UNIVERSITY OF CENTRAL FLORIDA

Board of Trustees Facilities and Infrastructure Committee Meeting September 22, 2021 Live Oak Event Center | Virtual Option

MINUTES

CALL TO ORDER

Trustee Caryl McAlpin, chair of the Facilities and Infrastructure Committee, called the meeting to order at 1:00 p.m. Committee member Joseph Harrington and Board Chair Alex Martins (exofficio) attended in person. Committee members Jeff Condello, Danny Gaekwad, and John Miklos attended virtually.

Other Trustees attending the meeting in person were Tiffany Altizer, Harold Mills, and Beverly Seay.

Chair McAlpin began the meeting by listing what the committee needs to give its best advice:

- a comprehensive real estate asset list including, but not limited to, buildings, roads, lighting, parking, landscaping, hardscaping, utilities, and vacant land;
- an accurate maintenance priority list for both deferred maintenance and routine and preventative maintenance;
- a list of all real estate leases both public and private whereby UCF is the landlord or the tenant;
- any pending sales contracts;
- an updated space needs and utilization plan;
- continuously updated lists from the Chief Information Officer regarding UCF's technology infrastructure;
- a strategy for hiring and retaining quality IT employees;
- the required funding and creative and innovative ways to fund projects; and
- filling head positions of real estate and strategic partnership and advancement with individuals who have the experience to lead UCF in this direction; she requested a timeline for new hires and that a member from this committee be placed on each of those respective search committees.

REPORTS

DISC-1 SVP Update

Gerald Hector, Senior Vice President for Administration and Finance, provided the committee with an update on the division's accomplishments, ongoing projects, and staffing updates.

Accomplishments:

- Accelerated the review of the physical plant with Gordion to lay the groundwork for the building of a five-year strategic plan for the three phases of facilities maintenance (preventative, routine, and deferred).
- Recategorized PECO funding submission; at the time of this writing, university projects are the closest they have been to possibly being funded in five years.
- Conducted the first of its kind Facilities Council meeting such that all facility "owners" could hear about future plans for facilities management and the establishment of a Real Estate Office at the university.

Ongoing Projects:

- recategorization of costs for better funding discussions
- community meetings about the campus master plan
- rebuilding relationships in Tallahassee

Staffing Updates:

- Jonathan Varnell has been hired as UCF's new Vice President for Facilities and Business Operations.
- Misty Shepherd is UCF's Senior Associate Vice President for Financial Affairs.
- Duane Siemen will return to his role as Assistant Vice President for Facilities Operations.
- Alberto Santoni will become the permanent Senior Director of Facilities Operations.

Trustees had the following comments:

• Chair McAlpin asked if the Facilities Council meeting schedule had been set, as she would like committee members to attend those meetings. Hector said he will provide the schedule once it is known.

DISC-2 CIO Update

Matthew Hall, Vice President for Information Technology and Chief Information Officer, provided the committee with an update in which he:

- compared the IT division of the last five years to the IT division now from an internal context and industry context;
- outlined the IT division's Phase One transformation (March through June) from the previous CIO structures to the current federated structures;
- discussed the number of applications, devices, telephony, and people;
- provided a financial overview of the IT division;
- provided an information assurance/RiskRecon overview;
- highlighted the transformation framework for September to December 2021;

- provided a staff breakdown of the IT division and campus-wide IT staff headcounts;
- discussed the IT division's Human Capital Management and performance management actuals for 2020; and
- shared the results of the People Element engagement survey from June 2021.

Trustees had the following comments:

- Trustee Mills asked what the barriers are for employee engagement and requested a summary document be sent to the trustees explaining why a great employee cannot be permitted to work remotely. He also said IT issues are easier solved if not in a federated model and implored Hall to push hard on consolidation with people resources and technology platforms.
- Trustee Condello asked Hall what he thinks is the issue with the culture and what Hall would like to change.
- Trustee Harrington recognized Hall for building a level of trust and moving IT back to a centralized model.

Hector also provided the committee with an update on the Service Enhancement Transformation (SET) project. A major decision was made for the structure of the university's new shared services model. It also is critical to keep the Workday ERP project on track with the configuration of the system to accommodate the business process changes envisioned by SET. Huron Consulting will assist with the SET implementation across the university.

ACTION

FACC-1 Razing of Building (Trailer) 541

Hector, Varnell, and Siemen presented for approval a request to raze Building (Trailer) 541, which is a trailer complex that was installed in 2010. The complex has since deteriorated to the point where it requires significant maintenance costs.

Trustee Harrington made a motion to approve the razing of Building (Trailer) 541. Trustee Miklos seconded the motion. The motion was approved unanimously.

