5 THINGS TO KNOW

READ MORE ABOUT UCF AT [UCF.EDU/NEWS](https://ucf.edu/news)

Innovating Breakthroughs in Engineering and Healthcare

Five UCF professors were selected to receive National Science Foundation CAREER grants, which recognize early-career professionals who demonstrate promising research. In the past 10 years, UCF has had more than 50 awardees. This year's recipients are Assistant Professor of Biomedical Sciences Salvador Almagro-Moreno, Assistant Professor of Mechanical Engineering Samik Bhattacharya, Assistant Professor of Computer Science Yanjie Fu, Assistant Professor of Materials Science and Engineering Lorraine Leonand, and Assistant Professor of Mechanical Engineering Robert Steward Jr.

2 Conducting Clinical Trials for PTSD Treatment

UCF RESTORES, a nonprofit trauma research center and treatment clinic at UCF, has developed a virtual reality treatment tool that is now in clinical trials. Since 2011, UCF RESTORES has worked to change the way PTSD is understood, diagnosed and treated. Combining exposure therapy, emerging technology such as VR, as well as individual and group therapy sessions, the clinic's approach has resulted in 66% of participants with combat-related trauma and 76% of first responders no longer meeting the diagnostic criteria for PTSD following three weeks of intensive treatment.

3 Advancing to North American Championships for Programming

UCF's programming team advanced to the North American championship tournament in the 2021 International Collegiate Programming Contest. They represent one of 32 teams — out of the more than 1,000 that entered — that will compete in this prestigious collegiate programming contest, which will be held on UCF's campus for the first time this August.

4 Placing Second in International Aircraft Competition

UCF's student-built remote-controlled aircraft took first in the U.S. and second in the world at the American Institute of Aeronautics and Astronautics' 2021 Design Build Fly competition. Designed by eight aerospace engineering students, UCF's aircraft achieved a virtual tie with the winning team from Dayananda Sagar College of Engineering in India, which was given a tie-breaking advantage by contest judges, according to AIAA.

5 Garnering Recognition for World-Changing Ideas

Fast Company magazine selected a technology pioneered at UCF as one of its 2021 "World Changing Ideas" from a list of more than 4,000 nominations. Developed by Assistant Professor of Industrial Engineering Ben Sawyer '14MS '15PhD and his team, the technology will make it easier for people to read digital text at a high speed with increased comprehension. The readability technology is a collaboration between Sawyer, Adobe and the nonprofit Readability Matters.

**Minutes
Board of Trustees Meeting
University of Central Florida
April 22, 2021**

Chair Beverly Seay called the Board of Trustees Meeting to order at 8:31 a.m.

She reminded the board that the meeting was covered by the Florida Sunshine Law and that the public and press were invited to attend.

Karen Monteleone, Assistant Vice President for Board Relations, called the roll and determined a quorum was present.

The following board members attended the meeting in person: Chair Beverly Seay and Trustees Tiffany Altizer, Bill Christy, Joseph Conte, Joseph Harrington, Sabrina La Rosa, Alex Martins and Caryl McAlpin.

The following board members attended the meeting virtually: Vice Chair Harold Mills and Trustees Jeff Condello, Danny Gaekwad, Michael Okaty and John Sprouls.

PUBLIC COMMENT

There were four requests for public comment.

Comments by Terri Walsh, Jonathan Alsacka and Ashley Stickel were related to the College of Business.

Kathleen Hass commented on the termination of department administrative staff within the College of Business.

MINUTES

Seay called for approval of the meeting minutes of the February 18, 2021 meeting. Christy moved to approve the minutes with Conte providing the second. The motion passed.

REMARKS

Seay said that Alex Martins was reappointed to the Board of Trustees. She recognized former Trustee Kenneth Bradley and outgoing Student Government President Trustee Sabrina La Rosa for their outstanding contributions to the Board.

Seay thanked new Trustees Altizer, Christy, and Condello for their leadership since becoming board members. She also recognized Student Government President-Elect Meg Hall stating that she will be joining the Board in May.

Seay highlighted several priorities of the Board of Governors (BOG):

- UCF had a 98% participation rate in Kognito, a system-wide mental health literacy program. This was the second-highest rate in the System.
- The March BOG Task Force on Academic and Workforce Alignment highlighted how the State University System can support future talent needs of Florida’s aerospace industry. Seay stated that *Aviation Week* ranks UCF second in graduates having skills needed by employers in the aerospace and defense industries and that for six years in a row, UCF has been the number one supplier of engineering talent to the aerospace and defense industries.
- The BOG Office regularly conducts an environmental scan to identify labor market demand for university graduates. Seay said that reports and trends identified during this process assist in updating the BOG’s official list of academic Programs of Strategic Emphasis. Seay said that two of the 10 Performance Funding metrics measure the number of baccalaureate and graduate degrees awarded within these programs and UCF scores a perfect 10 points for both bachelor’s and graduate degrees in programs of strategic emphasis.

REPORTS

President’s Action Report

President Alexander Cartwright reflected on his one-year anniversary with UCF. He thanked the Board for the opportunity to serve as President and expressed his gratitude for the Board’s support and counsel over the past 12 months.

Cartwright highlighted student and faculty excellence:

- New record achievements for NSF Graduate Research Fellows (16 awardees and 7 honorable mentions) and Goldwater Scholars (4 recipients), which tied UCF for fourth in the country alongside Harvard, MIT, Yale and John Hopkins.
- Welcomed Order of Pegasus students from the Class of 2020 and Class of 2021 to address the Board: Taylor Pryor, Taylor Duffy, Padmavathi Ganduri and Riya Shah.
- Recognized five faculty members who were recipients of this year’s Pegasus Professor award and highlighted the national and international impact on their areas of expertise: Issa Batarseh, Professor of Electrical Engineering and Director of the Florida Power Electronics Center; Cristina Fernández-Valle, Professor of Medicine; Luis Martínez-Fernández, Professor of History; Marshall Schminke, BB& T Professor of Business Ethics; and Jeffrey Stout, Professor of Kinesiology and Founding Director of the School of Kinesiology and Physical Therapy.

Cartwright recognized Janet Owen, Vice President for Government Relations and Community Relations, for a legislative update.

Cartwright continued his report with the following updates:

- The university will resume in-person commencement ceremonies this semester, with students having the opportunity for either a socially distanced traditional ceremony or a

Grad Walk experience.

- Plans to return to more normal operations in Fall 2021, highlighting that extra on-campus classes would be added in Summer B.
- An update on a national search for UCF's first Vice President of Diversity, Equity and Inclusion.
- Feedback from meetings with the President's Student Advisory Council and senior leaders across campus is allowing for the creation of workgroups to deliver action in key areas like academic and online learning; mental health; diversity, equity and inclusion; student success initiatives and student accessibility; and graduate student concerns.
- Michael Morsberger, Vice President for Advancement, will be stepping down from his role as Vice President for Advancement. Karen Cochran has agreed to serve as Interim Vice President after Morsberger's resignation.

CONSENT AGENDA

Gaekwad asked to remove item EP – 3, 2021 Tenure Recommendations from the consent agenda.

Harrington moved to approve the consent agenda with the removal of item EP – 3. La Rosa provided the second.

During discussion, Condello stated he believes the university can do better in accountability measures for tenured professors and would not be in support of EP – 3 Tenure Recommendations. Seay clarified that Gaekwad removed EP – 3 from the consent agenda and that it would be taken up separate from the consent agenda.

The motion to approve the consent agenda with the removal of EP – 3 passed.

EP-3 Tenure Recommendations

Martins moved to approve EP – 3 with McAlpin providing the second. Seay opened the floor for discussion by asking Trustee Gaekwad to begin with his questions.

At Chair Seay's request, Interim Provost Michael Johnson addressed Gaekwad's question on the meaning of tenure.

The trustees had the following comments:

- Gaekwad asked for a matrix on the financial impact of tenure. Seay said this information was presented at the Board's November Research Workshop, and that it will again be shared with the Board.
- Seay clarified the difference between research in industry and research in academia.
- Okaty commented on the approval process in place for awarding tenure and suggested that going forward, tenure is a non-consent item with an accompanying presentation.
- Mills said he believes it is possible for the university to be a financially stable institution with the existence of tenure.
- Harrington shared an example from another institution that illustrates how tenure is part of a competitive landscape in higher education. He also commented on the process for awarding tenure and affirmed that the faculty being considered had been fully vetted.
- La Rosa shared the student perspective by acknowledging that overall students understand and appreciate the value of having tenured faculty.
- Gaekwad asked for benchmarking data. Johnson clarified that the university does regularly benchmark itself against many universities including State University System institutions, University Innovation Alliance institutions and a self-selected group of near peers, some aspirational and some like UCF. He noted that in citations of scholarly work, an important means of measuring the success of an individual's research, UCF is 52nd among the nation's public, premier institutions and tied for third among R1 institutions in Florida. He further elaborated on the meaning of tenure.
- Conte asked for data that provides a correlation between UCF's percentage of tenured faculty compared to the professorial full-time employees. He would like to understand how that compares to other universities. Conte would also like this information specific to the 45 faculty members being recommended for tenure. Seay said this information would again be shared with the Board and requested that information on patents also be shared.
- Martins agreed with the importance of benchmarking and evaluating the impact of research but stressed how tenure is a fundamental part of a R1 university.
- Seay acknowledged and agreed with statements regarding a tenure workshop. Martins, as Chair of the Educational Programs Committee, said he and the Provost would prepare a tenure workshop, suggesting it should be held in the off cycle of tenure approvals.

The motion passed with opposition from Gaekwad and Condello.

NEW BUSINESS

There was no new business to come before the Board.

TRANSFORMATIONAL LEADERSHIP, OPERATIONS AND PLANNING DISCUSSIONS

Transformational Leadership and Strategic Alignment

Seay reiterated that although the Board works directly and closely with the President, the decisions regarding university operations are driven by the President. Seay called on Cartwright for his presentation.

Cartwright outlined his framework for organizing the university's core functions.

The trustees had no comments.

Progress Towards Operational Excellence

Seay recognized Gerald Hector, Senior Vice President for Administration and Finance and Matthew Hall, Vice President for Information Technology and CIO to address the Board.

Hector presented on 'A Culture of Excellence in Administration and Finance.' Hall presented on "IT@UCF Assess and Transform 2021."

Trustees Martins and Mills complimented Hector and Hall on their presentations.

FY22 BOARD WORK PLANNING

Bi-Annual Board Self-Assessment Results

Seay called on Okaty to present the Board Self-Assessment Survey summary presentation.

Following Okaty's presentation, there was a discussion that included several comments and suggestions from trustees regarding how meeting materials and meeting preparation processes can be enhanced to help trustees come better prepared for discussions. Chair Seay stated that she has asked the Board Office to work with the Board on developing an annual work plan that identifies themes for each meeting. In doing so, Communications and Marketing can also identify news articles tied to the meeting theme for trustees to read in advance.

Committee Restructuring for Strategic Alignment

Seay called on Okaty to present preliminary recommendations on committee restructuring.

Following Okaty's presentation, the trustees had the following comments:

- Martins asked if different trustees would be appointed to the proposed Finance Committee and Facilities and Infrastructure Committee to ensure checks and balances.
- Seay commented on the different skills trustees would bring to each committee, particularly in the areas of facilities and finance.
- Christy expressed that while composition could be separate, trustees should attend both committee meetings to hear the discussions.
- Mills stated that at the Board level the concept of checks and balances should not be a factor in the decision, but he supports the split given the volume of work, which he believes is a consideration.
- Okaty replied to Mills' comment by clarifying that ultimately consensus building is the goal by having more trustees engaged in the respective discussions.
- Harrington commented on having joint meetings when an item involves two committees.

FY21/22 Strategic Planning for becoming a Top 50 Public Research University

Seay introduced the final topic and moderated a discussion on plans to begin the strategic planning process.

The trustees had the following comments:

- Conte suggested having a progression in the plan to identify the top three or four strategic priorities. He also suggested taking a more practical approach to ensure the plan is useful and easily understood. He suggested a three-year plan as opposed to five years or more.
- Cartwright agreed and talked about the concept of a roadmap that includes milestones to be accomplished by certain dates, all while having the long-term goal in mind of where UCF is heading as a university.
- Mills asked for clarification of the BOG’s requirement on the required length of time for a strategic plan. Cook later clarified the requirement outlined in BOG Regulation 1.001.
- Harrington would like the plan to focus on achievable paths that define the steps and problems that must be solved to reach each goal.
- Seay stated that the plan should be reviewed by the Board at every meeting. Cartwright commented on the use of dashboards for measuring the plan’s progress and acknowledged that there are items in the current strategic plan that should be considered for the next plan.
- Mills suggested integrating UCF’s workplan into the strategic plan to make it more substantive and give the Board a regular platform to discuss both.
- Seay asked Cartwright if he would be ready by the June meeting to share with the Board the priority areas coming to the top. Cartwright said he can commit to having the information together, including an assessment of the previous plan, how the BOG’s plan will be considered in the process, and milestones that must be achieved over the next few months to be ready to officially launch the process.
- Martins concluded the discussion by stating that the process should address the question of “What do we want to be known for?”
- Seay commented that we should start with areas UCF is known for now as an institution.

Title: Tenure with Hire

 Information Information for upcoming action Action**Meeting Date for Upcoming Action:** N/A**Purpose and Issues to be Considered:**

The recommendation of a faculty member for tenure shall signify that the president and the Board of Trustees believe that the employee will continue to make significant and sustained professional contributions to the university and the academic community.

The primary purpose of tenure is to protect academic freedom. The award of tenure shall provide annual reappointment until voluntary resignation, retirement, removal for just cause, or layoff.

Background Information:

New faculty members are hired each year with tenure. Normally, such faculty members have earned tenure at their previous institution and meet UCF's requirements for tenure. For others, tenure is part of the hiring package when senior faculty members are hired for administrative positions. Department faculty members and the university's administrative officers have approved granting tenure to these faculty members.

Recommended Action:

The department, college and Provost support the recommendations for tenure with hire.

Alternatives to Decision:

Fiscal Impact and Source of Funding:

Faculty are considered employees of the university and like other employees, compensation is negotiated during the hiring process. Recommendations for tenure are considered independently from compensation. Faculty who are awarded tenure will have annual reappointment until voluntary resignation, retirement, removal for just cause, or layoff.

Title: Five-Year Capital Improvement Plan

Information Information for upcoming action Action

Meeting Date for Upcoming Action: _____

Purpose and Issues to be Considered:

The projects included in the Capital Improvement Plan (CIP) adhere to criteria prescribed by the Board of Governors:

1. Remodeling/Renovation/Maintenance/Repair

Funds will be requested from Public Education Capital Outlay (PECO) pursuant to formula as required by section 1013.64(1)(a), Florida Statutes, and should not be included by the university on the CIP – this funding will be requested as the top system issue by the Board of Governors.

2. Projects Previously Funded by the Legislature

Projects previously funded by the Legislature, effective July 1, 2017, or later, should be listed next on the CIP; these are considered “Previously Funded”. If a university has more than one such project, priority should be given to those projects which can be most rapidly brought to completion.

3. Capital Renewal and Stewardship of Existing Facilities

- a) Subsystem Requests – Each board of trustees shall prioritize capital renewal and stewardship projects for individual subsystems of existing facilities which have failed or are functioning with substantial degradation in efficiency or performing at increased cost. This must be done on a line-item basis.
- b) Multiple Subsystem Requests – Renovation of multiple subsystems of an existing facility may be requested only if approved pursuant to an Educational Plant Survey.
- c) Demolition – Funding for demolition of an existing facility may be requested only if approved pursuant to an Educational Plant Survey.

4. New Facility Request

A New Facility Request must address the following demand indicators:

- a) Will it improve the national ranking of a specific college, e.g., Music, Business, etc.?
- b) Will it allow for creation of a new academic program?
- c) Will it create both new research capability and capacity, requiring material institutional support?
- d) Will it expand current course offerings?
- e) Will it address campus-wide needs?

New Facility Requests **must also** be supported by an existing Educational Plant Survey, a business case study; and a Plant Operations and Maintenance (PO&M) Budget Amendment, showing in detail how the existing operating budget will be adjusted to address the increased PO&M costs without additional state funds. Alternatively, identify non-state funding for the new facility.

Background Information:

Pursuant to 1001.74(12), 1011.40(1), and 1013.60, Florida Statutes, each year the university must submit an updated Capital Improvement Plan (CIP) to the Board of Governors. This plan identifies projects that will be included in the three-year Public Education Capital Outlay (PECO) list and provides information to the State Board of Education for its request for capital project funding for 2022-23. The new buildings listed in the CIP represent the highest university priorities for new construction based on critical need for research space. Once submitted the Board of Governors will evaluate all universities based on the criteria above and a newly established points-based system to present a request for PECO funding to the Legislature. If the State does not approve the funds requested, the University may include the same projects on next year’s CIP, or, if available may request authorization to utilize E&G carryforward funds. This document represents the university request for state funding for new construction based on highest priority, it does not represent a comprehensive Capital Plan, which would take into account all appropriate funding sources and capital renewal needs.

Recommended Action:

Approve the Five-Year Capital Improvement Plan as presented.

Alternatives to Decision:

1. Not approve the Five-year Capital Improvement Plan.
2. Recommend changes to the Five-Year Capital Improvement Plan

Fiscal Impact and Source of Funding:

The two highest priority projects are estimated to be \$157,445,120 and we are requesting PECO funds to support the total costs. In addition, approval of the projects will require university commitment to fund an escrow equal to 1% of the project, for these two buildings that represents a commitment of \$1,547,451. The university will also be committed to reallocate existing funding sufficient to cover all building operations and maintenance costs, estimated to be approximately \$3,500,000 annually.

The Plan also requests approval to spend up to \$27,646,087 from available Capital Improvement Trust Funds (CITF).

CIP-1 NARRATIVE OVERVIEW FOR AGENCY CAPITAL IMPROVEMENTS PLAN (NARRATIVE)

AGENCY: University of Central Florida

AGENCY OBJECTIVES AND POLICIES AS THEY RELATE TO THE CAPITAL IMPROVEMENTS PROGRAM

The University of Central Florida (UCF) is a metropolitan university, which combines a contemporary and local role with one that is both traditional and universal. UCF seeks to serve its local, national, and international constituents by accelerating industry diversification, enhancing quality of life for our residents, and improving the world beyond our borders.

UCF is a leader in many academic, partnership, and research fields including optics and lasers, modeling and simulation, engineering and computer science, business administration, education, hospitality management, health care, and video game design. UCF's programs in communication and the fine arts help fulfill the cultural and entertainment needs of a growing metropolitan area. Through learning, discovery, and partnerships, UCF transforms lives and livelihood.

According to U.S. News & World Report's 2021 Best Colleges guide, UCF ranks among the nation's 20 most innovative universities. UCF is also ranked as a best-value university by Kiplinger and The Princeton Review, as well as one of the nation's most affordable colleges by Forbes.

UCF has a general education program designed to produce well-rounded graduates with a balance of communicative and mathematical skills; historical, social, and scientific knowledge; and ethical, aesthetic, and artistic sensitivity. UCF uses the power of scale and the pursuit of excellence to solve tomorrow's greatest challenges and to make a better future for our students and society. Students explore and address their personal and social responsibility in an interconnected world and become engaged global citizens. The university confers almost 17,000 degrees each year and benefits from a diverse faculty and staff who create a welcoming environment and opportunities for all students to grow, learn, and succeed, in order to lead productive and meaningful lives.

UCF is the No. 1 supplier of graduates to U.S. aerospace and defense industries for the sixth consecutive year, according to Aviation Week Network, and ranks second in the nation for teaching the critical skills needed by employers.

