-12	2012-13	2013-14
Primary Reserve Ratio	0.133	35%	1.19	122	1.16	1.14	173	1117	1.16	1.09	1.04	1.06

Includes blended-component units (UCF Finance Corporation and UCF College of Medicine Self-Insurance Program).

Debt Burden Ratio

This ratio measures the percentage of total expenditures the university and component units spent on debt service. Although not a core strategic financial ratio, the Debt Burden Ratio is a key tool in measuring debt affordability and should be considered as a key financial indicator for any institution using debt. A target of 5 percent, which the University and component units have met, indicates an acceptable dependency on borrowed funds.

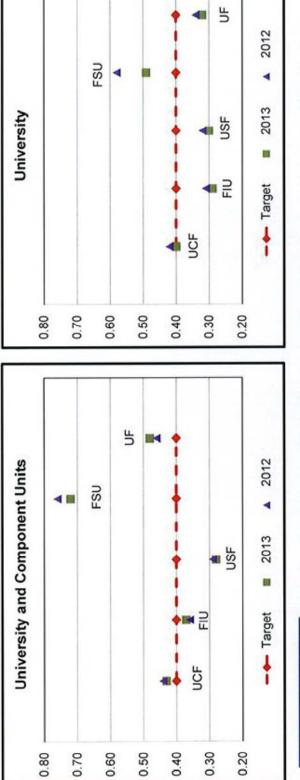

This ratio is calculated as follows:	Debt Burden (in millions)	Unive	University and Component Units	d Com	onent	Units		ā	University	**	
		2009-10	2010-11	2011-12	2012-13	2013-14 20	2009-10 2010-11	2010-11	2011-12	2012-13 2	2013-14

University of Central Florida Board of Trustees Finance and Facilities Committee

SUBJECT: University Operating Budget Report Ended September 30, 2014

DATE: December 3, 2014

For information only.

University of Central Florida Operating Budget Status

September 30, 2014

Year-to-Date Activity and Variances

The attached reports include revenues and expenditures for the three months ended September 30, 2014, compared to the operating budget. Student credit hours are slightly lower than the enrollment plan by 0.7 percent and are slightly higher than the prior year by 0.5 percent. Revenue and expenditures as a percentage of budget are slightly lower than prior year. Overall, revenues and expenditures as a percent of the operating budget are 34 percent and 26 percent, respectively. Specific activities and variances in certain budget categories are described below.

Educational & General

E&G revenues increased \$9.7 million. State appropriations increased \$8.5 million which is primarily due to new performance-based funding and adjustments for compensation and benefits.

E&G expenditures increased by \$0.7 million. Salaries and benefits decreased \$8.6 million. The first quarter of 2013 included one additional pay period totaling \$12.9 million, partially offset by current year compensation and benefit increases. The decrease in compensation is offset by a \$9.4 million increase in other expenses including \$1.3 million in software costs, \$4.3 million in financial aid and medical research expenditures that occurred earlier in the year, and a \$3 million credit in July 2013 associated with a lower than expected Conference USA payment.

Medical School

Medical school revenues increased by \$1.2 million primarily due to increased state appropriations and student fees.

Total medical school expenditures are consistent with prior year.

Auxiliary Enterprises

Auxiliary revenues increased by \$3.7 million. Transportation and health fee revenues increased by \$2 million, and Computer Services and Technology revenues increased by \$1.2 million for projects completed from technology fee funding.

Expenditures increased by \$5.2 million. Salaries and benefits increased \$1 million which reflects the absence of an additional pay period recorded in first quarter 2013 offset by subsequent employment cost increases and new positions. Capital asset purchases increased \$0.4 million. There was also an increase in asset purchases of \$1.8 million below capitalization thresholds. Facilities Operations expenses increased \$0.8 million which includes annual maintenance costs for the Combined Heat and Power Plant and increased natural gas purchases. Debt service principal payments for Housing bonds increased \$1 million.

University of Central Florida Operating Budget Status

September 30, 2014

Sponsored Research

Sponsored research revenues decreased \$3.7 million. As discussed in prior quarterly reports, revenues are now recorded on an accrual basis throughout the year. First quarter 2013 revenues were recorded on a cash basis. During that quarter, we received approximately \$3.6 million in cash receipts for a sponsored research project for the Florida Solar Energy Center which ended in 2013.