FACC-2 Army Sublease of OTC 700

Varnell and Siemen presented for approval the Army's sublease of Orlando Tech Center (OTC) 700, which supports UCF's strategic partnership with the Department of Defense. This building is currently occupied by the Army, which works closely with the Institute for Simulation and Training on modeling and simulation research projects. The term of the lease, which is required by the Army, is one year, with 10 one-year options.

Trustee Harrington made a motion to approve the Army's sublease of OTC 700. Trustee Miklos seconded the motion. The motion was approved unanimously.

DISCUSSION

DISC-3 2021-22 Fixed Capital Outlay Budget

Hector and Varnell presented for discussion the 2021-22 Fixed Capital Outlay Budget. In accordance with Florida Statute, each university's Board must adopt an annual capital outlay budget that designates proposed expenditures by project. The ratified FCO Budget must be submitted to the Board of Governors by October 1, 2021. This item was presented for discussion because it is critical to the discussion and strategy of the Facilities and Infrastructure Committee. However, approval for this item lies within the purview of the Budget and Finance Committee.

DISC-4 Deferred Maintenance

Varnell and Siemen updated the committee on the progress of the university's deferred maintenance and capital reserves program. They provided details on the approach and methods to this request and the timeline for completion.

Trustees had the following comments:

- Trustee Condello asked Varnell to summarize his first three weeks at UCF.
- Chair Martins asked what the highlighting signifies on the attached list of university assets. Siemen said highlighting indicates those buildings that are being considered as separate units for the purpose of the draft report for replacement value and deferred maintenance.
- Trustee Harrington expressed his appreciation for the list and said having a chart or dashboard such as this could help bring awareness to deferred maintenance funding needs in Tallahassee.
- Chair Martins added that significant conversations about deferred maintenance are occurring at the Board of Governors' level.

INFORMATION

INFO-1 FY22 Work Plan and Charter Review

Chair McAlpin presented the Facilities and Infrastructure Committee's Fiscal Year 22 work plan. This plan provides an outline of the anticipated schedule of meetings and the items the committee can expect to address during the fiscal year. Additional meetings may be added to address items that need the committee's attention.

INFO-2 Campus Master Plan Neighborhood Meeting Public Comments

Bill Martin, Senior Director for Facilities Planning and Construction, presented as an information item the minutes from the July 28, 2021, Campus Master Plan Neighborhood Meeting.

INFO-3 Knight Vision ERP Status Update

Hall, Michael Sink, Associate Vice President and Chief Operating Officer for UCFIT, and Cherie Herrin, Knight Vision Program Director, provided the committee with Knight Vision ERP status updates on the recent accomplishments, immediate next steps, overall status and trends, top risks, and progress of the Knight Vision project. Sink alerted the committee that the planned costs for two of the items (HR and Finance Service Enhancement Transformation Implementation (Consulting and Backfill) and Enterprise Reporting & Analytics (Data Lake/Warehouse, Data

Governance Tools, Enterprise Analytics, and Backfill)) are at risk of going over budget, but overall the project is tracking as planned.

Trustees had the following comments:

- Trustee Mills asked Sink to clarify the number of integrations and conversions and why so many payment systems exist on campus.
- Trustee Harrington asked if the timelines for when the project will make money and reduce spending overall have changed. Sink confirmed they have not.

INFO-4 2020-21 Fixed Capital Outlay Budget Update

Hector and Varnell provided as an information item the 2020-21 Fixed Capital Outlay Budget Update, which shows 2020-21 estimated expenditures as reported in the 2020-21 Fixed Capital Outlay Budget (FCO Budget) compared to actual 2020-21 expenditures. The 2020-21 FCO Budget was approved by the Board of Trustees on September 10, 2020. Total project cost of \$332 million represents life-to-date totals with project plans spanning multiple fiscal years. The 2020-21 FCO Budget projected \$61 million would be expended in the 2020-21; actual expenditures were \$36 million, resulting in a variance of \$25 million.

NEW BUSINESS

The committee had no other business to discuss.

ADJOURNMENT

Chair McAlpin adjourned the Facilities and Infrastructure Committee meeting at 2:08 p.m.

Board of Trustees Facilities and Infrastructure Committee | November 16, 2021

DISC-1: VP Update				
☐ Information	□ Discussion	☐ Action		
Meeting Date	for Upcoming Action:			

Purpose and Issues to be Considered:

The purpose of this update is to ensure that the Board of Trustees remains engaged with and apprised of the work that is being performed in UCF's Facilities and Information Technology operations.

A key priority for fiscal year 2022 continues to be the development of a formal maintenance plan. The foundation of this work relies on a comprehensive understanding of both operating and capital investments needed to reliably support academic excellence and the entire campus community.