During our first 50 years of existence, the university experienced a tremendous growth period, with great demand and high expectations. With new residents still moving to Central Florida every week, the pressures to keep up with the region's higher education needs are immense.

The university has 13 colleges comprising: Arts and Humanities, Burnett Honors College Business, Community Innovation and Education, Engineering and Computer Science, Graduate Studies, Health Professions and Sciences, Medicine, Nursing, Optics and Photonics, Rosen College of Hospitality Management, Sciences, and Undergraduate Studies. The university will continue to implement new programs at both the undergraduate and graduate levels to meet the needs of a rapidly-developing service area. The university is committed to maintaining the public's trust by offering high-quality programs of instruction, research, and service.

The construction and maintenance of facilities is fundamental to delivery of the university's programs, and requires land improvements and infrastructure improvements. Based on the results of the Educational Plant Survey, UCF is operating at a significant space deficit and is leasing space in locations such as the Central Florida Research Park.

HIGHLIGHTS OF CAPITAL IMPROVEMENTS PROGRAM

This year, the university places a high priority on the renovation of building systems: Chemistry Renovation, Biological Sciences Renovation . New projects include the Learning Lab, Research II, and the Performing Arts Complex Phase II.

CURRENT STATUS OF FACILITY EFFORTS AND HIGHLIGHTS OF FACILITY PROGRAM OVER LAST FIVE YEARS

Over the last five years, the university has upgraded a variety of existing facilities, identified a need for new facilities, and constructed new facilities. This past year, UCF completed construction of the John C. Hitt Library Renovation Phase IA, Student Union Expansion, and the Roth Athletic Center.

Funding of facility maintenance is critical to enable campus buildings to continue to function effectively and safely. Life Safety items have been identified and extensive programs for fire alarm systems, fire code corrections, American Disabilities Act (ADA) requirements, and asbestos abatement projects are being performed as funding becomes available.

SUMMARY OF THE SIZE, USE AND CONDITION OF THE AGENCY'S FACILITIES OPERATIONS

The university's facilities consist of more than 6.5+ million assignable square feet in more than 200 buildings located on 1,415 acres. Since 2012, the University has contracted with the ISES Corporation to benchmark and detail the condition of its E&G facilities. On a triennial basis, Facilities Condition Assessments are performed on each E&G building. Categories inspected include exterior structure and roof system, interior structure, ADA accessibility, energy/water conservation, health, fire/life safety, HVAC, electrical, plumbing, and elevators. This ongoing assessment helps the university prioritize and perform the most critical repairs in a cost-effective manner, therefore helping to avoid the accumulation of deferred maintenance on campus. These reports have become an invaluable tool when renovating existing buildings.

IMPACT OF THE CURRENT AND PROPOSED FACILITIES OPERATIONS SIZE, USE AND CONDITION ON THE AGENCY'S OPERATING BUDGET

Plant operations and maintenance costs to maintain our facilities are critical to the success of the university. By renovating buildings and infrastructure, UCF will be able to extend the lifecycles of its existing buildings, and upgrading the utilities will result in greater energy efficiency, offsetting ever-increasing utility costs.

Project Title: Learning Laboratory

Project Address: Main Campus - TBD

PROJECT NARRATIVE

PURPOSE, NEED, SCOPE, RELATIONSHIP OF PROJECT TO AGENCY OBJECTIVES

In late 2017, UCF's Office of the Provost and Academic Affairs convened a university-wide committee to assess academic space and facility needs across campus, and to refine planning for research laboratories, teaching laboratories, and classroom space. Deans and Vice Presidents presented their 5-year visions for academic needs to the committee. Among the highest collective priorities was a need for more and better teaching laboratories and classrooms to support Science, Technology, Engineering, and Math (STEM).

UCF determined that a new innovative, interdisciplinary STEM facility could meet campus-wide needs for teaching laboratories and active learning classrooms for multiple colleges. The UCF 2021-2026 Educational Plant Survey "Needs Assessment" confirms that there remains a deficit of teaching laboratories and classrooms at UCF.

The proposed Learning Laboratory (LL) will be a 150,000 gross square foot (GSF) facility. The facility will provide 100,000 net assignable square feet (NASF) of classrooms, teaching laboratories, and office space to meet the needs of several colleges.

TEACHING LABORATORIES. New state-of-the-art Teaching Labs will replace aging, crowded teaching labs in other buildings, and provide additional space for growth and new programs. The Teaching Labs will provide an appropriate quantity of space per student station, in keeping with current code and recommendations in the Florida State Requirements for Educational Facilities (SREF).

COLLEGE OF SCIENCES (COS)

- Chemistry Teaching Laboratories (10) will be provided to replace those currently located in the 1967 Chemistry building (CHEM); and additional Chemistry Teaching Labs (2) will address current needs.
- Introductory Physics Teaching Labs (4) will replace those currently located in the 1969 Mathematical Sciences Building (MSB); and additional Physics Teaching Labs (2) will address current needs. Physics will retain several Teaching Labs in MSB to support upper level courses.
- A Mixed-Use Teaching Lab will serve both Chemistry and Biology.
- Chemistry Teaching Lab Service will be provided to replace all Teaching Lab Service in CHEM.
- Physics Teaching Lab Service will be provided to support new Physics Teaching Labs in LL. Physics will retain some Teaching Lab Service to support retained Teaching Labs in MSB.

COLLEGE OF MEDICINE, Burnett School of Biomedical Sciences (BSBS)

- Molecular Microbiology Teaching Laboratories (4) will support current needs; and additional Teaching Laboratories (2) will offset any loss of capacity that would result from even the most minor future renovations to existing BSBS Teaching Laboratories (6) located in the 20-year-old Health Sciences II building (HS II).
- Teaching Lab Service will be provided to support BSBS Teaching Labs in LL.

COLLEGE OF ENGINEERING and COMPUTER SCIENCES (CECS)

- Teaching Labs (3) will support the new Bachelor of Science in Materials Science and Engineering (MSE), introduced in Summer of 2019.
- Teaching Lab Service for MSE will be provided.

COLLEGE of COMMUNITY INNOVATION and EDUCATION (CCIE)

- A new MakerSpace will serve K-12 education programs in Science, Technology, Engineering, Arts, and Mathematics (STEAM.)
- The LL will provide a collaborative Science Teaching Laboratory for teacher education.
- See CLASSROOMS regarding the provision of Flexible Learning Studios, where active learning pedagogies can be practiced by future teachers.

GENERAL PURPOSE

- An Open Laboratory will serve as a Tutoring Center for the participating colleges; and replace a small tutoring room in CHEM.
- Additional Teaching Labs (4) will be available to serve STEM colleges that require space.

CLASSROOMS. All classrooms in the facility will be designed to support active learning pedagogies, with furniture and technology to facilitate collaboration and generous space per student station. All classrooms in the facility will be classified as General Purpose, open to the university to partially remediate UCF's classroom space deficit.

Flexible Learning Studios (7) were requested by the College of Community Innovation and Education (CCIE) for teacher education. To improve utilization, the University will use these rooms as General Purpose Classrooms when they are not in use by CCIE.

Large Lecture Halls (2) will support collaborative learning for 200 and 240 students.

- One lecture hall will be tiered to facilitate chemistry and physics demonstrations, with teaming tables oriented toward the instructor area. The students will be arranged in teams of six, with easy circulation around the tables.
- One lecture hall should be furnished to support teaming at round tables. This room may be divisible into two rooms by use of a mobile partition.
- Technology will support distance learning, interactive teaching, and Assistive Listening Devices (ALD) to comply with the Americans with Disabilities Act (ADA).

The large lecture hall(s) will address university and community needs for colloquia, collaboration, and public talks; as well as serving the professional learning components of CCIE.

Classrooms will be served by a shared Storeroom for use by the participating colleges, as well as Breakout and Queueing space to support the comings and goings of large numbers of students.

OFFICE. The facility will not serve as the primary home for any of the participating colleges. Office space will be provided only for personnel who are critical to the success and

safety of the facility.

- Critical Personnel (lab managers, lab techs) from all four colleges will be provided dedicated office space. Workspace will also be provided for support staff, such as a facility manager, Information Technology, and the Office of Instructional Resources.
- Touchdown workspace will be provided for teaching assistants (TAs) and faculty working in the facility but officed elsewhere.
- Several Conference Rooms will be available, including some for use as Office-Hours Rooms by TAs from the participating colleges.

This project will result in the release of outdated Teaching Laboratory and Teaching Laboratory Service space in CHEM, for renovation into classroom and office space to partially remediate UCF's deficits in these space classifications. Further, it will facilitate the release of Teaching Laboratory and Teaching Laboratory Service in MSB, to support other academic units.

SUSTAINABILITY AND LEED

The University of Central Florida is committed to sustainability and continued reduction of energy consumption in new construction projects. As energy costs and demands continue to escalate, achieving higher levels of efficiency has become increasingly important to the university's mission. Since 2007, UCF has mandated LEED certification, with most projects achieving Gold. UCF requires specific individual LEED credits that contribute to UCF's core principles including energy efficiency, water conservation, and indoor air quality for all projects. The Facilities Planning & Construction and Utilities & Energy Services departments provide oversight for all new construction and major renovation projects, and expedite the commissioning process with the latest industry standards to ensure that the university's sustainability goals are met and design parameters achieved.

SPACE CLASSIFICATIONS

The space classification is both teaching laboratory and classroom type. The project will achieve LEED Gold certification with the U.S. Green Building Council (USGBC). Energy consumption will be at least 30% less than the energy standards cited in ANSI/ASHRAE/IES Standard 90.1-2016 Energy Standard for Buildings, and water consumption will be at least 30% less than that of a comparable building. Laboratories will have continuous variable air flow valves with air flow reset capabilities. Domestic and laboratory hot water needs shall be provided primarily by solar thermal energy. The project will utilize the district cooling loop for space cooling needs and will look at alternative measures to provide dehumidification with the classifications of lab spaces and related energy use, and all heating and reheating will be hydronic.

EDUCATIONAL PLANT SURVEY

The 2021-2026 Educational Plant Survey was conducted March 5, 2021 and approved by the UCF Board of Trustees on April 22, 2021. Approval by the SUS Board of Governors is anticipated at their June 22, 2021 meeting.

The most recent UCF Educational Plant Survey (EPS) recommended the Learning Laboratory as Project 5.2.

Project Title: Research II

Project Address: Main Campus - TBD

PROJECT NARRATIVE

PURPOSE, NEED, SCOPE, RELATIONSHIP OF PROJECT TO AGENCY OBJECTIVES

UCF has a critical need for research space that can contribute to driving Florida's innovation economy and assist our state in producing high paying jobs. Crosscutting research is a critical component in addressing many of the issues facing today's innovation-based economy. Interdisciplinary research, which crosses traditional academic disciplinary lines, has led the way in the discovery and creation of new and innovative technologies that fuel economic growth and prosperity in the U.S. UCF is building a strong base of faculty with extensive technological expertise in key areas of science and technology based on strong clusters in sectors vital to Florida. The ability to leverage the talents of faculty from various disciplines creates synergies, value, and opportunities well beyond the sum of the individual parts.

UCF aspires to be a preeminent state research university and has set strategic goals to be a top 50 research university by 2035. It is committed to a robust portfolio of research, scholarship, and creative activities across all disciplines, contributing to the creation of new knowledge. Specific metrics have been designed to meet preeminence, increasing research awards from \$133 million to at least \$250 million and achieving a level where at least 25% of graduate degrees awarded are research-focused. Strategies to meet these objectives include: reaching at least 200 post-doctoral research appointees; increasing undergraduate participation in research by 50%; winning ten proposals per year exceeding \$1M, five of which exceed \$3M; creating 16 start-up companies annually; executing 36 licenses and options for UCF intellectual property; and achieving 200 patents awarded over three years.

In late 2017, UCF's Office of the Provost and Academic Affairs convened a university-wide committee to assess academic space and facility needs across campus, and to refine planning for research, teaching laboratory, and classroom space. Deans and Vice Presidents presented their 5-year visions for academic and research needs to the committee. Among the highest collective priorities was a need for more and better research laboratories, teaching laboratories, and classrooms.

UCF determined that a new innovative, interdisciplinary research facility could address campus-wide research space needs for multiple colleges. While the 2015 UCF Educational Plant Survey reported a laboratory space deficit of 629,057 NASF, the deficit has grown to 855,618 NASF in the 2021-2026 Educational Plant Survey.

The proposed Research II (Bldg. 0166) will be a 138,000 gross square foot facility and will be advantageous to the State of Florida and to UCF, as the institution strives to achieve status as a top-tier, preeminent state research university. The new facility will provide 92,000 net assignable square feet (NASF) of research laboratories and office space to reduce space deficits and serve three UCF colleges and the Office of Research.

The enhanced capabilities of Research II and its greater capacity will support advancement toward preeminence, based on increased research expenditures (impacting the institution's national ranking for research expenditures), patents awarded, doctoral degrees conferred, and post-doctoral appointments. In addition, an increase in STEM graduate degrees will strengthen UCF's metrics for performance-based funding.

UCF must accelerate the growth of its research enterprise in people, funded research expenditures, and facilities to expand the university's research scale and impact.

Based on the productivity measures that are used in determining national rankings (numbers of graduate students and graduate degrees, and research expenditures), the programs proposed for Research II will be enriched. Additionally, the enhanced visibility and reputations of the faculty and their research will positively affect the subjective ranking input from deans and industry leaders.

This facility will provide the infrastructure, environment, and culture necessary to build strong, creative, and innovative teams and programs in research, technology transfer, and commercialization. The facility will enable fundamental and applied research across traditional disciplines to create clusters, focusing on relevant technology in emerging areas. It will act as a bridge between technology development, technology transfer, and commercialization; and become an integral component of economic development activities in the region and state. The benefits of the research that will be conducted at UCF are not limited to economics; as cutting-edge research will also contribute to the enhanced quality of life in Florida.

Research II is envisioned as a multidisciplinary, highly collaborative building with space allocated for programs in multiple colleges and disciplines. The facility will expand opportunities for research growth in alignment with the current strategic goals of the university, similar to the recent consolidation of interdisciplinary faculty research clusters and the UCF Materials Characterization Facility in Research I.

This facility will include space for research faculty from multiple STEM departments in three colleges

- COLLEGE OF SCIENCES (COS) - Chemistry, Physics, Biology and Anthropology, Wet, Damp and Dry Research Labs
- COLLEGE OF ENGINEERING AND COMPUTER SCIENCE (CECS) - Wet and Dry Research Labs for seven CECS Departments (CECE, ECE, MAE, MSE, CECE, CS, and IEMS)
- COLLEGE OF OPTICS AND PHOTONICS (CREOL) - Laser Optics & Research Labs. See also Cleanroom, under OFFICE OF RESEARCH space
- OFFICE OF RESEARCH (OR) SHARED SPACE - technical space for manufacturing and prototyping, including a Central Microfabrication Facility (cleanroom) and a Central Mechanical Manufacturing Facility (machine shop).
- OFFICE - Office space will be provided for personnel who are critical to the success and safety of the facility, based on the workspace model in Research I. The facility will not serve as the primary home for any of the participating colleges.
- Researchers and critical personnel will be provided with dedicated offices.
- Open Office suites will provide cubicles for research assistants (RAs)
- Touchdown workspaces may be provided for researchers and RAs who are officed elsewhere, need to work in the facility intermittently.
- Several Conference Rooms will be available for team meetings.

In 2018, UCF began centralizing the operations and personnel of all research-support facilities on campus, combining machine shops, cleanrooms, cryogenic, nuclear magnetic resonance, and other facilities in COS, CECS, and CREOL. All such facilities will be managed by the Office of Research. Research II will facilitate the collocation of all university cleanrooms, machine shops, and associated personnel. Collocation of state-of-the-art manufacturing and microfabrication facilities will result in the highly efficient operation, increasing the competitiveness of the diverse research faculty at the institution.

Research II will facilitate synergy among research teams from the most productive academic units at UCF, and will foster an increased emphasis on internal and external partnerships that, for more than twenty-five years, have been a cornerstone of UCF's success, impact, and rise toward pre-eminence. UCF's emphasis on partnerships has resulted in numerous research efforts in collaboration with, or at least supported by, industry. With additional research space and personnel, the funding from industry sponsors and the number of industry-sponsored projects will increase proportionally. Additionally, indirect benefits can be measured in terms of student internships and permanent employment opportunities for graduates with partner companies and others.

SUSTAINABILITY AND LEED

The University of Central Florida is committed to sustainability and continued reduction of energy consumption in new construction projects. As energy costs and demands continue to escalate, achieving higher levels of efficiency has become increasingly important to the university's mission. Since 2007, UCF has mandated LEED certification, with most projects achieving Gold. UCF requires specific individual LEED credits that contribute to UCF's core principles including energy efficiency, water conservation, and indoor air quality for all projects. The Facilities Planning & Construction and Utilities & Energy Services departments provide oversight for all new construction and major renovation projects and expedite the commissioning process with the latest industry standards to ensure that the university's sustainability goals are met, and design parameters achieved.

SPACE CLASSIFICATIONS

The space classification is predominately Research Laboratory type, with office type minimized. The project will achieve LEED Gold certification with the U.S. Green Building Council (USGBC). Energy consumption will be at least 30% less than the energy standards cited in ANSI/ASRHAE/IES Standard 90.1-2016 Energy Standard for Buildings, and water consumption will be at least 30% less than that of a comparable building. Laboratories will have continuous variable air flow valves with air flow reset capabilities. Domestic and laboratory hot water needs shall be provided primarily by solar thermal energy. The project will utilize the district cooling loop for space cooling needs and will look at alternative measures to provide dehumidification with the classifications of lab spaces and related energy use, and all heating and reheating will be hydronic.

EDUCATIONAL PLANT SURVEY

The 2021-2026 Educational Plant Survey was conducted March 5, 2021 and approved by the UCF Board of Trustees on April 22, 2021. Approval by the SUS Board of Governors is anticipated at their June 22, 2021 meeting.

Project Detail

University: University of Central Florida Project Title: Performing Arts Complex Phase II

Project Address: 12488 Centaurus Blvd, Orlando, FL 32816

PROJECT NARRATIVE

PURPOSE, NEED, SCOPE, RELATIONSHIP OF PROJECT TO UNIVERSITY OBJECTIVES

The Performing Arts Complex Phase II (PAC II) project is the second, and final, phase of the UCF Performing Arts Complex. UCF, the state university with the highest student enrollment in Florida, cannot meet the needs of the School of Performing Arts with its existing facilities. Currently, the Music and Theatre Departments reside in the Performing Arts Complex Phase I (PAC I), a classroom and studio structure that was constructed in 2010. Since PAC I was constructed without performance venues, PAC II will meet this critical need. Due to consistent growth of academic offerings and a substantial increase in student enrollment over the past 10 years, PAC I is operating above capacity. Performing Arts has contended with the lack of performance space in PAC I by utilizing inadequate on-campus spaces, such as lecture halls and Rehearsal Hall, a 167-seat dedicated music performance facility, and by borrowing larger and more up-to-date performance spaces from neighboring churches and schools.

In lieu of constructing multiple performance venue spaces in PAC II, the facility will be designed to provide a highly-flexible "Sound Stage," divisible and convertible into as many as four performance spaces to provide learning opportunities for traditional performances (proscenium theatre, concert hall, etc.), as well as for developing unique events for UCF's new Themed Experience program (experiential, immersive, interactive, and shareable activities). The Sound Stage will have mobile "seating wagons" and no fixed seating.