Overall expenditures decreased \$1.1 million. Salaries and benefits decreased \$3.8 million primarily due to the additional pay period in prior year. The salaries and benefits decrease is partially offset by a \$1.6 million increase for grant related subcontractor expenses and a \$0.5 million increase in capital purchases.

Student Financial Aid

Revenues increased \$6.9 million. Federal and private funding increased while state funding decreased. Increases in federal funding were for Stafford Loans of \$4.4 million, Pell Grants of \$2.2 million, and Plus Loans of \$1 million. Private funding for loans and scholarships increased \$1.2 million. State funding for Bright Future Scholarships decreased \$5.5 million, offsetting \$0.8 million increases for the Florida Student Assistance Grant and National Merit scholarships. Timing of transfers of institutional funding for National Merit scholarships explain \$2 million of the remaining increase.

Expenditures increased \$6.9 million. Need-based and non-need-based student awards increased by \$4.6 million and \$2.8 million, respectively.

Student Activities

Revenues increased \$0.9 million primarily related to activity and service fees. Expenses decreased \$0.4 million primarily due to the additional pay period in the prior year.

Concessions

Concessions revenue increased due to the timing of commissions and sponsorship revenue receipts from Coca-Cola.

University of Central Florida Operating Budget Status

September 30, 2014

Technology Fee

Technology fee revenues were consistent with the prior year.

Technology fee expense variances are due to timing differences in the progress of the various projects. Approximately 77 percent of 2013-14 and 98 percent of 2012-13 and prior years' awarded funds have been spent or transferred to Computer Services and Telecommunications for projects completed or in progress.

University of Central Florida Operating Budget Status

Explanation of Terms

Budgets

Educational & General. The Educational & General budget includes expenditures for instructional activities and related administrative support. This budget is funded by general revenue, Educational Enhancement funds, and student fees. E&G student fees include tuition and out-of-state fees.

Auxiliary Enterprises. Auxiliary enterprises include those activities that are not instructional in nature but support the operation of the university. The primary auxiliary areas include Housing, Student Health Services, Parking Services, Computer Store, Telecommunications, Continuing Education, Dining Services, and the Bookstore. The auxiliaries must generate adequate revenue to cover expenditures and allow for future renovations and building or equipment replacement, if applicable. Several of the auxiliaries are partially or wholly funded by student fees, including Student Health Services, Parking Services and Material and Supply Fees.

Sponsored Research. Sponsored research includes research activities that are funded by federal, state, local, and private funds.

Student Financial Aid. The student financial aid budget largely represents scholarship and loan funds that are received by the university and subsequently disbursed to students. Large disbursements of these funds occur at the beginning of the fall and spring semesters. The expenditures in this budget will, therefore, not coincide with the months remaining in the year.

Student Activities. The student activities budget is funded by the Activity and Service Fee paid by the students and includes expenditures for student government and student clubs and organizations. This budget also includes all expenditures for the Student Union and the Recreation and Wellness Center. Expenditures for these entities are funded by the Activity and Service Fee and by revenue generated through functions in the facilities.

Concessions. The concessions budget is funded from vending machine revenue. These funds are used for events and other expenditures that support the university.

Technology Fee. The technology fee was established in January 2009 as allowed by Florida Statute 1009.24. The university began charging 5 percent of the tuition per credit hour beginning in the fall term of the 2009-10 academic years. A committee and guidelines for the allocation and use of the technology resources were established. The revenue from this fee will be used to enhance instructional technology resources for students and faculty.

University of Central Florida Operating Budget Status

Explanation of Terms

Expenditure Categories

Salaries and Benefits. Salaries and benefits include salary payments, along with employer benefit costs, including FICA, health insurance, life insurance, disability insurance, and pre-tax benefits are approximately 30 percent of salaries for permanent employees.

Expenses. Expenses include office supplies, repairs, maintenance costs, contract services, and all other items not included as salaries, capital purchases, or debt service.

Capital Purchases. Capital purchases include personal property with a value of \$5,000 or more and library resources with a value of \$250 or more, and an expected life of one year or more.

Debt Service. Debt service includes principal and interest payments on bonds and other loans within the university.