In our upcoming meeting, we are planning to review data from the recently completed facilities condition assessment (FCA). This work was supported by an experienced third-party consultant (Gordian/Sightlines) and includes all state-funded facilities (Education and General / E&G) while work continues to complete the remaining non-E&G buildings. This information will be used in the coming months as a planning tool and as part of implementation of a new rubric-based model for strategic capital project prioritization. Additionally, updated building condition data is critical for strategic space planning and utilization efforts.

In alignment with our committee charter, we have been working to address the need to have a single point of university oversight and strategic direction for our real estate program along with the associated space management activities. Discussions with campus stakeholders are planned for the coming weeks and we are prepared to briefly update the committee on our current progress. The key action item is the hiring of the key real estate leader to move this work forward and will include a trustee when we assemble a hiring committee.

Background Information:

The physical plant and information technology units of the university have not kept pace with the growth of the university over the years. There are gaps in capabilities, skill sets, and funding. Both units have been given the responsibility without the authority to drive change in their respective areas.

Both units are being brought to the forefront of budgeting, process improvements, and campus wide impact levels so they are seen as partners for the continued growth and success of a major R1 institution rather than as back office units. The economics of an R1 research institution are changing, and modern buildings and information technology superiority are key strategic investments going forward to ensure that research, education, and public service are achieved.

Recommended Action:

For discussion only.

Recommendation

Align management of real estate activity under one centralized office under the Vice President for Facilities and Business Operations

- Enables effective and efficient management of the university's real estate strategy
- Communicate issues, recommendations, and challenges to the Board of Trustees
 Facilities and Infrastructure Committee
- President and Provost make decisions on the prioritization and assignment of space
- Office will coordinate with these offices to implement any real estate-related directives

Rationale

- 1 Enable alignment of responsibilities to achieve the goals set forth in the university's strategic plan.
- Provide for a more effective, efficient and comprehensive communication channel with the President and the BOT.
- Many of UCF's peers within the state and throughout the country have centralized real estate, campus facility management, and space planning, and have organizational structures that align these critical areas.
- Produce cost savings, improve financial strength, manage risk, and improve the overall student experience and economic impact of the university.
- 5 BOT Facilities & Infrastructure Committee is staffed by the VP for Facilities and Business Operations.
- 6 Efficiently manage the existing and emerging systems and smart campus technologies.
- Tackle challenges of campus infrastructure including physical infrastructure, digital infrastructure, and learning infrastructure.

Charter: Facilities & Infrastructure Committee

- Provide review, policy guidance and strategic oversight of campus master planning activities and other real estate type activities
- Coordinate the campus master planning process and provide recommendations to the Board for action
- Annually review the capital improvement plan submissions to the Board of Governors and State legislature
- Periodically review programs that ensure the maintenance and safety of University facilities
- Review any real estate related projects or facilities
- Participate in, review, and approve the planning process for any DSO-initiated program that will involve any real estate related matters on or off campus

Address Challenges through Centralization

Effective maintenance strategy

Facilities and Infrastructure Committee | November 16, 2021

DIS	DISC-2: Facilities Condition Assessment				
	Information		Discussion		☐ Action
	Meeting	Date 1	for Upcoming Action:		_

Purpose and Issues to be Considered:

This item updates the Board on the progress associated with the university's deferred maintenance / capital reserves program. As previously discussed at the September Facilities and Infrastructure Committee meeting, the deferred maintenance program seeks to have a comprehensive view of all the physical plant assets of the university placed in a single document that captures the following, (i) building, (ii) building location, (iii) source of funds to maintain the building, and (iv) the severity of needed repairs and upgrade. This information will form the base for a multi-year maintenance program that will capture all the elements of a high performing Facilities unit capturing routine, preventative and the deferred maintenance.

The university is seeking to build a strategic plan for its physical plant inside the parameters set by the state of Florida by the restrictions on the "colors of money" towards maintenance of the physical plant. Presentation details on the approach and methods to this request and associated timeline for completion are included.

This discussion item is part of an ongoing conversation around the need to enhance the physical plant to carry out the mission of the university in teaching and research. This program directly supports the 2020-21 Presidential goal for the research excellence by providing a systemic and holistic plan for facilities investment.

Background Information:

At the March 13, 2019, Board of Trustees meeting, the use of \$20M in Education and General (E&G) Carryforward Funds for deferred maintenance projects was approved. At the June 30, 2021 Board of Trustees meeting, the Trustees approved an amended 5-Year Capital Improvement Plan which prioritizes renovation and remodeling projects. At the June 30, 2021 meeting, it was also confirmed that a comprehensive list of the university's existing assets, including capital renewal and deferred maintenance needs, would be completed in the Fall. At the September 22, 2021 Facilities and Infrastructure meeting, the deferred maintenance strategic plan was discussed.