PAC II will provide teaching labs (sound stage, rehearsal studios, production shops, etc.), study space/gallery, storage, and supporting offices, and will establish a new cultural home for the School of Performing Arts. The learning spaces will be built to professional standards with the most advanced of technologies, enabling the teaching labs to be accessed, shared, and experienced on many different platforms, in addition to traditional live settings. By using technology to create an innovative laboratory experience for undergraduate and graduate students, UCF can attract and retain exceptional students, faculty, and staff, whose collective contributions will strengthen academic programs as well as promote partnerships within the community.

PAC II will enrich all UCF programs by emphasizing the critical importance of the arts in education and encouraging creativity and innovation across other academic disciplines. This convergence between the arts and other fields of academia is among the facility's most important contributions in support of UCF's vision to create opportunity through access, partnerships, interdisciplinary endeavors, and community engagement.

Students who graduate with degrees in the Performing Arts, at both the undergraduate and graduate levels, will possess the skill sets required to contribute to the local economy, by virtue of their marketability as employees in the field of entertainment. The College of Arts and Humanities has recently introduced a new Themed Experience track in the Theatre Masters of Fine Arts program as well as the Masters of Science program. Located in the "Theme Park Capital of the World," UCF is uniquely positioned to meet a growing demand for a skilled workforce, forward-thinking research, and creative ideation in the Themed Experience industry.

The benefits of completing the Performing Arts Complex, with the construction of PAC II, will extend well beyond the UCF campus. The spaces will attract regional community activities to campus, a potential boon to the local economy.

- Because of Orlando's prominence as an international tourist destination, PAC II will help UCF students and faculty expand their reach, and promote greater international recognition for the university.

- PAC II will enhance collaborations with community-based industry partners, such as Disney World, Universal Studios, and Cirque du Soleil; and open the door to other creative partnerships.

- Community-based partner organizations, such as the Orlando Philharmonic, Orlando Shakespeare Theater, and Orlando Repertory Theatre will be able to use PAC II technologies and venues, as they support UCF's graduate programs.

- PAC II would assist UCF in meeting state performance goals (skilled graduates earning competitive wages) and align with the UCF Collective Impact Strategic

Plan goal of transforming lives and livelihoods through UCF's impact on students and the communities it serves.

Space needs and project costs for PAC II were determined as follows: First, a preliminary needs-evaluation and design concept was prepared by a prominent local architecture firm and a theatrical consulting firm. UCF then developed a "summary of required spaces" that aligned with space categories used by the SUS. Finally, a local contracting firm prepared a detailed cost estimate, including "extraordinary costs that are not directly related to the facility" (utility extension from the UCF District Energy Plant and IT upgrades).

The building program for the facility has been approved by the university President. In 2019, student government expressed their support for the project, as evidenced by the student led CITF committee allocating \$2M of CITF funds to the design efforts of the project. The UCF Board of Trustees has also approved the use of these funds, as well as \$750K of donations, to be spent on design and preconstruction efforts.

The use of the performance space as Auditoria will be far less frequent than its use as learning space; therefore, performance, rehearsal, and production spaces will be classified as Instructional space (Teaching Labs) where students will learn all facets of the design, production, and staging of performances such as plays, musicals, concerts, and themed events. A large portion of lobby and gallery space will be used as Study space.

SUSTAINABILITY AND LEED

The University of Central Florida is committed to the efficient use of natural resources. As energy costs and demands continue to grow, achieving energy efficiency has become increasingly important to the university's mission. Appropriate policies and procedures that govern the use of environmental resources and facilities have enabled UCF to achieve the improvements necessary to ensure a productive environment for all and establish itself as a national leader in energy research, education, and stewardship.

The project will achieve LEED Gold certification with the U.S. Green Building Council. Energy consumption will be at least 30% less than a comparable building. Water consumption will be at least 50% less than a comparable building. The project will utilize the district cooling loop for space cooling needs.

EDUCATIONAL PLANT SURVEY

The 2021-2026 Educational Plant Survey was conducted March 5, 2021 and approved by the UCF Board of Trustees on April 22, 2021. Approval by the SUS Board of Governors is anticipated at their June 22, 2021 meeting.

The most recent UCF Educational Plant Survey recommends the Performing Arts Complex Phase II as Project 5.1.

University: University of Central Florida Project Title: Chemistry Building Renovation

Project Address: 4104 Libra Dr, Orlando, FL 32816

PROJECT NARRATIVE

PURPOSE, NEED, SCOPE, RELATIONSHIP OF PROJECT TO AGENCY OBJECTIVES

The Chemistry Building, a lab-sciences building constructed in 1969, is still serviced by its original building systems and is in grave need of a major renovation. The building currently serves as home to the Chemistry Department within the College of Sciences. In order for Chemistry to continue functioning as a lab-science building, it must be brought up to code and the labs modernized to ensure their compliance. The building is structurally sound; however, extensive remediation of critical and non-critical building infrastructure issues is required. Replacement of building systems will prolong the intended use of the building and avoid unnecessary and costly building system failures.

The building requires the following renovations:

- Replacement of 24 laboratory exhaust fans on the south side of the building with one dual fan system; the existing fans are obsolete, have reached end-of-life, and are not current to code.
- Replacement of 16 laboratory exhaust fans on the north side of the building with one dual fan system; the existing fans are obsolete, have reached end-of-life, and are not current to code.
- Update and modernization of lab controls to provide a more energy-efficient approach to controlling the amount of exhaust, makeup air, chilled water, and reheat required in the building.
- Replacement of all air handler units (AHU) and variable air volume systems (VAV); none meet current UCF standards.
- Replacement of boilers, pumps, and domestic hot water heat exchangers with premium efficient condensing boilers; current boilers do not meet UCF standards.
- Update electrical, generator, elevator, ADA restroom, egress stair, and limited finishes

Using deferred maintenance funds, the university has already renovated the following:

- Added fire sprinklers.
- Replaced the main electrical distribution panel.
- Repaired the domestic and acid waste piping.
- Replaced the exterior doors.
- Renovated AHU coils, recoated drain pans and floors in AHU mechanical rooms.

The following three assessments have been completed related to the Chemistry Building:

- ISES Corporation conducted a Facilities Condition Assessment (FCA) to benchmark the condition of its E&G facilities. The issues identified encompass deficiencies such as indoor air quality, fire alarms, potable water and plumbing systems, electrical service, asbestos, HVAC, lighting, building automation, utility service entrance, information technology upgrades, ADA compliance, building envelope, interior finishes, and flooring. Per ISES, the most critical issue in this building is the support systems for the teaching labs, which are outdated and need to be repaired or replaced.
- TLC Engineering conducted a life safety and building systems analysis on the building in 2015. The study evaluated the construction parameters and usage of the building's laboratories in order to assess and categorize the existing laboratories, based on their current conditions. This evaluation corroborates the FCA findings that the labs do not fully meet current codes. Specifically, they lack proper exhaust fans, gas shut off valves, generator capacity, fire suppression systems, smoke control systems, room exits, fire dampers, and have significant HVAC issues. These issues need to be addressed to ensure that the teaching and research labs meet code requirements.

SUSTAINABILITY AND LEED

The University of Central Florida is committed to sustainability and continued reduction of energy consumption in new construction projects. As energy costs and demands continue to escalate, achieving higher levels of efficiency has become increasingly important to the university's mission. Since 2007, UCF has mandated LEED certification, with most projects achieving Gold. UCF requires specific individual LEED credits that contribute to UCF's core principles including energy efficiency, water conservation, and indoor air quality for all projects. The Facilities Planning & Construction and Utilities & Energy Services departments provide oversight for all new construction and major renovation projects, and expedite the commissioning process with the latest industry standards to ensure that the university's sustainability goals are met and design parameters achieved.

Classroom/Office

The space classification is predominately class laboratory, with research labs and minimal office space. The project will achieve Gold LEED certification from the U.S. Green Building Council (USGBC). Energy consumption will be at least 30% less than the energy standards cited in ANSI/ASHRAE/IES Standard 90.1-2016 Energy Standard for Buildings, and water consumption will be at least 30% less than that of a comparable building. The project will utilize the district cooling loop for space cooling needs and look at alternative measures to provide dehumidification with the classifications of classroom and offices and related energy use. All heating and reheating will be hydronic.

Research/Laboratory

There are a significant number of research and teaching laboratories in the building. Laboratories should have continuous variable air flow valves with air flow reset capabilities and fume hoods should have SAV's, to properly track exhaust and maintain the labs slightly negative. The fume hoods should also be exhausted through high plume exhaust fans. Domestic and laboratory hot water needs shall be provided primarily by solar thermal energy.

EDUCATIONAL PLANT SURVEY

The 2021-2026 Educational Plant Survey was conducted March 5, 2021 and approved by the UCF Board of Trustees on April 22, 2021. Approval by the SUS Board of Governors is anticipated at their June 22, 2021 meeting.

University: University of Central Florida Project Title: Biological Sciences Renovation

Project Address: 4110 Libra Dr, Orlando, FL 32816

PROJECT NARRATIVE

PURPOSE, NEED, SCOPE, RELATIONSHIP OF PROJECT TO AGENCY OBJECTIVES

The Biological Sciences Building is a reinforced concrete and masonry five-story structure (including the sub-level basement) and was built in 1975. With the addition of the annex in 2002, its size doubled to 116,607 gross square feet. This building houses two general-purpose classrooms with a combined seating capacity of 110 seats, and nine specialized teaching laboratories (BIO-COS) with a combined seating capacity of 300 seats. Research laboratories and research support spaces facilitate the sponsored research of 40 principal investigators and numerous graduate and undergraduate students from Biological Sciences (COS), Burnett School of Biomedical Sciences (COM) Genomics and Bioinformatics Cluster (OR-FCI), and Kinesiology and Physical Therapy (CHPS). Researchers in this building were awarded \$12.5M in sponsored-research grants in the past three years. The rest of the building contains faculty and staff offices and conference rooms.

The Department of Biology is the greatest user of the building's instructional spaces, and has the 8th largest undergraduate program on campus, with 1,871 students in Fall 2018. In addition, the department serves thousands of non-majors through its teaching of introductory biology. The department has a well-recognized graduate program which currently supports 64 graduate students. Overall, the department comprises a balanced blend of research scientists and classroom lecturers who are committed to maintaining a diverse undergraduate curriculum and a dynamic graduate program, and engaging in contemporary research. Biology faculty have successfully trained thousands of undergraduate students for a range of biology careers, including botanists, zoologists, ecologists, and health care professionals. Furthermore, the department's broad-based curriculum provides excellent preparation for post-graduate education (e.g., medical, dental, veterinary, and graduate school). Its competitive MS and PhD programs provide contemporary training in a diverse academic environment. Many state and federal agencies, colleges, universities, environmental consulting firms, and NGOs have consistently employed its students. The Biology Department would make an even greater impact on the Central Florida region with up-to-date, optimized facilities designed to support its ability to provide broad-based science education in an engaging manner.

The university contracted with the ISES Corporation to conduct a Facilities Condition Assessment (FCA) to benchmark the condition of its E&G facilities. The ISES Corporation inspected Biological Sciences May 15, 2018 and reported the building's Facility Condition Needs Index (FCNI) at 0.47 (below average condition with major renovation required). This project request includes renovation costs for the entire building. These costs include the following scope items:

- Planning, design, permitting, and inspections
- Painting of public areas and labs
- Fire pump and controller replacement
- Fire alarm replacement, including peripherals and radio communications
- Restroom upgrades for ADA compliance
- Interior lighting replacement including ceiling grid and tile replacement
- Flooring replacement
- Building envelope repairs
- Stair egress and entrance repairs
- Exterior door replacement
- Compressed air system replacement
- Walk-in cooler condenser and evaporator replacement
- Information Technology air conditioner replacement
- Electrical panel replacement and upgrades
- Elevator modernization
- Boiler and hot water replacement and upgrades
- Replacement of building automation control systems
- Replacement or repair of HVAC distribution systems, sealing, ductwork, dampers, diffusers, etc.
- Replacement of furniture, fixtures, and equipment where necessary
- Lab upgrades where needed, such as countertop, cabinetry, and sink replacement
- Temporary staff relocation when necessary

SUSTAINABILITY AND LEED

The University of Central Florida is committed to sustainability and continued reduction of natural resource consumption in new construction projects, and renovations where applicable. As energy costs and demands continue to escalate, achieving higher levels of efficiency has become increasingly important to the university's mission. Since 2007, UCF has mandated LEED certification, with most projects achieving Gold. UCF requires specific individual LEED credits that contribute to UCF's core principles including energy efficiency, water conservation, and indoor air quality for all projects. Research/Laboratory

The space classification is predominately research or laboratory type, with standard classroom and office type minimized. The project will achieve LEED Gold certification with the U.S. Green Building Council (USGBC). Energy consumption will be at least 30% less than the energy standards cited in

UCF BOARD OF TRUSTEES
Agenda Item Summary
 June 17, 2021

Title: Proposed 2021-22 University Operating Budget

Information Information for upcoming action Action

Meeting Date for Upcoming Action: _____

Purpose and Issues to be Considered:

Proviso language included annually in the General Appropriations Act (Senate Bill 2500 for FY 2021-22) states in part “Funds...shall be expended in accordance with operating budgets that must be approved by each university’s board of trustees.” In order to ensure compliance with proviso requirements, the University is required to submit a proposed operating budget approved by the university board of trustees to the Board of Governors prior to the beginning of the new fiscal year.

The Proposed Operating Budget for FY 2021-22 in the amount of \$2,186,499,129 is due for submission to the Board of Governors on June 22, 2021.

The following budget entities are included for BOT approval:

1. Education and General (E&G)
 - a. E&G Main
 - b. E&G College of Medicine
 - c. Florida Center for Students with Unique Abilities
2. Auxiliary Enterprises
3. Contracts and Grants
4. Local Funds
 - a. Student Activity and Service
 - b. Student Financial Aid
 - c. Athletics
 - d. Concessions
 - e. Technology Fee
 - f. Self-Insurance Program
5. Faculty Practice Plan

Authority for the President to amend the budget is necessary to accommodate changes in revenues, expenditures, and statutory budget amendments that may occur throughout the upcoming year. During FY 2021-22, the President shall keep the university board of trustees informed of the status of the operating budget through quarterly updates.

Background Information:

On June 18, 2020, the Board approved a continuation budget for FY 2020-21 in the amount of \$1,964,116,147. The primary reason for the continuation budget was due to the timeframe in which the Governor signed the state budget into law, which finally occurred on June 29, 2020. Because of uncertainties around the pandemic and the impact on state revenue collections, it was highly anticipated that a Special Session was forthcoming in early Fall 2020 to adjust agency budgets for FY 2020-21. Additionally, discussions were held during regular Session regarding the possibility of adjusting current year budgets. On April 30, 2021, Session concluded without budget adjustments proposed by the Legislature for FY 2020-21.

The Revised Operating Budget for FY 2020-21 totaled \$2,037,114,272 and takes into account the state allocations signed into law after the Board approved the continuation budget plus budget adjustments made for Contracts and Grants (C&G) and Athletics.

For E&G – Main, the revised budget represents a decrease of \$7.4M (1.1 percent) from the continuation budget. As a recap, below are the four major variances:

- Budget Reduction Based on Carryforward Balances: (\$7.3M)
- Advance Manufacturing – Governor Veto: (\$5M)
- Performance Funding Reduction: (\$1.6M)
- State Health Insurance Adjustment: \$5.5M

For FY 2021-22, the university’s total E&G budget represents the state appropriations proposed by the Legislature during the 2021 Florida Legislative Session. On June 2, 2021, the Governor signed the state budget for FY 2021-22, with no vetoes impacting the university.

The university’s total operating budget of \$2,186,499,129 represents a \$149.4M (7.3 percent) increase over the current year revised budget. Major highlights of the variances are as follows:

- Post-traumatic Stress Disorder Clinic of Florida Veterans/First Responders: \$1.05M
- Eliminate Excess Faculty Salaries Over \$200K: (\$3.9M)
- Return of Non-Recurring General Revenue Reduction from Prior Year: \$7.3M
- State Health Insurance Premium Annualization: \$1.9M
- 2019-20 and 2020-21 Tuition and Fees growth to BOG authority: \$13.8M
- Anticipated non-E&G increases, particularly in C&G and Student Financial Aid budget entities due to federal stimulus funds received to support the fight against the coronavirus.

Recommended Action:

Recommend approval of FY 2021-22 Proposed University Operating Budget and authorize the President, or his designee, to amend the budget consistent with Legislative, Board of Governors’ and BOT directives and guidelines.

Alternatives to Decision:

The approval of a preliminary operating budget before the beginning of a fiscal year is required by law. Therefore, the university would be in non-compliance if the decision is made to not submit a preliminary plan before the upcoming year.

Fiscal Impact and Source of Funding:

The proposed operating budget for FY 2021-22 is \$2,186,499,129.

Authority for Board of Trustees Action:

Florida Statute 1011.40(2) provides that “each university board of trustees shall adopt an operating budget for the operation of the university as prescribed by law and rules of the Board of Governors.”

Florida Board of Governors Regulation 9.007(1) states that each university president shall prepare an operating budget for approval by the university board of trustees in accordance with the instructions, guidelines and standard formats provided by the Board of Governors.

Title: Release of Unrestricted UCF Stadium Corporation Revenues

Information Information for upcoming action Action

Meeting Date for Upcoming Action: _____

Purpose and Issues to be Considered:

The attached 2021-22 proposed budget, approved by the UCF Stadium Corporation's (Corporation) board, reflects a projected net transfer of \$8,095,237 to UCF Athletics Association (UCFAA). This represents the projected unrestricted excess revenues derived from revenues and pledge revenue transfers (\$12,266,127) less funds pledged for debt service (\$3,626,778), contributions to R&R reserve (\$500,000), and annual operating costs for the stadium offset by interest income.

Background Information:

The Corporation's term loan is secured by a pledge from UCFAA of gross ticket revenues, UCFAA rent, away game guarantees, conference distributions, and a guaranteed royalty payment. Additionally, there is a support agreement whereby the University will use legally available revenues to fund deficiencies that may arise in the event the Corporation is unable to make the minimum bond payments. Pledged revenues are anticipated to yield sufficient revenues to fund the Corporation's debt service obligations and operating costs for the year. The surplus will be transferred to UCFAA to fund its operations.

Issues to be Considered:

The UCFAA budget is dependent on receiving these unrestricted excess revenues to cover operating costs and maintain operations.

Recommended Action:

Approve the release of all unrestricted surplus revenues above budgeted obligations for the UCF Stadium Corporation to the UCF Athletics Association for 2021-22.

Alternatives to Decision:

Not approve the release of excess unrestricted revenues.

Fiscal Impact and Source of Funding:

The Corporation's primary sources of funding are pledged revenues derived from UCF football games in areas such as ticket sales, premium seating, concessions, and merchandise sales, as well as rent and guaranteed royalty payments from UCFAA.

Authority for Board of Trustees Action:

Resolution on Presidential Authority President, Miscellaneous Powers and Duties, 6(e) Recommend to the Board of Trustees for approval any transfer of funds to or among Affiliated Organizations, unless under an agreement approved by the Board of Trustees.

Title: Renewal of Reducing Revolving Line of Credit – Fifth Third Bank

Information Information for upcoming action Action

Meeting Date for Upcoming Action: _____

Purpose and Issues to be Considered:

Construction Line: Interest rate is 79% of 30-day LIBOR Rate plus 1.34%; however, the LIBOR rate will not drop below 50 basis points (lowered from 75 basis points in the previous year's renewal for the purposes of calculating the rate). Principal payment of \$305,000 will be due on July 15, 2021, and the principal owed on the note as of the July 18 renewal date will be \$4,775,000.

Background Information:

This line of credit was originally opened in 2004 for the purpose of constructing facilities for women's sports. The original amount of the line was \$4.5 million then increased to \$8.5 million in 2006 to help facilitate initial costs of the football stadium. Once the stadium bonds were issued, the line was reimbursed for the initial expenses and the amount remaining on the line was used to enhance or construct additional athletics facilities. Each year, the line is renewed and includes a negotiated principal payment. The interest rate on this line is tax-exempt. There are no more draws available on the line and the current balance owed is \$5,080,000.

This is a separate line of credit than the \$5 million revolving line of credit that was used to assist UCFAA with cash flow timing issues. That line was closed in March 2021.

UCFAA Board of Directors approved the renewal of the lines of credit on May 19, 2021

Recommended Action:

Approval of loan renewal documents.

Alternatives to Decision:

Deny the renewal and allow the lines to expire. UCFAA would not have the funds available to pay off the reducing line and would be unable to take draws on the revolving line limiting the ability to pay for expenses in a timely manner.

Fiscal Impact and Source of Funding:

UCFAA is budgeting \$435,000 for principal and interest on the note to be funded from the operating budget.

Authority for Board of Trustees Action:

Florida BOG Regulation 1.001 University Board of Trustees Powers and Duties (6)(d) Each board of trustees shall engage in sound debt management practices for the issuance of debt by the university and its direct support organizations and shall comply with the guidelines established by the Board of Governors in connection with the authorization, issuance and sale of university and direct support organization debt.

 - (a) The definition of the term "Maturity Date" in the first line of Section 1 of the Note is hereby amended by deleting "July 18, 2021" and inserting "July 17, 2022" in place thereof.
 - (b) The first paragraph of Section 2 of the Note is hereby amended and restated in its entirety as follows:
 - "2. INTEREST RATE. The principal sum outstanding shall bear interest at a floating rate per annum equal to 79% of the LIBOR Rate plus 1.34 percent (1.34%) (the "Interest Rate"). The term "LIBOR Rate" means the rate of interest rounded upwards (the "Rounding Adjustment"), if necessary, to the next 1/8 of 1% (and adjusted for reserves if Lender is required to maintain reserves with respect to relevant advances) fixed by ICE Benchmark Administration Limited (or any successor thereto, or replacement thereof, approved by Lender, each, an "Alternate LIBOR Source") at approximately 11:00 a.m., London, England time (or the relevant time established by ICE Benchmark Administration Limited, an Alternate LIBOR Source, or Lender, as applicable), two (2) Business Days prior to such date of determination, relating to quotations for the one (1) month London InterBank Offered Rates on U.S. Dollar deposits, as displayed by Bloomberg LP (or any successor thereto, or replacement thereof, as approved by Lender, each an "Approved Bloomberg Successor"), or, if no longer displayed by Bloomberg LP (or any Approved Bloomberg Successor), such rate as shall be determined in good faith by Lender from such sources as it shall determine to be comparable to Bloomberg LP (or any Approved Bloomberg Successor), all as

determined by Lender in accordance with this Note and Lender’s loan systems and procedures periodically in effect. Notwithstanding anything to the contrary contained herein, in no event shall the LIBOR Rate be less than 0.50% as of any date (the “LIBOR Rate Minimum”); *provided* that, at any time during which a Rate Management Agreement with Lender is then in effect with respect to all or a portion of the Obligations, the LIBOR Rate Minimum, the Rounding Adjustment and the Adjustment Protocol (as defined below) shall all be disregarded and no longer of any force and effect with respect to such portion of the Obligations subject to such Rate Management Agreement. Each determination by Lender of the LIBOR Rate shall be binding and conclusive in the absence of manifest error. The LIBOR Rate shall be determined as of the first day of the Interest Period and shall be effective until the last day of the Interest Period (the “First Adjustment Date”). The interest rate based upon the LIBOR Rate shall be adjusted automatically on the First Adjustment Date and on the first (1st) day of each month thereafter (the “Adjustment Protocol”). "Interest Period" shall mean a period of one (1) month, provided that no Interest Period shall extend beyond the Maturity Date.”

(c) Section 3(b) of the Note is hereby amended and restated in its entirety as follows:

“(b) Principal Payments. Principal shall be payable on the following dates, in the following amounts (assuming the Maturity Date continues to be extended for successive Extension Periods as hereinafter provided):

07/15/2029	\$420,000
07/15/2030	\$435,000
07/15/2031	\$450,000

07/15/2033	\$490,000”

(d) Section 20 of the Note is hereby amended and restated in its entirety as follows:

“20. UNAVAILABILITY OF LIBOR RATE.

(i) Temporary Inability. In the event, prior to commencement of any Interest Period relating to the Loan, (a) Lender shall determine that deposits in Dollars (in the applicable amounts) are not being offered to it in the London

Interbank Offered Rate market for such Interest Period, (b) by reason of circumstances affecting the London Interbank Offered Rate Market adequate and reasonable methods do not exist for ascertaining the LIBOR Rate, (c) the LIBOR Rate as determined by Lender will not adequately and fairly reflect the cost to the Lender of funding the Loan for such Interest Period or (d) the making or funding of the Loan become impracticable;

then, Lender shall promptly provide notice of such determination to Borrower (which shall be conclusive and binding on Borrower), and (y) the Loan will automatically, on the last day of the then current Interest Period relating thereto, become a Base Rate Loan, and (z) the obligations of Lender to calculate the Interest Rate based on the LIBOR Rate shall be suspended until Lender determines that the circumstances giving rise to such suspension no longer exist, in which event Lender shall so notify Borrower.

(ii) Permanent Inability.

(a) Benchmark Replacement. Notwithstanding anything to the contrary herein or in any other Loan Document (and any Rate Management Agreement shall be deemed not to be a “Loan Document” for purposes of this Section 20(ii)), if a Benchmark Transition Event or an Early Opt-in Election, as applicable, and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any setting of the then-current Benchmark, then (x) if a Benchmark Replacement is determined in accordance with clause (1) or (2) of the definition of “Benchmark Replacement” for such Benchmark Replacement Date, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Loan Document in respect of such Benchmark setting and subsequent Benchmark settings without any amendment to, or further action or consent of any other party to, this Note, the Loan Agreement or any other Loan Document and (y) if a Benchmark Replacement is determined in accordance with clause (3) of the definition of “Benchmark Replacement” for such Benchmark Replacement Date, or in connection with an Early Opt-in Election, or if the Lender selects Daily Compounded SOFR as provided in the definition of Benchmark Replacement, such Benchmark Replacement will replace such Benchmark for all purposes hereunder and under any Loan Document in respect of any Benchmark setting at or after 5:00 p.m. (New York City time) on the fifth (5th) Business Day after the date notice of such Benchmark Replacement is provided to the Borrower without any amendment to this Note, the Loan Agreement or any other Loan Document, or further action or consent of the Borrower.

Notwithstanding anything to the contrary herein or in any other Loan Document and subject to the proviso below in this paragraph, if a Term SOFR Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any setting

of the then-current Benchmark, then the applicable Benchmark Replacement will replace the then-current Benchmark for all purposes hereunder or under any Loan Document in respect of such Benchmark setting and subsequent Benchmark settings, without any amendment to, or further action or consent of any other party to, this Note, the Loan Agreement or any other Loan Document; provided that, the Benchmark Replacement as set forth in this paragraph shall not be effective unless the Lender has delivered a Term SOFR Notice to the Borrower.

(b) Benchmark Replacement Conforming Changes. In connection with the implementation of a Benchmark Replacement, the Lender will have the right to make Benchmark Replacement Conforming Changes from time to time and, notwithstanding anything to the contrary herein or in any other Loan Document, any amendments implementing such Benchmark Replacement Conforming Changes will become effective without any further action or consent of the Borrower.

(c) Notices; Standards for Decisions and Determinations. The Lender will promptly notify the Borrower of (i) any occurrence of a Benchmark Transition Event, a Term SOFR Transition Event, or an Early Opt-in Election, as applicable, and its related Benchmark Replacement Date, (ii) the implementation of any Benchmark Replacement, (iii) the effectiveness of any Benchmark Replacement Conforming Changes, (iv) the removal or reinstatement of any tenor of a Benchmark pursuant to clause (d) below and (v) the commencement or conclusion of any Benchmark Unavailability Period. Any determination, decision or election that may be made by the Lender pursuant to this Section 20(ii), including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error and may be made in its sole discretion and without consent from the Borrower, except, in each case, as expressly required pursuant to this Section 20(ii).

(d) Unavailability of Tenor of Benchmark. Notwithstanding anything to the contrary herein or in any other Loan Document, at any time (including in connection with the implementation of a Benchmark Replacement), (i) if the then-current Benchmark is a term rate (including Term SOFR or LIBOR) and either (A) any tenor for such Benchmark is not displayed on a screen or other information service that publishes such rate from time to time as selected by the Lender in its reasonable discretion or (B) the regulatory supervisor for the administrator of such Benchmark has provided a public statement or publication of information announcing that any tenor for such Benchmark is or will be no longer representative, then the Lender may modify the definition of “Interest Period” for any Benchmark settings at or after such time to remove such unavailable or non-representative tenor and (ii) if a tenor that was

removed pursuant to clause (i) above either (A) is subsequently displayed on a screen or information service for a Benchmark (including a Benchmark Replacement) or (B) is not, or is no longer, subject to an announcement that it is or will no longer be representative for a Benchmark (including a Benchmark Replacement), then the Lender may modify the definition of “Interest Period” for all Benchmark settings at or after such time to reinstate such previously removed tenor.

(e) Benchmark Unavailability Period. Upon the Borrower’s receipt of notice of the commencement of a Benchmark Unavailability Period, the Borrower may convert the Loan to a Base Rate Loan. During any Benchmark Unavailability Period or at any time that a tenor for the then-current Benchmark is not an Available Tenor, the component of the Base Rate based upon the then-current Benchmark or such tenor for such Benchmark, as applicable, will not be used in any determination of the Base Rate.

(f) Certain Defined Terms. As used in this Section 20(ii):

“Available Tenor” means, as of any date of determination and with respect to the then-current Benchmark, as applicable, any tenor for such Benchmark or payment period for interest calculated with reference to such Benchmark, as applicable, that is or may be used for determining the length of an Interest Period pursuant to this Note as of such date and not including, for the avoidance of doubt, any tenor for such Benchmark that is then-removed from the definition of “Interest Period” pursuant to clause (d) of this Section 20(ii).

“Benchmark” means, initially, the LIBOR Rate; provided that if a Benchmark Transition Event, a Term SOFR Transition Event, or an Early Opt-in Election, as applicable, and its related Benchmark Replacement Date have occurred with respect to the LIBOR Rate or the then-current Benchmark, then “Benchmark” means the applicable Benchmark Replacement to the extent that such Benchmark Replacement has replaced such prior benchmark rate pursuant to clause (a) of this Section 20(ii).

“Benchmark Replacement” means, for any Available Tenor, the first alternative set forth in the order below that can be determined by the Lender for the applicable Benchmark Replacement Date:

(1) the sum of: (a) Term SOFR and (b) the related Benchmark Replacement Adjustment;

(2) the sum of: (a) Daily Simple SOFR and (b) the related Benchmark Replacement Adjustment;

(3) the sum of: (a) the alternate benchmark rate that has been selected by the Lender as the replacement for the then-current Benchmark for the applicable Corresponding Tenor giving due consideration to (i) any selection or recommendation of a replacement benchmark rate or the mechanism for determining such a rate by the Relevant Governmental Body or (ii) any evolving or then-prevailing market convention for determining a benchmark rate as a replacement for the then-current Benchmark for U.S. dollar-denominated syndicated or bilateral credit facilities at such time and (b) the related Benchmark Replacement Adjustment;

provided that, in the case of clause (1), such Unadjusted Benchmark Replacement is displayed on a screen or other information service that publishes such rate from time to time as selected by the Lender in its reasonable discretion; provided, further, notwithstanding anything to the contrary in this Note or in any other Loan Document, upon the occurrence of a Term SOFR Transition Event, and the delivery of a Term SOFR Notice, on the applicable Benchmark Replacement Date, the “Benchmark Replacement” shall revert to and shall be deemed to be the sum of (a) Term SOFR and (b) the related Benchmark Replacement Adjustment, as set forth in clause (1) of this definition (subject to the first proviso above), and Term SOFR and the related Benchmark Replacement Adjustment shall be the Benchmark Replacement for all purposes hereunder or under any Loan Document in respect of any Benchmark setting and any subsequent Benchmark setting.

Notwithstanding anything to the contrary in this Note or any other Loan Document, if at the time of a Benchmark Replacement Date applicable to a Benchmark Transition Event or Early Opt-In Election, the Borrower has a Rate Management Agreement in effect with respect to all or part of the Loan, in order to more closely align the floating interest rate under the Loan with the floating rate option under the Rate Management Agreement, if any, and giving due consideration to evolving standards and market practice, the Lender may, in its discretion, replace the Benchmark Replacement that would otherwise be selected pursuant to this definition of Benchmark Replacement with the sum of: (a) Daily Compounded SOFR and (b) the related Benchmark Replacement Adjustment. If Daily Compounded SOFR is selected for the Benchmark Replacement, Lender shall provide written notice of this election to the Borrower.

If the Benchmark Replacement as determined pursuant to this definition would be less than the Floor, the Benchmark Replacement will be deemed to be the Floor for the purposes of this Note and the other Loan Documents.

“Benchmark Replacement Adjustment” means, with respect to any replacement of the then-current Benchmark with an Unadjusted Benchmark Replacement for any applicable Interest Period and Available Tenor for any setting of such Unadjusted Benchmark Replacement:

(1) for purposes of clauses (1) and (2) of the definition of “Benchmark Replacement,” the first alternative set forth in the order below that can be determined by the Lender:

(a) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) as of the Reference Time such Benchmark Replacement is first set for such Interest Period that has been selected or recommended by the Relevant Governmental Body for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement for the applicable Corresponding Tenor;

(b) the spread adjustment (which may be a positive or negative value or zero) as of the Reference Time such Benchmark Replacement is first set for such Interest Period that would apply to the fallback rate for a derivative transaction referencing the ISDA Definitions to be effective upon an index cessation event with respect to such Benchmark for the applicable Corresponding Tenor;

(2) for purposes of clause (3) of the definition of “Benchmark Replacement,” the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected by the Lender for the applicable Corresponding Tenor giving due consideration to (i) any selection or recommendation of a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement by the Relevant Governmental Body on the applicable Benchmark Replacement Date or (ii) any evolving or then-prevailing market convention for determining a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark

Replacement for U.S. dollar-denominated syndicated or bilateral credit facilities; and

(3) if Daily Compounded SOFR is selected (as provided in the definition of Benchmark Replacement), the Lender may also select the Benchmark Replacement Adjustment in clause 1(b) above in lieu of the Benchmark Replacement Adjustment in clause 1(a) above.

provided that, in the case of clause (1) above, such adjustment is displayed on a screen or other information service that publishes such Benchmark Replacement Adjustment from time to time as selected by the Lender in its reasonable discretion.

“Benchmark Replacement Conforming Changes” means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the definition of “Business Day”, the definition of “Interest Period”, timing and frequency of determining rates and making payments of interest, timing of borrowing requests or prepayment, conversion or continuation notices, length of lookback periods or observation shifts, the applicability of breakage provisions, and other technical, administrative or operational matters) that the Lender decides may be appropriate to reflect the adoption and implementation of such Benchmark Replacement and to permit the administration thereof by the Lender in a manner substantially consistent with market practice (or, if the Lender decides that adoption of any portion of such market practice is not administratively feasible or if the Lender determines that no market practice for the administration of such Benchmark Replacement exists, in such other manner of administration as the Lender decides is reasonably necessary in connection with the administration of this Note, the Loan Agreement and the other Loan Documents).

“Benchmark Replacement Date” means the earliest to occur of the following events with respect to the then-current Benchmark:

(1) in the case of clause (1) or (2) of the definition of “Benchmark Transition Event”, the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of such Benchmark (or the published component used in the calculation thereof) permanently or indefinitely ceases to provide all Available Tenors of such Benchmark (or such component thereof);

(2) in the case of clause (3) of the definition of “Benchmark Transition Event”, the date of the public statement or publication of information referenced therein; or

(3) in the case of an Early Opt-in Election or selection of Daily Compounded SOFR (as provided in the definition of Benchmark Replacement), the sixth (6th) Business Day after the date notice of such Early Opt-in Election or Benchmark Replacement selection is provided to the Borrower, so long as the Lender has not received, by 5:00 p.m. (New York City time) on the fifth (5th) Business Day after the date notice of such Early Opt-in Election or Benchmark Replacement selection is provided to the Borrower, written notice of objection to such Early Opt-in Election or Benchmark Replacement selection from Borrower.

For the avoidance of doubt, (i) if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination and (ii) the “Benchmark Replacement Date” will be deemed to have occurred in the case of clause (1) or (2) with respect to any Benchmark upon the occurrence of the applicable event or events set forth therein with respect to all then-current Available Tenors of such Benchmark (or the published component used in the calculation thereof).

“Benchmark Transition Event” means the occurrence of one or more of the following events with respect to the then-current Benchmark:

(1) a public statement or publication of information by or on behalf of the administrator of such Benchmark (or the published component used in the calculation thereof) announcing that such administrator has ceased or will cease to provide all Available Tenors of such Benchmark (or such component thereof), permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide any Available Tenor of such Benchmark (or such component thereof);

(2) a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark (or the published component used in the calculation thereof), the Board of Governors of the Federal Reserve System, the Federal Reserve Bank of New York, an insolvency official with jurisdiction over the administrator for such Benchmark (or such

component), a resolution authority with jurisdiction over the administrator for such Benchmark (or such component) or a court or an entity with similar insolvency or resolution authority over the administrator for such Benchmark (or such component), which states that the administrator of such Benchmark (or such component) has ceased or will cease to provide all Available Tenors of such Benchmark (or such component thereof) permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide any Available Tenor of such Benchmark (or such component thereof); or

(3) a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark (or the published component used in the calculation thereof) announcing that all Available Tenors of such Benchmark (or such component thereof) are no longer representative.

For the avoidance of doubt, a “Benchmark Transition Event” will be deemed to have occurred with respect to any Benchmark if a public statement or publication of information set forth above has occurred with respect to each then-current Available Tenor of such Benchmark (or the published component used in the calculation thereof).

“Benchmark Unavailability Period” means the period (if any) (x) beginning at the time that a Benchmark Replacement Date pursuant to clauses (1) or (2) of that definition has occurred if, at such time, no Benchmark Replacement has replaced the then-current Benchmark for all purposes hereunder and under any Loan Document in accordance with this Section 20(ii) and (y) ending at the time that a Benchmark Replacement has replaced the then-current Benchmark for all purposes hereunder and under any Loan Document in accordance with this Section 20(ii).

“Corresponding Tenor” with respect to any Available Tenor means, as applicable, either a tenor (including overnight) or an interest payment period having approximately the same length (disregarding business day adjustment) as such Available Tenor.

“Daily Compounded SOFR” means, for any day, SOFR, with interest accruing on a compounded daily basis, with the methodology and conventions for this rate (which may include compounding in arrears with a lookback or observation shift) being established by the Lender in accordance with a methodology and the conventions for this rate selected or recommended (x) by the Relevant Governmental Body for determining “Daily Compounded

SOFR” for business loans or (y) by reference to the ISDA Definitions for derivatives comparable to any applicable Rate Management Agreement; provided, that if the Lender decides that any such convention is not administratively feasible for the Lender, then the Lender may establish another convention in its reasonable discretion.

“Daily Simple SOFR” means, for any day, SOFR, with the conventions for this rate (which will include a lookback) being established by the Lender in accordance with the conventions for this rate selected or recommended by the Relevant Governmental Body for determining “Daily Simple SOFR” for business loans; provided, that if the Lender decides that any such convention is not administratively feasible for the Lender, then the Lender may establish another convention in its reasonable discretion.

“Early Opt-in Election” means, if the then-current Benchmark is LIBOR, the occurrence of:

(1) a determination by the Lender that at least five (5) currently outstanding U.S. dollar-denominated syndicated or bilateral credit facilities at such time contain (as a result of amendment or as originally executed) a SOFR-based rate (including SOFR, a term SOFR or any other rate based upon SOFR) as a benchmark rate (and such credit facilities are identified in the notice to the Borrower described in clause 2 below and are publicly available for review), and

(2) the election by the Lender to trigger a fallback from LIBOR and the provision by the Lender of written notice of such election to the Borrower.

“Floor” means the benchmark rate floor as set forth in the definition of LIBOR Rate Minimum.

“ISDA Definitions” means the 2006 ISDA Definitions published by the International Swaps and Derivatives Association, Inc. or any successor thereto, as amended or supplemented from time to time, or any successor definitional booklet for interest rate derivatives published from time to time by the International Swaps and Derivatives Association, Inc. or such successor thereto.

“Reference Time” with respect to any setting of the then-current Benchmark means (1) if such Benchmark is the LIBOR Rate, 11:00 a.m. (London time) on the day that is two London banking days preceding the date of such setting, and (2) if such

Benchmark is not LIBOR, the time determined by the Lender in its reasonable discretion.

“Relevant Governmental Body” means the Board of Governors of the Federal Reserve System or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Board of Governors of the Federal Reserve System or the Federal Reserve Bank of New York, or any successor thereto.

“SOFR” means, with respect to any Business Day, a rate per annum equal to the secured overnight financing rate for such Business Day published by the SOFR Administrator on the SOFR Administrator’s Website on the immediately succeeding Business Day.

“SOFR Administrator” means the Federal Reserve Bank of New York (or a successor administrator of the secured overnight financing rate).

“SOFR Administrator’s Website” means the website of the Federal Reserve Bank of New York, currently at <http://www.newyorkfed.org>, or any successor source for the secured overnight financing rate identified as such by the SOFR Administrator from time to time.

“Term SOFR” means, for the applicable Corresponding Tenor as of the applicable Reference Time, the forward-looking term rate based on SOFR that has been selected or recommended by the Relevant Governmental Body.

“Term SOFR Notice” means a notification by the Lender to the Borrower of the occurrence of a Term SOFR Transition Event.

“Term SOFR Transition Event” means the determination by the Lender that (a) Term SOFR has been recommended for use by the Relevant Governmental Body, (b) the administration of Term SOFR is administratively feasible for the Lender and (c) a Benchmark Transition Event has previously occurred resulting in a Benchmark Replacement that is not Term SOFR.

“Unadjusted Benchmark Replacement” means the applicable Benchmark Replacement excluding the related Benchmark Replacement Adjustment.

(g) Necessity for Benchmark Replacement and Limitation of Liability. The interest rate on this Loan is determined by reference to the LIBOR Rate, which is derived from the London interbank offered rate.

The LIBOR Rate is intended to represent the rate at which contributing banks may obtain short-term borrowings from each other in the London interbank market. In July 2017, the U.K. Financial Conduct Authority announced that, after the end of 2021, it would no longer compel contributing banks to make rate submissions for purposes of setting the LIBOR Rate. As a result, it is possible that commencing in 2022 (or earlier), the LIBOR Rate may no longer be available or may no longer be deemed a reliable rate. Upon the occurrence of a Benchmark Transition Event or a Term SOFR Transition Event, the Lender will notify the Borrower of any change to the reference rate upon which the interest rate is based. However, the Lender does not warrant or accept any responsibility for, and shall not have any liability with respect to, the administration, submission, or any other matter related to the LIBOR Rate or any alternative, successor, or replacement rate, including, without limitation, the implementation of any Benchmark Replacement or any Benchmark Replacement Conforming Changes or whether the composition or characteristics of any alternative, successor or replacement reference rate will be similar to, or produce the same value or economic equivalence of, the LIBOR Rate or have the same volume or liquidity as did the LIBOR Rate prior to its discontinuance or unavailability.”

4. Reaffirmation of Revenue Pledge. The Borrower hereby reaffirms the pledge of the Collateral as defined in the Loan Documents, including without limitation all student athletic fee revenues from the University of Central Florida, and agrees and confirms that said pledge remains in full force and effect and continues to secure the Loan. Further, the Borrower represents to the Lender that the Board of Trustees of the University of Central Florida has not rescinded or modified the pledge by the Borrower of the Collateral to the repayment of the Loan.
5. **WAIVER OF JURY TRIAL. BY THE EXECUTION HEREOF, BORROWER AND LENDER HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY AGREE, THAT:**
 - (a) **NEITHER THE BORROWER NOR LENDER, NOR ANY ASSIGNEE, SUCCESSOR, HEIR OR LEGAL REPRESENTATIVE OF ANY OF THE SAME SHALL SEEK A JURY TRIAL IN ANY LAWSUIT, PROCEEDING, COUNTERCLAIM, OR ANY OTHER LITIGATION PROCEDURE ARISING FROM OR BASED UPON THIS MODIFICATION OR ANY LOAN DOCUMENT EVIDENCING, SECURING OR RELATING TO THE OBLIGATIONS OR TO THE DEALINGS OR RELATIONSHIP BETWEEN OR AMONG THE PARTIES THERETO;**
 - (b) **NEITHER THE BORROWER NOR LENDER SHALL SEEK TO CONSOLIDATE ANY SUCH ACTION, IN WHICH A JURY TRIAL HAS BEEN WAIVED, WITH ANY OTHER ACTION IN WHICH A JURY TRIAL HAS NOT BEEN OR CANNOT BE WAIVED;**

- (c) **THE PROVISIONS OF THIS PARAGRAPH HAVE BEEN FULLY NEGOTIATED BY THE PARTIES HERETO, AND THESE PROVISIONS SHALL BE SUBJECT TO NO EXCEPTIONS;**
 - (d) **NEITHER THE BORROWER NOR LENDER HAS IN ANY WAY AGREED WITH OR PRESENTED TO ANY OTHER PARTY THAT THE PROVISIONS OF THIS PARAGRAPH WILL NOT BE FULLY ENFORCED IN ALL INSTANCES; AND**
 - (e) **THIS PROVISION IS A MATERIAL INDUCEMENT FOR LENDER TO ENTER INTO THIS MODIFICATION AND SHALL RUN TO THE BENEFIT OF LENDER AND BORROWER ONLY AND SHALL NOT BENEFIT ANY THIRD PARTIES.**
6. Fees. Borrower agrees that all costs and expenses associated with the execution and delivery of this Agreement, including, but not limited to, the Lender's attorney's fees, and documentary stamp fee and intangible taxes, if applicable, (together with all interest and penalties thereon, if any) and other related expenses, plus accrued interest on the Loan, shall be paid by Borrower on or before the effective date of this Modification. Title: Renewal of the License for the Canvas Learning Management System Platform

Information Information for upcoming action Action

Meeting Date for Upcoming Action: _____

Purpose and Issues to be Considered:

The Canvas learning management system (LMS) from Instructure is a mission critical software platform. As the system behind Webcourses@UCF, it is used by every section of every course across campus. It is the primary mechanism used to capture academic engagement for financial aid disbursement and faculty are required by policy to keep grades in the Canvas gradebook as a consistent and proactive way for students to measure progress throughout the semester. It is the platform used to deliver online and blended learning, including the UCF Online virtual campus. It proved to be a key asset in the university's pivot to online instruction in response to the COVID-19 pandemic.

The existing Canvas license expires at the end of June 2021 and must be renewed to continue its use.

Background Information:

Since adopting Canvas in 2012, UCF has licensed the platform through a contracting vehicle available as part of our membership in Internet2/Net+. Upon comparing the terms of a general license, a license through the state of Florida ITN, and a license renewed through I2/Net+, the renewal through I2/Net+ offered UCF the best financial and value terms.

Recommended Action:

The Division of Digital Learning (DDL) recommends a five-year renewal, which offers the maximum discounts compared to other license durations.

Alternatives to Decision:

UCF could renew the license for a different duration (1-4 years). This would result in a higher per FTE cost.

Fiscal Impact and Source of Funding:

The Division of Digital Learning will fund the license with a combination of Distance Learning auxiliary and divisional E&G funding. Below are the financial terms of the license:

Year 1:	\$11.35 x 59,349 IPEDS FTE (Canvas Cloud LMS) + 20% support + \$3.82 x 2,400 (Studio Cloud video add-on) + \$1,500 Studio setup (one time charge) = \$819,001.38
Year 2:	\$11.46 x 59,349 + 20% + \$3.94 x 2,400 = \$825,623.45
Year 3:	\$11.69 x 59,349 + 20% + \$4.06 x 2,400 = \$842,291.77
Year 4:	\$12.04 x 59,349 + 20% + \$4.18 x 2,400 = \$867,506.35
Year 5:	\$12.40 x 59,349 + 20% + \$4.30 x 2,400 = \$893,433.12
TOTAL:	\$4,247,856.07

UCF BOARD OF TRUSTEES

Agenda Item Summary

June 17, 2021

Title: Direct Support Organizations' 2021-22 Budgets

 Information

 Information for upcoming action

 Action

Meeting Date for Upcoming Action: _____

Purpose and Issues to be Considered:

Fiscal year 2022 budgets for the UCF Direct Support Organizations (DSO) and the Central Florida Clinical Practice Organizations (CFCPO) are attached. The budgets have been approved by each DSO board and are now being presented to the University Board of Trustees for approval.

Background Information:

The DSO and CFCPO proposed fiscal year 2022 budgets are attached and include assumptions consistent with the university's update on COVID-19 guidelines published in May 2021, based on guidance from the Board of Governors and in collaboration with other state universities. These include anticipations that campus will return to normal operations and allow full participation in athletic and social events across the campus community.

Issues to be Considered:

UCF Athletics Association and UCF Stadium Corporation

The UCF Athletics Association (UCFAA) was organized to operate the university's intercollegiate athletics programs. The Stadium Corporation (Corporation) receives pledged revenues from UCFAA, premium seat revenue, and other revenues including concessions, merchandise, and interest to fund debt used to construct the football stadium. Any surplus remaining after debt service and operating expenses is transferred back to UCFAA to fund its operations. This combined view is intended to present gross revenues and expenditures of UCFAA and provide a more holistic view of the impact that the Corporation has on the UCFAA's financial results.

UCFAA's fiscal year 2022 budget was developed with the expectation that the campus will return to full spectator seating capacity and a full football home game schedule consistent with pre- pandemic conditions.

- Athletic events include ticket and per-seat revenues, NCAA and conference distributions, and game guarantees. These revenues are budgeted to reflect an increase over fiscal 2021 due to hosting seven home football games, full spectator capacity, and the projected sell out of football season tickets. The budget does not assume the implementation of dynamic pricing on premium home games to be conservative.
- The proposed budget for university allocations includes student athletic fees of \$25.1 million, scholarship support of \$10.3 million, and Title IX support of \$1.7 million. The proposed budget reflects increases of \$0.5 million in student fees, \$0.5 million in scholarship support, and an \$0.8 million in Title IX support over fiscal 2021 projected actuals.
- Sponsorship revenues are budgeted to be higher than fiscal 2021 projected actuals but are expected to remain below fiscal 2020 actuals due to the pandemic's impact on the economy.
- Contributions revenues are budgeted to be lower than fiscal 2021 due to the Keep Charging On Fund being a one-year initiative. This decrease is partially offset by an increase in capital donations for the Roth Athletics center that will be used for debt service in fiscal 2022. Other revenues are budgeted materially consistent with fiscal 2021 and are significantly less than fiscal 2021 projected actuals due to the exclusion on contract buyout payments received from the University of Tennessee in order to

hire the previous Athletics Director and head football coach.

- Scholarship expenses (and scholarship support provided by the university) are budgeted to be higher than fiscal 2021 due to funding an additional year of eligibility for student-athletes whose fall 2020 and winter 2021 competitive seasons were interrupted by the pandemic.
- Compensation expenses are budgeted to be higher than fiscal 2021. This is primarily due to the inclusion of a severance payment for a former football coach. The remainder reflects the expansion of television and video production staff, nutrition and counseling programming for our student-athletes, and the expansion of the student-athlete leadership academy that includes an enhanced jobs program to help student-athletes obtain employment or acceptance into graduate school upon graduation.
- Sport and support operations expenses are budgeted to be higher than fiscal 2021 because full competitive playing seasons are anticipated.
- Other expenses reflect non-recurring expenses primarily focused on deferred maintenance for our facilities that are showing extensive wear-and-tear and replacement of aging equipment. Projects include painting, turf replacement, new windscreens, rust remediation, wall padding, new audio systems for baseball and softball, and power upgrades at the football stadium.
- UCFAA's debt service includes annual debt service on the Roth Athletics Center, funded by donations and the construction line of credit with Fifth Third Bank. The university agreed to defer its \$1 million loan repayment for fiscal 2021 and 2022. This allows the Association to offset lost revenues from fiscal 2021 and begin funding a reserve in fiscal 2022. The Association closed its operating line of credit during the fiscal 2021 year further necessitating the need for cash reserves on hand. For the short-term, UCFAA has entered an agreement with the UCF Foundation to provide \$4 million to assist with cash flow needs. UCFAA plans to grow cash reserves by budgeting surpluses in the near term and is currently developing a policy where two percent of specific new revenues would be deposited into a separate reserve account.

UCF Academic Health

UCF Academic Health, Inc. supports medical education, research, and patient care through the planning and development of clinical initiatives and affiliated partnerships that serve the educational, research, and clinical mission of the College of Medicine. It began operations in July 2019 with the leasing of space to outside tenants in the Lake Nona Cancer Center.

The proposed budget reflects anticipated increase in lease revenues and related costs resulting from three new executed tenant agreements that began in the current fiscal year. Only current executed lease agreements were included in fiscal year 2020 budget which represents seventy seven percent (77%) of total rentable square footage.

UCF Convocation Corporation

The Convocation Corporation operates four student residence halls (Towers Knights Plaza), the convocation center (Addition Financial Arena and The Venue), surrounding retail space (Knights Plaza), and adjacent parking. The operation of these facilities funds the debt service obligations related to its housing and arena bonds. The proposed budget is expected to yield sufficient revenues to meet the debt service requirements for the year.

Housing Operations – The proposed budget includes an increase of approximately \$1.8 million in housing rental income over the prior year due to campus returning to normal operations. Conservatively budgeted at a 94% occupancy rate, which consistent with on-campus occupancy rates.

Retail Operations – Budgeted revenues are based on a return to full rents by all vendors for fiscal year 2022. Of the leased property there are 10 tenants that will have contractual rent increases during the year that equates to rental income growth of approximately \$29,000. The university's Business Services department will relocate some of its offices to the location used by former Convocation Corporation management and pay rent for the use of the space. This will be added rental revenue. Expenses are based on historical 3-year averages and reflect savings expected from the new management structure.

Arena Operations – Revenue forecasts are based on the expectation that there will be some lagging impact to event activity due to COVID-19, but that there will be a gradual return to more typical operations as the fiscal year progresses and as the university returns to normal athletic and social activities.

UCF Finance Corporation

The UCF Finance Corporation receives rent and philanthropic pledges to repay construction loans on the Burnett Biomedical Sciences building at Lake Nona and the UCF downtown campus. The university pays rent under the operating lease on the Burnett Biomedical Sciences building. An additional \$2.7 million in rent will be received to fund principal on the underlying building loan. These transfers are sufficient to fund the related debt service and the Corporation’s operating costs for the year.

Transfers from UCF Foundation are expected to be \$2.3 million based on verified outstanding pledges, net of reserves that are expected to be received during fiscal year 2022. Once received, these funds will be used to repay the construction loan on the downtown campus. Any receipts in excess of this amount will be transferred directly from UCF Foundation to the university.

UCF Foundation

The UCF Foundation’s principal function is to provide charitable and educational aid to the University. Its sources of funding include personnel support from the university, rent from mostly university tenants in office buildings, endowment fees, and earnings from investments.

The proposed budget reflects endowment earnings higher than prior year due to strong performance. University and other related support revenues are expected to remain flat. Debt service interest is expected to be lower in fiscal year 2022 due to the loan being refinanced in fiscal year 2021.

UCF Limbitless Solutions

Limbitless produces artistic prosthetic medical devices, conducts research and promotes STEM/ STEAM education.

Fiscal year 2021 yielded a significant increase in revenue compared to fiscal year 2020 with fundraising and sponsorship largely focused on the facility upgrades for the program. The proposed budget builds on the momentum generated by the upcoming laboratory move. However, there is still uncertainty in predicting the current philanthropy appetite due to the economic impact of COVID-19. However, LSI anticipates an increase in philanthropic support from individual donors and has worked with the UCF Foundation to establish a mutually agreed upon fundraising goal.

The move to a new laboratory space will result in an increase in equipment, office furniture, rent, and promotional expenses. All other amounts are consistent with conservative yearly trends.

UCF Research Foundation

The Research Foundation promotes and supports the research activities of faculty, staff, and students. Its operating revenue and expenses include contracts, grants, royalties, contributions, rents, conferences, unit residuals, and consortiums.

The proposed budget reflects an overall 39% increase in net surplus over the prior budget and an overall 69% increase from the fiscal 2021 projected actuals. Both increases are due to the receipt of monies previously projected to be canceled as a result of global coronavirus pandemic.

Operating revenue and expenses for contracts and grants is expected to increase due to start of clinical trial agreements which will be handled solely by the Research Foundation. While contributions and other agreements, as well as conferences and workshops and rental revenues are all expected to be similar to the fiscal 2021 actuals due to uncertainty in the economy as a result of the continued global coronavirus pandemic.

Central Florida Clinical Practice Organization

CFCPO is an affiliated organization formed to support the medical education program and clinical faculty within the College of Medicine. The prior year budget included a 30% reduction in revenue based on the uncertain impact of the Covid-19 pandemic. However, the clinic was able to quickly respond and put in place safety measures so that a return to “normal” clinical activity could occur. This resulted in the current year revenue exceeding budget, and therefore the proposed fiscal year 2022 budget is projecting higher revenues based on the level of current activity. It also includes an increase in revenue from the addition of three new faculty provider positions and an expected increase in HealthARCH activities.

With an increase in revenue, there are variable operating expenses that will also increase which is reflected in the proposed budget. In addition, budgeted expenses include facility rent for the Quadrangle now being recorded under the CFCPO and projected expenses related to the activities of the new providers and increased HealthARCH activities. Transfers from the CFCPO to the College of Medicine is budgeted at \$5.9 million for fiscal 2022, which is an increase of \$3.6 million over projected actuals for fiscal 2021, resulting in net income of \$500,000 for fiscal 2022. The transfers from the CFCPO cover budgeted activities at the College of Medicine.

Recommended Action:

¹ Represents rent pursuant to the 2017 amended and restated operating lease agreement for the financing of facilities constructed on the health sciences campus in Lake Nona. This amount funds interest on the building loan and operating expenses.

² The fiscal 2022 budget is based on the amount of pledges scheduled to be received during the year for the construction of the downtown campus. The amount of pledges needed to fund the remaining principal on the note will be received and any excess will be transferred directly by UCF Foundation to the University. Anticipated pledges for fiscal year 2021 are over-budget due to a receipt from Orange County that was converted from an "in kind" pledge to a cash pledge.

³ Transfers to the UCF downtown construction project were funded by draws on the UCF downtown construction note. No additional transfers are planned and pledge receivables held by UCF Foundation exceed the balance remaining on the construction note.

¹ The Research Foundation is recognizing an overall 39% net increase from the 2020-2021 approved budget as compared to the 2021-2022 proposed budget and an overall 69% increase from the 2020-2021 projected actual amounts as compared to the 2020-2021 approved budget. Both of these noted increases are due to the receipt of monies previously projected to be canceled as a result of global coronavirus pandemic.

² Operating revenue and expenses includes contracts, grants, royalties, contributions, rents, conferences, unit residuals, and consortiums.

³ Operating revenue and expenses for contracts and grants is expected to increase due to start of clinical trial agreements which will be handled solely by UCFRF. While contributions and other agreements, as well as conferences and workshops and rental revenues are all expected to be similar to the 2020-2021 projected actual amount due to uncertainty in the economy as a result of the continued global coronavirus pandemic.

⁴ Management fees and F&A are expected to increase due to the start of clinical trial agreements mentioned above as well as the new fiscal agent agreement with ASEMFL for which activity is expected to begin during Quarter Four of Fiscal Year 2021.

⁵ Other operating expenses includes funding for research foundation payroll and operating expenses plus offset for technology transfer related expenses. The budgeted amount takes into account the Quarter Four Fiscal Year 2021 hiring of a Federal Contract Manager and Contract Accountant. Additionally, assumes the hiring of a Budget Development Manager during the second quarter of Fiscal Year 2022 along with the hiring of a Clinical Trials Contract Manager mid-year Fiscal Year 2022. Further Gap Fund expenses included in the 2020-2021 projected actual amounts are related to Fiscal Year 2019 award. The Gap Funding for Fiscal Year 2021 was not awarded but is budgeted to be awarded in Fiscal 2022.

UCF BOARD OF TRUSTEES
Agenda Item Summary
 June 17, 2021

Title: FY 2020-21 Budget Authority Increase for Contracts and Grants (C&G)

Information Information for upcoming action Action

Meeting Date for Upcoming Action: _____

Purpose and Issues to be Considered:

An increase in C&G spending authority of \$82.5 million (from \$188.5 million to \$271 million) is requested as follows:

One-time National Science Foundation (NSF) funds for Arecibo Observatory cleanup	20,000,000
FY 2021 increases in C&G award expenditures	20,472,000
CARES Act Higher Education Emergency Relief Fund (HEERF) grants	42,000,000
Total Anticipated C&G Expenditure Increase	82,472,000

- According to a National Science Foundation (NSF) report published in early March as required by Congress, the cost of cleaning up the collapsed radio telescope site at the iconic Arecibo Observatory in Puerto Rico is estimated between \$30 million and \$50 million. This cost will be split between fiscal year 2021 and 2022. This \$20 million requested increase in C&G spending authority is intended to cover the FY 2020-21 anticipated expenses from the first NSF installment.
- UCF continues to excel at moving ideas to innovation and realization, and despite a national pandemic has once again achieved growth in external funding. As examples, expenditures in the College of Optics and Photonics through March 31, 2021 have increased by 25% or \$1.25M from FY 2019-20. Similarly, the Florida Space Institute's expenses have increased by 68% or \$6.3M from FY 2019-20.
- The requested increase of FY 2020-21 spending authority is the amount needed to cover an estimated \$10 million of HEERF I reimbursements in progress, and \$32 million of HEERF II funding specifically allocated to replace lost revenues.

Background Information:

The Board of Trustees approved a Continuation Operating Budget for FY 2020-21 at the same funding levels approved on June 19, 2019, for FY 2019-20. The approved continuation budget of \$1,964,116,147 included a budget for Contracts and Grants (C&G) of \$188,528,000. The 2020-21 C&G operating budget totaled \$188.5 million, therefore the proposed increase to \$271 million is a 44 percent increase. At this time, UCF requests BOT approval to amend the FY 2020-21 C&G operating budget by \$82.5 million to \$271 million to accommodate anticipated end of year expenditures.

Recommended Action:

Approve an increase in FY 2020-21 C&G spending authority of \$82.5 million.

Alternatives to Decision:

The university would be unable to meet the obligation of supporting anticipated expenditures at year end if sufficient spending authority is not granted.

Fiscal Impact and Source of Funding:

The use of \$82.5 million in additional support for C&G for FY 2020-21.

Authority for Board of Trustees Action:

University of Central Florida BOT Delegation of Authority to the President states specific approval of the Board is required for operating and capital budget amendments for “any changes to the operating budget in an amount greater than the lower of \$5 million or .5 percent of the budget.”

Agenda Item Summary

June 17, 2021

Title: Professional Employer Organization Arrangement and Formation of CFCPO Subsidiary

 Information Information for Upcoming Action Action

Meeting Date for Upcoming Action _____

Purpose and Issues to be Considered:

UCF College of Medicine (COM) seeks approval of a co-employment arrangement by which a third-party professional employer organization (PEO) will assume the management of payroll, benefits, and other employee-related administrative responsibilities for non-faculty clinical and administrative employees at UCF Health and HealthARCH. In addition, Central Florida Clinical Practice Organization, Inc. (CFCPO) seeks approval of the formation of a wholly owned (single-member, member-managed) subsidiary that will contract with the PEO and will contract with UCF and CFCPO to define services and payment arrangements related to the PEO.

This PEO arrangement implements an operational efficiency that UCF Health has been planning since 2019, as mentioned in previous presentations to the Finance and Facilities Committee (October 16, 2019) and the Board of Trustees (Emerging Issues Discussion, Clinical Mission Update, April 23, 2020). A significant challenge to achieving UCF Health's financial sustainability has been the financial and operational disadvantages it faces due to the higher than market cost of benefits and time-off allowances for its non-faculty clinical and administrative employees. Under the proposed arrangement, UCF Health's non-faculty clinical and administrative employees will transition to the PEO, while continuing to report to UCF employed staff and faculty, and UCF Health and CFCPO will experience the cost advantages of increased flexibility with regard to salary, benefits and paid time-off.

HealthARCH currently utilizes a third-party staffing organization, the contract for which will be terminating. HealthARCH will benefit from the lower management fees and competitive health benefits rates offered by the PEO arrangement.

The initial purpose of the proposed subsidiary LLC will be to enter into the PEO agreement and to contract with UCF and CFCPO to define services and payment arrangements related to the PEO. The proposed subsidiary also may be utilized for future initiatives/arrangements in support of the mission and objectives of the UCF College of Medicine. CFCPO officers will serve as the officers of the proposed subsidiary, holding the same positions and having the same authority and responsibilities as they have for CFCPO. The CFCPO Board of Directors approved the formation of the proposed LLC subsidiary on May 7, 2021.

President Cartwright and his Health Cabinet have been consulted and approved of the PEO arrangement and the proposed formation of the LLC subsidiary. The proposed Operating Agreement for the proposed subsidiary was developed by the Office of General Counsel Health Affairs Legal Team.

Background:

UCF Health is COM's faculty practice, an integral component of the College's education, research and clinical mission, that provides clinical services to the community. In 2018, the College of Medicine and UCF Health began working with national consultants on a plan for operational and financial improvements with the goal of becoming financially stable and sustainable. Optimizing operations including establishing the proposed PEO arrangement is a key element of UCF Health's turnaround plan.

HealthARCH is a COM program that was originally funded by an \$8.6 million federal grant to assist community physicians in transitioning to use of electronic health records. The program helps community physicians implement practice operational and quality improvements. It is funded by Florida Department of Health grants and CDC funding that are managed by the university's Office of Research and Commercialization and by income generated by its professional services fees. HealthARCH fee for service revenue flows through CFCPO.

CFCPO is a 501(c)(3) tax exempt organization created to serve as a support entity for the UCF College of Medicine clinical mission, similar to that of other Florida state medical schools. CFCPO receives and holds clinically related revenues, applies that revenue to pay appropriate expenses, manages reserves, ensures proper accounting procedures are being followed, and provides administrative and financial services. Although CFCPO is not a DSO, it follows similar review processes to ensure full transparency and oversight in alignment with the President's goal of building a culture of trust, engagement and accountability.

Currently, CFCPO reimburses UCF for the cost of salaries and benefits for UCF Health non-faculty clinical and administrative employees. Management has determined that the most appropriate entity to enter into a PEO arrangement is the proposed new subsidiary of CFCPO.

Recommended Action:

(1). Review and recommend approval by the BOT of the implementation of a co-employment arrangement with a PEO to assume the management of UCF Health's and HealthARCH's non-faculty clinical and administrative employee payroll, benefits and other employee-related administrative responsibilities, and authorize CFCPO, COM, UCF Health and HealthARCH to take such actions as are necessary and appropriate regarding implementing the PEO arrangement.

(2). Review and recommend approval by the BOT of the formation of a single-member, member-managed subsidiary of CFCPO and authorize CFCPO to take such actions as are necessary and appropriate regarding formation of the proposed subsidiary.

Alternatives to Decision:

A PEO is not engaged, and the UCF Health non-faculty administrative and clinical employees continue to fall under the university's pay, benefits and leave structure.

An alternative to the proposed CFCPO subsidiary is designated as the contracting party for the PEO arrangement.

Fiscal Impact and Source of Funding:

The PEO arrangement will have a positive financial impact on CFCPO, COM, UCF Health and HealthARCH. The net financial benefit is estimated to be in excess of \$500,000/year.

The funds for the proposed subsidiary's payment of PEO expenses will come from CFCPO, from the UCF Health clinical revenues for UCF Health staff and from an allocation of HealthARCH fee for service and grant revenues for HealthARCH.

The cost to file the proposed subsidiary's Articles of Organization and Designation of Registered Agent is \$125. The annual report filing fee for a limited liability corporation is currently \$138.75.

(3) Each graduate program may determine other requirements for admission, consistent with the mission and purpose of their college and program beyond those listed in (2). All program admissions requirements must be published in the Graduate Catalog and are required to be reviewed and updated annually.

(a) Graduate programs must include at least 2 of the following materials to support the application:

- Letter(s) of reference
- Resume or CV
- Writing Sample
- Personal, Goal, or Professional Statement
- Research Statement
- Professional, Academic, Artistic, or Music Portfolio

(b) Admissions criteria must not include preferences for applicants on the basis of race, color, national origin, disability, religion, or sex.

(4) The requirement to submit GRE, GMAT, or MCAT scores is at the discretion of the program to which the student is applying. Please refer to the current catalog for specific program level standardized test score requirements.

(a) For programs that do not require a GRE or GMAT, all international applicants must submit a course-by-course evaluation of the student's official transcript by a credential evaluation service recommended by UCF that shows a GPA equivalent of 3.0 from an earned degree equivalent to a U.S. bachelor's degree obtained from an institution of higher education accredited by an accrediting body listed in (2((a)).

~~(3) Additionally, all applicants to doctoral programs must meet the following specific requirements:~~

~~(a) Each applicant to a doctoral degree program shall present scores that are acceptable for the program to which the student is applying on the Graduate Record Examination (verbal, quantitative, and writing), or an equivalent measure on the GMAT, whichever is deemed most appropriate to the program. For the Spring, Summer, and Fall 2021 admission cycles only, this university requirement to present test scores for doctoral degree program admissions is suspended; however, each academic program may choose to continue to require test scores for such candidates for admission. If a doctoral degree program elects to waive the test score requirements for the Spring, Summer, and Fall 2021 admission cycles, the program~~

Students, including international students, who already have a graduate degree obtained from a U.S. institution of higher education accredited by an accrediting body listed in (2)(a) or equivalent foreign institution in the same or in a related area are not required to take the Graduate Record Examination or GMAT unless it is required by the program.~~

~~(b) — Submit three letters of recommendation, a resume or a curriculum vita, and a written essay.~~

~~(c) — The submitted materials must be used in the context of a holistic credential review process.~~

~~(d) — Each doctoral program may determine other requirements for admission, consistent with their mission and purpose. Any additional admissions requirements so imposed by doctoral programs must be published annually in the Graduate Catalog and on the website of the doctoral program; further, such requirements shall be reviewed and updated annually.~~

~~(e) — These requirements shall not include preferences in the admissions process for applicants on the basis of any category protected by law.~~

~~(4) Additionally, all applicants to master's programs must meet the following specific requirements:—~~

~~(a) — A score on standardized exams such as the GRE or GMAT is not required by the university for admission to a master's degree program, although individual programs may still require the exams for admissions purposes.~~

~~(b) — Each master's program may determine other requirements for admission, consistent with their mission and purpose. Any additional admissions requirements so imposed by master's programs must be published annually in the Graduate Catalog and on the website of the master's program; further, such requirements shall be reviewed and updated annually.~~

~~(c) — These requirements shall not include preferences in the admissions process for applicants on the basis of any category protected by law.~~

~~(d) — For international students in master's programs that do not require a GRE or GMAT, a course-by-course evaluation of the student's official transcript must be~~

~~submitted by a credential evaluation service recommended by UCF that shows a GPA equivalent from an earned degree equivalent to a U.S. bachelor's degree obtained from an institution of higher education accredited by an accrediting body listed in (2)(a).~~

(5) In addition to the above requirements, international students must show proficiency in written and spoken English in accordance with the provisions of University Regulation UCF-2.009.

(6) All graduate applicants must indicate whether or not Florida residency is claimed. An application or residency affidavit submitted by or on behalf of a student which contains false, fraudulent or incomplete statements may result in denial of admission or denial of further registration and/or invalidation of UCF credit.

(7) Exceptions to the above requirements:

(a) In any academic term, up to 20 percent of the graduate students may be admitted in a given degree program as exceptions to the minimum requirements for graduate admissions as defined in paragraph (2) (b) & (c), above.

(b) Students who do not meet the admissions criteria and who wish to enroll in courses but not degree programs at the post-baccalaureate level may enroll under the classification of non-degree seeking students. Graduate programs wishing to admit these students to graduate degree programs after the students have satisfactorily completed up to nine hours of graduate course work may do so provided that the number so admitted is included as part of the 20 percent exception, as defined in paragraph (6)(a), above.

(8) In addition to the above requirements, all graduate applicants who are admitted must submit an immunization form. UCF Student Health Services is responsible for oversight of student immunization compliance and reserves the right to require immunizations based on recommendations from the Centers for Disease Control and Prevention (CDC) the Florida Department of Health, the Florida Board of Governors, or the UCF Board of Trustees. UCF reserves the right to refuse registration to any applicant, former student, or student whose health record indicates the existence of a condition which may be harmful to the members of the University community.

(9) Exceptions: Students may apply for an exception to the University's immunization requirements if they meet one of the following criteria and submit appropriate documentation.

- (a) Medical Basis – The student must provide a letter from a healthcare provider, signed on official medical office stationery, stating the medical reason(s) why the student is not able to receive the vaccine(s), and indicating if this is a temporary or permanent condition.
- (b) Religious Basis – The student (or the student’s parent/guardian if under 18 years old) can sign a Religious Exemption waiver upon request.
- (c) Active Duty Military and Veterans – Active Duty and Veterans may complete the waiver section of the immunization form if documentation of immunizations is unavailable at the time of registration. Proof of military service is required (DD 214 or military ID card).
- (d) With approval of the UCF President, limited UCF programs may be an exception when students will not be physically present in any UCF classroom or on any UCF campus. Should such students seek to register for face to face courses, they must comply with paragraph (8).

(10) All applicants for admission or readmission to the University of Central Florida, including to any graduate or doctoral programs of study within the University and including any applicant for post-baccalaureate study, are required to disclose on the application prior criminal conduct, pending criminal charges, and prior educational misconduct. The University reviews all applications in which a student discloses prior criminal conduct, pending criminal charges, or prior educational misconduct to determine whether the admission of the applicant is in the best interest of the University. The office responsible for this review is the Office of Student Rights and Responsibilities. Applicants who fail to disclose prior criminal misconduct, pending criminal charges, or any prior educational misconduct are in violation of the disclosure requirements of this paragraph and may be subject to appropriate action by the University, including denial of admission or readmission, revocation of admission, or other academic and/or disciplinary action prescribed by the University, up to and including dismissal. Applicants are not required to disclose minor traffic violations.

(11) Applicants may appeal an admissions decision by following the university admissions appeal procedure. Information regarding this procedure is available in the Graduate Catalog.

(12) Readmissions

- (a) Graduate students who do not maintain continuous enrollment, must apply for readmission. Readmission is not guaranteed. The readmission decision is based on multiple factors such as previous academic performance, work taken since last attending UCF, space and fiscal limitations.
 - (b) A student who was previously dismissed from his or her graduate program and would like to reapply to the same program must have an approved conditional retention plan on file before a readmission decision can be made.
- (13) Graduate applicants and graduate readmit applicants may be admitted subject to space and fiscal limitations.

UCF-2.029 Patents, Trademarks and Trade Secrets.

(1) General.

- (a) This regulation is applicable to all University Personnel (as defined in section (2)(a)). Nothing herein shall be deemed to limit or restrict the University's full exercise of its legal rights and authority.
- (b) The University possesses all rights to and has the authority, at its option, to take any action necessary and proper to secure Intellectual Property owned by the University, and the University may take all steps necessary and proper to protect and enforce its rights. University profits derived from Intellectual Property subject to this Regulation shall be shared with the Inventor and/or Creator in accordance with this Regulation, University Regulation UCF-2.033, any applicable collective bargaining agreements, and policies or procedures established by the University, including the Office of Research and Commercialization. In the event of a conflict between this regulation and any departmental or university policy, this Regulation shall control.
- (c) It is a purpose of this Regulation to state University-wide policies governing the ownership, use, and commercialization of Inventions, Trademarks, and Trade Secrets. The University encourages University Personnel to engage in research and scholarly endeavors that may result in Inventions, Trademarks, and Trade Secrets. To that end, the University has developed a robust operation to support University personnel in research endeavors and to commercialize the Intellectual Property that may result from those endeavors. Where the University asserts ownership rights, the University will share proceeds of any commercialization efforts with the appropriate University Personnel.
- (d) Research is a basic objective of the University, undertaken to educate students, stimulate a spirit of inquiry, solve problems, and create new knowledge. Although the research and teaching missions of the University always take precedence over intellectual property considerations, adequate recognition of and incentive to potential Inventors through the sharing of the financial benefits resulting from the transfer and development of patentable Inventions and other marketable forms of Intellectual Property encourages the creation of such Intellectual Property and serves the public interest. In sharing the proceeds with Inventors, the University recognizes

inventorship, encourages and supports research within the University, and recognizes the interests held by outside sponsors of University research.

- (e) This Regulation addresses only Patents, Trademarks, and Trade Secrets. Copyrights and Works are addressed in University Regulation UCF-2.033 and in applicable collective bargaining agreements.

(2) Definitions. For purposes of interpreting and applying the substantive provisions of this Regulation, the following definitions shall apply:

- (a) “University Personnel” shall mean all full-time and part-time employees of the University, whether or not they are members of a collective bargaining unit, including all faculty, staff, and post-doctoral fellows; appointees of the University who receive University Support (as defined below), including volunteers, adjuncts, and courtesy faculty; persons paid by or through the University, including contractors and consultants; and anybody working under University auspices and anybody receiving University-Support (as defined below). Students, including undergraduate, graduate and professional students, who are encompassed within any of these categories, shall be considered University Personnel for purposes of this Regulation.
- (b) “Work” means, in accordance with Title 17 of the U.S. Code, any original work of authorship that is or may be subject to Copyright. “Work” includes but is not limited to printed material (such as books, articles, memoranda, and texts), computer software or databases, audio and visual material, circuit diagrams, architectural and engineering drawings, lecture, musical or dramatic compositions, musical works, dramatic works, motion pictures, multimedia works, web pages, sound recordings, choreography, and pictorial or graphic illustrations or displays, and any creative expression of a Trademark used in connection with these items. “Work” does not include any patentable material, which is encompassed within the definition of an Invention, but an Invention may include a related Work. Rights to Works are addressed in University Regulation UCF-2.033, Copyrights and Works.
- (c) “Invention” shall include (i) any discovery, invention, process, composition of matter, article of manufacture, know how, design, model, technological development, biological material, strain, variety, culture of any organism, or portion,

modification, translation or extension of these items which is or may be patentable or otherwise protected under Title 35 of the United States Code, or that is or may be protected as a Trade Secret, under the Florida Trade Secrets Act, Ch. 688, Fla. Stat. or any similar act of another State, as may be relevant, (ii) any novel variety of plant that is or may be patentable or otherwise protected under the Plant Variety Protection Act (7 U.S.C. §2321 *et seq.*), (iii) any Trademark, and/or (iv) any directly related know-how used in connection with these items. Instructional Technology Material which is or may be patentable is included in this definition.

- (d) “Creator” shall mean any University Personnel who create(s) a Work.
- (e) “Inventor” shall mean any University Personnel who make(s) or discover(s) an Invention.
- (f) “Makes” or “made” when used in conjunction with any Invention shall mean the conception or constructive or first actual reduction to practice of such Invention.
- (g) “University Support” shall mean the non-incidentual use of University funds, personnel, facilities, equipment, materials, technical information, or students in the creation or making of a Work or Invention; and does not include the inconsequential use of resources made available to the University community for common use. “University Support” includes support provided by other public or private organizations when it is arranged, administered or controlled by the University, including but not limited to research and investigations that are sponsored by the University and/or that are carried out by public funds.
- (h) “Patent” means a property right granted by the Government of the United States of America to an Inventor to exclude others from making, using, offering for sale, or selling an Invention throughout the United States or importing the Invention into the United States for a limited time in exchange for public disclosure of the Invention. The term also includes patent rights that may be granted by foreign governments.
- (i) “Trade Secret” means information, including a formula, pattern, compilation, program, device, method, technique, or process that: (i) derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain

economic value from its disclosure or use; and (ii) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

- (j) “Intellectual Property” refers to Works, Inventions, Trademarks and Trade Secrets.
- (k) “UCFRF” means the University of Central Florida Research Foundation, Inc., a direct support organization of the University which supports the research and sponsored program activities of the University.
- (l) “Trademark” means a name, symbol, figure, letter, word or mark adopted and used to designate the source of goods and/or services arising from an Invention or a Work.
- (m) “Outside Activity” means private practice, private consulting, additional teaching or research, financial interest, or other activity, compensated or uncompensated that: (i) is not part of University Personnel’s assigned duties; (ii) is not compensated by the University; and (iii) does not involve University Support. Outside Activity is subject to the requirements of this Regulation and other University Policies and Regulations, including but not limited to University Regulation UCF-3.018.

(3) Rights in Inventions, Trademarks, and Trade Secrets.

- (a) *Inventions made as a result of personal endeavors are owned by University Personnel.*
 - (i) Inventions made outside the field or discipline in which the Inventor is employed by the University (i.e. the field or discipline in which the Inventor conducts research, teaches, and/or provides service activities for the University), for which the idea came from the Inventor, and for which there has been no University Support (as defined in 2(g)), are the property of the Inventor.
 - (ii) Inventions resulting from Outside Activity. University Personnel, after reporting the details in accordance with applicable University procedures and receiving authorization, may engage in Outside Activity. University Personnel seeking to engage in Outside Activity are advised to review the terms of University Regulation UCF-3.018 and any applicable collective bargaining agreement. University Personnel engaged in Outside Activity should use great care to determine that Intellectual Property clauses in their

Outside Activity agreement(s) do not involve conflicts of interest and are not in conflict with sponsored grants or contacts, or with University policy. If the individual seeking to engage in an Outside Activity is asked to sign an agreement relating to the Outside Activity that purports to waive any University right(s) in any Intellectual Property, a copy of this Regulation shall be provided to the person asking for a waiver before the Outside Activity begins. University Personnel are not authorized to waive University rights, and any such waiver is deemed rejected by the University unless specifically accepted by the Vice President of Research & Commercialization or designee.

- (A) All Inventions arising from authorized Outside Activity and outside the field or discipline of the Inventor are the property of the Inventor.
- (B) Undisclosed Outside Activity is considered unauthorized. Any Invention arising from undisclosed Outside Activity must be disclosed to the Vice President of Research & Commercialization (see 3(c)). If the Inventor claims the Invention resulted from Independent Effort(s), then as part of the disclosure, the Inventor shall provide sufficient documentation to substantiate the claim. As used in this section, the term "Independent Effort(s)" means that the Invention is outside the field or discipline of the Inventor and was made without University Support.
- (C) Upon receipt of written notice from the Vice President of Research & Commercialization confirming the University's decision not to assert a University interest in an Invention resulting from unauthorized Outside Activity, the Inventor shall have the right to determine the disposition of such Invention. However, the Inventor and the Vice President of Research & Commercialization may agree that a patent for such Invention will be pursued by the University; in that event, the Inventor and University shall share in the proceeds of any Invention as provided by this Regulation and any applicable policies or procedures established by the Vice President of Research &

Commercialization including applicable UCFRF Guidelines and Procedures for Distribution of Funds or in such other manner as the parties may agree.

- (b) *Inventions Owned by the University.* Inventions (i) made in the field in which the Inventor is employed by the University (i.e. the field or discipline in which the Inventor conducts research, teaches, and/or provides service activities for the University), or (ii) for which there has been University Support (as defined in 2(g)), are the property of the University, and the Inventor(s) shall share in the proceeds therefrom. Such Inventions and related rights shall be the property of the University and are hereby assigned to the University by the Inventor(s). Where the Inventor is employed by UCF solely to teach in an adjunct capacity, subsection 3(b)(i) does not apply.

(4) Disclosure/University Review. University Personnel are required to disclose all Inventions owned by the University and all Inventions resulting from any Outside Activity within the field or discipline of the inventing University Personnel. It is the policy of the University that, in general, research results should be publishable; publication of such results in appropriate venues is encouraged. However, if the publication of research results may reveal an Invention in which the University has an interest, University Personnel should seek advice on how and when to publish the results in order that potential patent rights for the Invention are not compromised. That is, upon the making of an Invention and prior to any publication or public disclosure, University Personnel shall promptly and fully disclose to the Vice President of Research & Commercialization any Invention described in 3(b).

- (a) The disclosure shall be made on the forms and according to procedures prescribed by the Vice President of Research & Commercialization. At a minimum the disclosure shall: (1) identify each Inventor, (2) provide a brief description of the Invention, and (3) identify and summarize the research project including the participants and applicable funding sources.
- (b) The Vice President of Research & Commercialization shall inform the Inventor within one hundred twenty (120) days from the date of disclosure whether the University will assert its interest in the Invention and pursue patent, trademark,

and/or copyright protection for the Invention and/or define certain elements of the Invention for protection as trade secret.

- (c) In the event the University elects to obtain a Patent, register a Trademark or a Copyright, or to formally define a Trade Secret to protect the University's rights in the Invention, University Personnel will execute any and all necessary documents to affirm, publicly formalize, and record the transfer of all rights to the University or to UCFRF. UCFRF is required to comply with the same policies and procedures regarding allocation of proceeds/royalties as the University.
 - (d) In the event the University asserts its rights in the Invention, all costs and expense of patenting, developing, and marketing the Invention and related activities, including those which may lead to active licensing of the Invention, shall be paid by the University.
 - (e) Allocation of proceeds/royalties shall be made in accordance with this Regulation and any applicable policies or procedures established by the Vice President of Research & Commercialization including the applicable UCFRF Guidelines and Procedures for Distribution of Funds. The University's costs and expenses shall be recovered before any division of revenue is made. For any Invention that results from research done in a thesis or dissertation or in connection with a thesis or dissertation related project, the amount allocated to the Inventor(s) shall be divided between the faculty member who directed the research and the graduate student(s) who invented the Invention in a manner that reflects their relative contributions to the Invention as determined by the Vice President of Research & Commercialization.
 - (f) The Inventor shall not commit any act that would tend to defeat the University's or Inventor's interest in the Invention, such as making a public disclosure of the Invention prior to the University obtaining applicable intellectual property protection, and shall take any necessary steps to protect such interests.
- (5) Release of University Rights. If the University elects not to assert its interest in an Invention owned by the University, all rights to the Invention shall be released to the Inventor upon the Inventor's request and subject to any existing third party right.
- (a) If the University's ownership interest in an Invention is waived, the Inventor must disclose any potential conflict of interest created by the Inventor's ownership of the

Invention when proposing research to be conducted using University resources that could reasonably appear to influence the financial value of the Invention.

- (b) The University's release of the Invention to the Inventor(s) shall be contingent upon the execution of a written agreement with the Inventor(s) that grants to the University: (1) a right to a ten percent (10%) share of proceeds arising from or attributed to the Intellectual Property valuation of the Invention and received by the Inventor from a third-party for commercialization of the Invention or transfer of ownership of the Invention, and (2) a royalty free right to the Invention for educational and research purposes of the University and for the governmental purposes of the State of Florida.

(6) University Withdrawal and Transfer of Rights to Inventor.

At any stage in the formalizing of Intellectual Property registration (such as making a patent application or maintaining the patent) or in the commercial application of an Invention, the University at its sole discretion may elect to withdraw from further involvement in the protection or commercial application of the Invention. If the University elects to withdraw upon the Inventor's request, the University may transfer the Invention rights not subject to third-party rights to the Inventor. Under these circumstances, the Invention shall become the property of the Inventor and none of the costs incurred by the University or on its behalf shall be assessed against the Inventor; however, the provisions of paragraph (5) and this paragraph will apply. Where the University assigns or releases its rights to the Inventor, the Invention shall be available royalty-free for governmental purposes of the State of Florida and research or instructional purposes of the University unless otherwise agreed to in writing.

Title: Amendments to Regulations UCF-3.040 Benefits and Hours of Work and UCF-3.042 Separations of Employment

 Information Information for upcoming action Action

Meeting Date for Upcoming Action: _____

Purpose and Issues to be Considered:

The university proposes to amend University Regulation UCF-3.040 which addresses benefits and hours of work for non-unit university employees. The university proposes to remove language regarding compensatory and special compensatory leave for non-exempt USPS employees, because this language has not applied since November 18, 2016. Additionally, language regarding retirement is removed because such options are defined by the State and fluctuate. Other proposed changes are: use of recovery leave terminology in place of compulsory leave and changes to the language describing recovery leave; new language to allow supervisors to require employees to provide documentation to support the need of administrative leave (e.g. jury summons); expansion of bereavement leave to three paid days for both USPS and A&P (including Executive Service) employees; and minor edits made throughout.

The university also proposes to amend University Regulation UCF-3.042 which addresses separations of employment from the University. Specifically, the university proposes to add language for employees that fail to provide a two-week notice of resignation designating them ineligible for rehire except in certain circumstances. This language aligns with the language already in Regulation UCF-3.0122 Resignation and Nonrenewal of Non-unit Faculty and A&P Staff Members.

The professional judgement exercised by an instructor in assigning a grade or in conducting a class is excluded from the provisions of this regulation. A formal grade appeal is limited to or more of the following reasons:

1. Alleged deviation from established and announced grading policy;
2. Alleged errors in the application of grading procedures;
3. Alleged deviation from University syllabus policy that could have impacted the resulting grade; and
4. Alleged lowering of grades for non-academic reasons, including discrimination.

(c) Program decisions include actions related to program or college specific requirements. An undergraduate program appeal is limited to one or more of the following reasons:

2. Alleged errors in the application of program policies or procedures;
3. Alleged program probation or program dismissal due to non-academic reasons; and
4. Alleged undergraduate program action for non-academic reasons, including discrimination and/or sexual harassment in the undergraduate program, department or college.

- (d) If an appeal alleges discrimination, the appeal will first be referred to the Office of Institutional Equity (<https://oie.ucf.edu/>). The OIE process must be concluded before a formal grade appeal can be initiated.
- (e) If the student is charged with a conduct violation based on alleged academic misconduct (per UCF-5.008) that relates to the grade or program action being appealed, the student conduct process must be completed before the student initiates a formal grade appeal.
- (f) If the student is pursuing a program appeal that relates to a grade appeal, the grade appeal must be completed before the student initiates the program appeal.
- (g) If needed, the University may extend deadlines applicable to the grade or program appeal process for the purposes of reviewing the appeal. If extensions are made, the new deadline will be shared in writing.

(2) For any appeal, the following assumptions are adopted:

- (a) The burden of proof for a student academic appeal is on the student.
- (b) Students and faculty members are entitled to a fair and timely resolution of academic appeals.
- (c) Students have access to published materials, professional advisors, and student government to help them become familiar with and understand the procedures for handling academic appeals. Students may consult the Golden Rule, seek advice from an academic advisor, or consult with a student government advisor (sga_cjus@ucf.edu) regarding the student's rights and responsibilities with respect to this appeal process.
- (d) Faculty members and administrators have access to the materials published in the Golden Rule and access to University staff in the Office of Student Rights and Responsibilities (<https://osrr.sdes.ucf.edu/>) to help them be aware of and understand the procedures to address academic appeals.
- (e) The University as an institution and its faculty members and students are entitled to procedures that ensure due process and the maintenance of academic standards.
- (f) All appeal communications between the student and any University personnel must be made via a university-provided system.
 - 1. Information regarding informal appeals should be communicated using the UCF email account (e.g., knights.ucf.edu or ucf.edu).

2. Information regarding formal appeals are submitted using the appeal forms and processes available at <https://academicsuccess.ucf.edu/gradeappeal/>.

(3) Step 1: Resolution of Student Appeals with the Instructor or Program

- (a) The appeal of final grades or an undergraduate program action must be initiated within ninety (90) calendar days of the final grade being posted or of the undergraduate program action being taken.
- (b) All student appeals of grades or undergraduate program actions must first be addressed by the person or program whose action is being appealed. In cases of grade appeals this will be the instructor of the course and in cases of undergraduate program actions this will be the faculty administrator (e.g., program director or program coordinator) of the program that enacted the action. Henceforth, the instructor or faculty administrator are referred to as the “Responding Party”. This attempted resolution is required before the student can continue to the formal appeal process described in Step 2.
- (c) If the issue cannot be resolved directly with the Responding Party, or if the Responding Party is not available, the student has the right to pursue a Step 2 formal resolution at the unit level with the unit head or their designee. The “unit head” is usually the faculty member who serves as chair of the department or director of the school that houses the course or program.

(4) Step 2: Formal Resolution of the Student Appeal at the Unit Level

- (a) To initiate the formal academic appeal, the student must submit the appropriate appeal form and supporting documentation. The appeal form is available at <https://academicsuccess.ucf.edu/gradeappeal/>. If supporting documentation cannot be submitted online, the student must provide it to the unit head or designee. This documentation must clearly state the reason for the appeal and must include the resolution sought by the student.
- (b) Once the appeal is received by the unit head, they or their designee will review the appeal and supporting documentation to determine if there are grounds for the appeal.
 - 1. If there is not a basis for the appeal, the appeal will be dismissed, and the unit head or designee will inform the student in writing why the appeal is dismissed.

2. If there is a basis for the appeal, within ten (10) business days of receipt of the appeal the unit head or designee will consult with the Responding Party and may also ask to meet with the student.

a. If the Responding Party or student is not available to discuss or respond to the appeal, the resolution should wait until the Responding Party or student can respond, but not more than thirty (30) business days.

b. In the event an immediate resolution is needed (e.g., due to pending graduation certification) the unit head will make a decision based on available information.

(c) Within fifteen (15) days of receipt of the appeal, or longer based on either the Responding Party or student not being available (see above), the unit head or designee will provide the student and the Responding Party with a written decision.

(5) Step 3: Resolution of Student Academic Appeals at the College Level

(a) If the student has new information to present or can show that a procedural error occurred in the previous steps, within ten (10) business days of the unit head or designee's written decision the student may submit the appeal to the dean of the college that offers the course or program. The student will provide the information using the processes outlined in (2)(f).

(b) The dean will delegate the appeal to an associate dean or designee who will, within ten (10) business days of receipt, review the appeal. One of the following actions will take place:

1. If an appeal is presented that was previously dismissed for having no basis, and none of the new or additional information establishes a basis, then the appeal will again be dismissed, and the associate dean or designee will inform the student in writing why the appeal is dismissed.

2. If the student presents new or additional information that must first be reviewed by the unit head, then the associate dean or designee will inform the student in writing that this information must be reviewed first by the unit head and that the student is required to revisit Step 2.

3. If the appeal warrants a review, the associate dean or designee will submit a recommendation to the dean.

(c) If a recommendation is submitted to the dean, within five (5) business days of receiving the associate dean or designee's recommendation the college dean will provide the student with a written decision on the appeal. The dean's decision will be sent to the student and copied to the Responding Party, the unit head, and the appropriate dean of the undergraduate or graduate college.

(6) Step 4: Resolution of Student Academic Appeals at the University Level

(a) If the student has new information to present or can show that a procedural error occurred in the previous steps, within ten (10) business days of the dean's written decision the student may submit the appeal to the dean of the college of undergraduate studies or the dean of the graduate college. The student will provide the information using the processes outlined in (2)(f).

(b) The university dean will review the appeal within ten (10) business days of receipt. One of the following actions will take place:

1. If an appeal is presented that was previously dismissed for having no basis and none of the new or additional information establishes a basis, then the appeal will again be dismissed, and the university dean or designee will inform the student in writing why the appeal is dismissed.

2. If the student presents new or additional information that must first be reviewed by the college dean, then the university dean or designee will inform the student in writing that this information must be reviewed first by the college dean and that the student is required to revisit Step 3.

3. If the information presented warrants additional review, the university dean will inform the student in writing that the appeal will be reviewed by the Ad Hoc Student Academic Appeal Committee who will make a recommendation to the university dean. The appeal will continue to Step 5.

(7) Step 5: Ad Hoc Student Academic Appeal Committee

(a) The committee will function as an objective, fact-finding body when examining all available and relevant information concerning the student's appeal of a grade or program action by the Responding Party. Such information may include the student's documented appeal, written and/or oral information provided by the student or Responding Party, statements made by both parties before the committee, and any other information the committee may deem relevant.

- (b) The committee will review the student's appeal of the awarded grade or the undergraduate program action and will make a recommendation to the university dean about how the appeal will be resolved.
- (c) The committee shall be made up of no more than two (2) full-time instructional faculty members and an equal number of students. The university shall make a reasonable effort to select students of comparable academic classification as the student initiating the appeal. The university will select student members from a panel of students appointed and trained by the Vice President of Student Development and Enrollment Services and/or the Dean of the College of Graduate Studies. The list of students appointed to the student panel shall be maintained by the office of Student Conduct and Academic Integrity (for undergraduate) or the College of Graduate Studies (for graduate).
- (d) Once the committee is convened, the committee should make reasonable efforts to meet for review of the case within twenty (20) business days. If the committee cannot meet within the 20 days, the university will inform the parties of the need for additional time.
- (e) The meeting is not covered by Sunshine laws, is closed to outside parties, and will not be recorded.
 - 1. The student and Responding Party shall be separately invited to meet with the committee. Participating individuals in the appeal may appear through virtual (electronic) means at the committee meeting. While either party may invite a guest to attend the meeting, no guest may address the committee or respond to questions.
 - 2. The student and Responding Party shall be allowed adequate time to respond to the appeal and material as submitted, to answer any questions from committee members, and to present additional information needed to clarify the issues involved.
 - 3. Should either party fail to attend the scheduled appeal meeting, the meeting will be held in the party's absence with the understanding that the proposed outcomes and resolutions will be made using the information available at the time of the appeal meeting and in the party's absence.

- (f) After meeting with both parties, the committee will deliberate and issue a recommendation by majority vote to the university dean. If applicable, the committee will suggest a resolution to the appeal. This decision may let the grade/action stand as is or may alter the recommended grade/action. If the decision of the committee is to alter a previous decision, only the faculty members on the committee will recommend what the alteration will be; however, the student members on the committee may participate in the discussion. The committee chair will ensure that the committee's majority opinion, rationale, and recommended findings and resolutions are documented and forwarded to the university dean within five (5) days of the conclusion of the committee hearing.
- (g) Within five (5) business days of receiving the committee's recommendation, the university dean will provide the student with a written decision on the appeal. This decision represents final agency action. The dean's decision will be copied to the unit head and the dean of the college from which the appeal originated.

(8) Responsibility for Record Keeping of Formal Student Academic Appeals

- (a) To support institutional compliance with the Southern Association of Colleges and Schools Commission on Colleges Principles of Accreditation, the following parties shall be responsible for maintaining complete records of all formal student academic appeals.
 - 1. The College of Undergraduate Studies for undergraduate-level academic appeals; and
 - 2. The College of Graduate Studies for graduate-level academic appeals.
- (b) The complete record shall include the following components:
 - 1. First and last name of the student filing the formal appeal or the student's unique UCF personal identification number,
 - 2. Date the formal appeal was filed,
 - 3. Final decision resulting from review of the formal appeal,
 - 4. Date the formal appeal was determined closed, and
 - 5. Documentation reviewed at each phase of the formal appeal process.
- (c) The dean of the College of Undergraduate Studies and the dean of the College of Graduate Studies or their respective designees shall be responsible for monitoring formal academic appeals for patterns that may warrant broader review in an effort

to ensure the integrity of the academic enterprise and continuous compliance with accreditation standards. At minimum, the respective dean or designee shall conduct an annual review of the elements addressed in the SACS-COC Principles of Accreditation (10)(b)1, 2, 3, and 4 and shall consult the documentation on file for SACS-COC Principles of Accreditation (1)(b)5 as needed to render a determination of need for broader review.

~~(1) General Policy~~

- ~~(a) This regulation shall apply to undergraduate and graduate students seeking to appeal a final course grade or an undergraduate program decision. The professional judgement exercised by an instructor in assigning a specific grade or in conducting a class is excluded from the provisions of this regulation except as noted.~~
- ~~(b) This regulation does not apply to appeals of graduate programs actions or decisions by a faculty member, program, or college, including termination from an academic program, or to the assignment of grades for Thesis or Dissertation credit hours. Appeals from such actions are discussed in and may only be brought under Regulation UCF-5.017.~~
- ~~(c) Grounds for a grade appeal must fall under at least one of the following:
 - ~~1. Alleged deviation from established and announced grading policy;~~
 - ~~2. Alleged errors in the application of grading procedures;~~
 - ~~3. Alleged deviation from University syllabus policy that could have impacted the resulting grade; and~~
 - ~~4. Alleged lowering of grades for non-academic reasons, including discrimination. (A grade appeal alleging discrimination in violation of University policy will be referred to the Office of Institutional Equity. The University is entitled to a reasonable period of time to review allegations of discriminations contained in an appeal, and the University may accordingly extend deadlines applicable to the University for the purposes of reviewing such allegations).~~~~
- ~~(d) Grounds for an undergraduate program appeal must fall under at least one of the following:
 - ~~1. Alleged deviation from program or university policies as outlined in the Undergraduate Catalog or Undergraduate Program Handbook(s);~~~~

- ~~2. — Alleged errors in the application of policies or procedures;~~
- ~~3. — Alleged probation or dismissal due to non-academic reasons; and~~
- ~~4. — Alleged undergraduate program action discrimination and/or sexual harassment in the undergraduate program, department or college. (An appeal alleging discrimination in violation of University policy will be referred to the Office of Institutional Equity. The University is entitled to a reasonable period of time to review allegations of discriminations contained in an appeal, and the University may accordingly extend deadlines applicable to the University for the purposes of reviewing such allegations).~~

~~(2) The following assumptions are adopted:~~

- ~~(a) — Resolution of student academic appeals should be made as informally as possible.~~
- ~~(b) — Students and faculty are entitled to a fair and timely resolution of academic appeals.~~
- ~~(c) — The burden of proof in a student academic appeal is on the student.~~
- ~~(d) — Students have access to published materials and student government to help them become familiar with and understand procedures for handling academic appeals. Students may consult with a student government advisor for advice regarding the student's rights and responsibilities with respect to this appeal process.~~
- ~~(e) — Faculty members and administrators have access to published materials and University staff to help them be aware of and understand procedures to address academic appeals.~~
- ~~(f) — The University as an institution and its faculty are entitled to procedures that ensure the maintenance of academic standards.~~
- ~~(g) — The University is entitled to a reasonable period of time to review allegations of discrimination contained in an appeal, and the University may accordingly extend deadlines applicable to the University for purposes of reviewing such allegations.~~
- ~~(h) — All communication between the student and any University personnel must be made via a university provided email account (e.g. knights.ucf.edu or ucf.edu).~~

~~(3) Resolution of Student Appeals at the Unit Level~~

- ~~(a) — The initial appeal, for final grades or an undergraduate program action, must be initiated within ninety (90) business days of the undergraduate program action or final grade posting.~~

~~(b) — Step 1: All student academic appeals of allegedly wrongful academic action(s) by an instructor or administrator shall first be brought to the attention of the person whose action is being appealed. (The instructor of the course or administrator whose action is being appealed will be referred to in this regulation as the Responding Party.) If the issue cannot be resolved with the decision of the Responding Party, or if the Responding Party is not available, the student must pursue a Step 2 solution with the unit head, usually the chair or director of the unit.~~

~~(c) — Step 2: The student must submit the appropriate appeal form, available at the following URL: www.dtl.ucf.edu/gradeappeal. The unit head or designee, in consultation with the Responding Party, should make reasonable efforts to communicate with the student and resolve the problem. This communication shall normally take place within ten (10) business days of the complaint being forwarded to the unit head or designee. The unit head or designee will provide the student with a written final unit level decision. The written decision must include the contact information of the appropriate associate dean or designee to contact regarding the appeal process if dissatisfied with the final unit level decision.~~

~~1. — If the Responding Party is not available to discuss the problem, the resolution should wait, if at all possible, until such time as the Responding Party can return to the campus, but not more than (90) business days.~~

~~2. — If the unit head or designee and/or associate dean or designee determines that an emergency exists requiring that the problem be solved prior to the availability of the Responding Party (e.g. in a case of probable delayed graduation), the unit head or dean or designee shall make reasonable efforts to inform the Responding Party of the situation. The Responding Party may elect to submit a written statement and/or to designate a replacement to aid in solving the problem.~~

~~(4) Resolution of Student Academic Appeals at the College Level~~

~~(a) — Step 3: If the student is dissatisfied with the outcome, then the student may proceed to Step 3 of the process. Within ten (10) business days of receipt of the unit head's or designee's decision, the student must schedule an appointment with the appropriate associate dean or designee of the college in which the action occurred. That individual will review the student's concerns, inform the student of their~~

~~ability to seek the assistance of a student government advisor and explain the Student Academic Appeals process. The associate dean or designee shall issue a written recommended resolution, including a concise and explicit written statement that explains the basis for the recommended resolution, within ten (10) business days of the meeting outlined above. Each party has ten (10) business days from the issuance of the written recommended resolution to review the written recommended resolution.~~

~~(b) Step 4: If the student does not accept the written recommended resolution of the associate dean or designee, then the student must submit a written appeal to the associate dean or designee. The college will have ten (10) business days from that notice to form an Ad Hoc Student Academic Appeals Committee. This committee will review the student's appeal regarding the awarded grade and/or the academic program action and, if appropriate, suggest a resolution.~~

~~(c) The Committee shall, at a minimum, be presented with the following information:~~

- ~~1. Electronic appeal form submitted by the student.~~
- ~~2. A written final decision of the unit head or designee.~~
- ~~3. Recommended resolution of the associate dean or designee.~~
- ~~4. Information submitted by the student.~~
- ~~5. Information submitted by the Responding Party.~~

~~(5) Composition of the Ad Hoc Student Academic Appeals Committee~~

~~(a) Each college shall establish an Ad Hoc Student Academic Appeals Committee whenever required and the Committee shall be considered dissolved upon submission of the Committee's recommendation to the college dean.~~

~~(b) The committee shall be made up of at least two and no more than five full time instructional faculty members and an equal number of students. The college shall make a reasonable effort to select students of comparable academic classification as the student initiating the appeal.~~

~~(c) Quorum for the Committee shall be two (2) faculty members and two (2) students.~~

~~(d) Student members shall be selected by the associate dean or designee from a panel of students. This panel shall be appointed by the Vice President of Student Development and Enrollment Services and/or the Dean of the College of Graduate~~

~~Studies. The list of students appointed to the student panel shall be maintained by the Office of Student Conduct and furnished upon a request from a college.~~

~~(e) — The parties will be informed of the names of the Ad Hoc Student Academic Appeal Committee members seated to hear the appeal. Any member may be challenged for cause by either party within three (3) days of notification of the names of the members assigned to the Ad Hoc Student Academic Appeals Committee. The validity of such challenges shall be decided by the Assistant Dean and Executive Director of Student Rights and Responsibilities or designee. If a challenge is upheld, the college dean or designee shall appoint a replacement from the college's full-time instructional faculty members or the student panel.~~

~~(6) Ad Hoc Student Academic Appeals Committee Guidelines:~~

~~(a) — The following guidelines should be adhered to when a committee is conducting a review of an appeal:~~

- ~~1. — The Committee will function as an objective, fact-finding body when examining all available and relevant information concerning the student's appeal of a grade or program action by the Responding Party. Such information may include the student's written appeal, written and/or oral information provided by the Responding Party, statements made by both parties before the Committee, and any other information the committee may deem relevant.~~
- ~~2. — The time limits specified in the following review procedure may be extended by mutual agreement of the parties.~~
- ~~3. — The committee should make reasonable efforts to meet for review of the case within twenty (20) business days. If the committee cannot meet within the 20 days, the university will inform the parties of the need for additional time. — Should either party fail to attend the scheduled appeal hearing, the hearing will be held in the party's absence with the understanding that the proposed outcomes and resolutions will be made using the information available at the time of the appeal hearing in the party's absence.~~
- ~~4. — The associate dean or designee will convene the committee, establish procedural rules for conducting the meeting, serve as its chair, and will vote~~

~~in the case of a tie. The meeting is not covered by Sunshine laws and is thus closed to outside parties and will not be recorded.~~

~~5. The student and Responding Party shall be invited to meet with the committee. Participating individuals in the appeal may appear through virtual (electronic) means at the committee meeting. Each shall be allowed adequate time to respond to the appeal and material as submitted, to answer any questions from committee members, and to present additional information needed to clarify the issues involved.~~

~~6. After meeting with both parties, the committee will deliberate and issue a recommendation by majority vote to the college dean. The committee will (1) decide if the student has demonstrated that there were grounds for the appeal and, if there were grounds, (2) suggest what resolution should be implemented. This decision may let the grade/action as recommended by the associate dean or designee in Step 3 stand as is, or alter the recommended grade/action. If the decision of the committee is to alter the recommended Step 3 decision of the associate dean or designee, only the faculty members on the Board will be involved in deciding what the alteration will be. The committee chair will ensure that the committee's majority opinion, rationale, and recommended findings and resolutions are recorded and forwarded to the college dean within five (5) days of the conclusion of the Committee hearing.~~

~~(b) The college dean will prepare a written decision on the appeal within five (5) business days of the receipt of the Committee's recommendation. The college dean may do one of the following with the Committee's recommendation: accept it, reject it, or modify it. If the college dean rejects or modifies the Committee's recommendation, then the college dean's written decision must include a statement of reason for the action. The college dean will send a copy of the Committee's recommendation along with the college dean's written decision to the student, the Responding Party, the Provost, the unit head, and the appropriate dean of undergraduate or graduate studies. The college dean's decision shall be the final decision on the college level.~~

~~(7) Final Appeal~~

- ~~(a) — Step 5: If dissatisfied with the college dean’s decision, the student may, within ten (10) business days, file a written request for review with the dean of undergraduate studies or the dean of graduate studies, or designee (depending upon the classification of the student), clearly stating the basis for review and the resolution sought by the student.~~
- ~~(b) — The dean of the college of undergraduate studies, or designee, or dean of the college of graduate studies, or designee, shall serve as the final appellate officer. The final appellate officer should issue a written decision to the student’s appeal within twenty (20) business days of receipt of the appeal. Should the final appellate officer require additional time for review beyond the 20 business days, the final appellate officer will notify the student in writing of the need for additional time.~~
- ~~(c) — Acting as the University President’s representative, the decision of the dean of undergraduate studies, or designee, or the dean of graduate studies, or designee, shall represent final agency action. Copies of the dean’s, or designee’s written decision shall be sent to the student, the college dean, the unit head, the Director of OSC, the Responding Party, the Provost, and the appropriate dean of undergraduate or graduate studies.~~

University of Central Florida Academic Health Sciences Center Update

UCF AHSC Board of Trustees Meeting

June 17, 2021

The Value of the Academic Health Sciences Center (AHSC) in a Major Research University

With few exceptions, the top research universities in the nation have robust academic health centers.

- In the 21st century, health care is the largest sector in our economy and a rapidly growing sector of the workforce, and biomedical research is a key area of innovation.

The economic impact of academic health centers is significant:

\$1,750

in economic
impact

U.S. medical schools and teaching hospitals represented by the Association of American Medical Colleges (AAMC) generated approximately \$1,750 in economic impact per person and supported more than 6.3 million jobs nationally in 2015

\$854

in economic
impact

In Florida, participating medical schools and teaching hospitals represented \$854.31 in economic impact per state resident, indicating an opportunity to grow impact

1 in 51

employed

1 in 51 Americans are directly or indirectly employed by AHSCs

Students and trainees benefit from integrated interprofessional educational programs in hospitals and practices that are dedicated to teaching. Interaction across both formal and informal education and clinical settings better prepares learners for working in team-based care delivery.

There are community service and engagement benefits. Practicing in teams has a holistic impact on the health of the communities that are served.

Increasingly, science, discovery, and innovation have become interdisciplinary. Bringing together scientists and clinicians across disciplines provides a catalyst to grow impact.

Why a UCF Academic Health Sciences Center (AHSC)

4

Original Intent of Forming the AHSC

“The AHSC will enable UCF to leverage, build and deploy its collective health-related assets and strengths across all missions and disciplines to solve society’s greatest health care challenges.”

Why this plan is critical now:

- **To build upon existing UCF strengths and catalyze the AHSC’s development** to advance the University’s goal to be a top public research university.
- **To evolve as a differentiated AHSC**, leveraging the uniqueness, large population base, and resources of the Orlando region to drive innovation, support regional economic development, and address targeted health care challenges.

Key Issues for the UCF AHSC

 There are challenges to be addressed as a new AHSC, early in its evolution.

- Completing the basic building blocks of the AHSC organization.
- Evolving the nascent AHSC to the next level through a realistic 5- to 10- year growth plan.
- Building interprofessional collaboration, education, and research programs in a geographically dispersed AHSC.
- Focusing, prioritizing, and sequencing initiatives given resource constraints and limited levers for initial investment.

 There are significant opportunities and partnerships, both internal to UCF and external, that are key to our collective success.

- Elevating UCF's research stature through Health Sciences, e.g., strengthening the health sciences to make the AHSC the best partner for UCF.
- Collaborative partnerships with local and national health systems.
- UCF and the AHSC's key role in the development of Lake Nona and the region as a hub of health innovation and in driving economic development.

We are just over 3 months into a 6-month strategic planning process.

▪ **Accomplishments to date include:**

- Solicited broad stakeholder input (*see table below*)
- Conducted current state assessment
- Completed strategic issues analysis
- Developed strategic plan framework to work through the key issues facing the AHSC

AHSC Strategic Planning Structure

UCF AHSC Strategic Plan Framework

The Strategic Plan will define the priorities to realize the aspirations of the AHSC and its member colleges and programs.

13

Objective: Create the roadmap for the AHSC to enable its schools and programs to transform health and well-being.

UCF AHSC & UCF Alignment

AHSC Differentiation and Value

Clinical Services and Partnerships

Foundational: Essential Elements of an Integrated AHSC

- The AHSC will play a critical role in UCF's position as a leading metropolitan research university by enhancing academic excellence to drive greater student success and research outcomes.
- The strategic plan will build upon existing strengths to catalyze the AHSC's development and support the University's goal of being a top public research university through collaboration. The following areas are being considered as potential thematic areas of focus.
 - Tourism health, hospitality industry, and global mobility
 - Human performance and healthy aging
 - Cancer
 - Engineering and health
 - Augmented reality/virtual reality (AR/VR) and simulation
 - Population health and health equity
- There are opportunities for more new and innovative intercollegiate teaching programs (e.g., dual degrees, tracks, programs) like the Medicine-Engineering Double Degree (MEDD) program, a partnership between the colleges of Engineering & Computer Science and Medicine. Fourth-year MEDD students who meet academic criteria are guaranteed an admissions interview at the UCF College of Medicine.

The strategic plan will articulate the AHSC's compelling value proposition and communicate its value to stakeholders by defining the ways that the AHSC is and will be differentiated from other health sciences centers and add value to UCF, the region, the state of Florida, and beyond.

- A rapidly developing medical city at Lake Nona is an existing differentiator. Continuing to leverage the unique characteristics, technology, and innovation of Lake Nona and the Orlando region will drive AHSC differentiation.
- A core theme of its differentiation will be UCF's role in innovation and health technology, e.g., AR/VR, simulation.
- The AHSC has the meaningful components to build out an innovative interprofessional education curriculum that trains learners to practice in team-based care settings.
- The AHSC will play a crucial role in securing resources for health sciences colleges and programs by elevating and promoting UCF's excellence and its national reputation and by speaking with one voice.

- A more unified approach to clinical affiliations will make UCF a stronger partner and enhance UCF's key role and value to the state in health workforce development and public health initiatives.
- The plan will confirm the clinical services and partnership relationships, both existing and future, and the clinical faculty network needed to fulfill the AHSC's vision and strategic plan.

- The strategic plan will identify the AHSC's building blocks that will support shared curriculum development and continue to advance interdisciplinary education, research, and clinical service.
- The plan will create the roadmap for the AHSC's financial success, including leveraging synergies across units.
- A new AHSC budget and resourcing model consistent with the University's budget model is needed to benefit from the scale of the collective health sciences and UCF.
- The AHSC will continue its commitment to diversity and inclusion in a shared culture of trust, engagement, and accountability that makes UCF one of the best places to work.
- An emerging clinical and research priority is to become an example for how a community fully commits to inclusive excellence and actionably delivers on diversity, equity, and inclusion initiatives.