Primary to the update to the Board of Trustees is the desire to move to a more comprehensive plan on how we will fund deferred maintenance projects considering that the university has not received new funding from the state for the maintenance of its buildings. The state rules surrounding the "colors of money" have bifurcated any funding sources to specific buildings, and carving out other funds from operations has resulted in the maintenance of projects to be episodic in nature, and has not adequately addressed the needs of an aging campus in a holistic way. The creation of a full deferred maintenance plan provides the university leadership with a window through which strategic conversations can commence on finding alternative

Agenda Memo

funding sources that include philanthropy, partnerships of purpose with industry, and the prioritizing of funding opportunities using Carryforward dollars, and when provided, state PECO (Public Outlay Capital Outlay) funds.

The comprehensive and holistic list of university facilities and their capital renewal / deferred maintenance needs is attached for E&G facilities. Attachment A, the "Facilities Condition Data Review & Initial Funding/Portfolio Discussion", is a facilities report that outlines the needs of the university's Facilities Condition Assessment portfolio. Attachment B, the "Comprehensive List of University Assets", is the facilities data that includes the building number, building name, building gross square feet (GSF), construction year, facilities condition index (FCI), annual operating expense, current replacement value (CRV), 10-year funding needs, responsible division, and funding source for each UCF owned facility. This data will continue to be updated using third party (RS Means, Gordian/Sightlines) and internal resources, and is presented for discussion. Attachment C, is the "List of University Assets Excluded from Scope".

Board of Trustees Facilities and Infrastructure Committee | November 16, 2021

DISC-3: Comprehe	ensive Report on Construction-	Related Activity
☐ Information	□ Discussion	☐ Action
Meeting	Date for Upcoming Action:	
Purpose and Issues to This item is part of the B		on Construction-Related Activity." This

- Status of Projects presentation
 - Overview of projects completed over the past 6 years
 - Project Statistics for FY 2020-21
 - o Minor Project review completed March 2020 to October 2021 (COVID to present)
 - Major Project review projects in planning, design, permitting, construction, close-out, or that have been completed from March 2020 to October 2021 (COVID to present)
- Report of Fiscal Year 2020-21 Projects (support data for Status of Projects statistics)
- Change Orders in the 3rd quarter of 2021, regardless of value
- Minor Projects a report of current minor projects over \$100,000, as of the end of Q3 2021

Background Information:

presentation includes:

Facilities and Infrastructure Committee Charter

• Authorizes the Committee to "Review and assess construction-related activities, including information regarding change order activity and minor projects."

Resolution on Presidential Authority

- Section (5)(a)3 states "Minor Projects and associated change orders of \$100,000 or more, will be reported on a quarterly basis to the Board of Trustees Finance and Facilities Committee."
- Section (5)(a)10 states "Provide a comprehensive report on construction-related activities at each regular meeting of the Board's Finance and Facilities Committee, including information regarding change order activity."

DISC-4: CIO Update	е		
☐ Information	\boxtimes	Discussion	Action
Meeting	Date fo	or Upcoming Action:	

Purpose and Issues to be Considered:

The purpose of this discussion is to provide an update on the status of the assessment of IT@UCF as part of the Phase 2 portion of the Assess & Transform Timeline. Critical conversations with key administrative and academic leadership are in flight. Asset depreciation schedules, software lifecycle, contract obligations, technical architecture, and staff deployment are in the process of being analyzed in light of how we organized shared services, local services, and IT funding models. These initiatives address the President's goals of driving academic and operational excellence and partnering internally to serve and positively impact our community.

Background Information:

Information Technology Assessment and Transformation Phase One

From March to June 2021, the Office of the Chief Information Officer's assessment team collected 173 pages of data describing current state IT operations. This data supports our understanding of the macroview of information technology investments and operations at UCF.

This data collection, coupled with hundreds of stakeholder conversations, developed a framework to inform how we transform Information Technology to support UCF's mission and align with strategic goals.

In addition to the provided executive summary presentation, here are several examples of the types of data the team collected:

- 1,147 applications
- 29.420 known network-attached devices
- 16,799 end-user devices
- 8,391 phone lines carrying 11 million calls a year
- 267 web servers and 28 hosting providers
- 234 buildings with wireless access points
- 1,762 known web domains
- 25 email servers

The assessment team collected much of this information for the first time, enabling a practice change to examine better where we invest and how we manage that investment. The demand for IT services rises, the complexity of IT services increases, and the security challenges expand daily.

From September through December, we'll engage the campus community in discussions about how information technology impacts and enables our progress. We'll continue to analyze and refine our understanding of assets and operations. The Phase One data collection conclusion opens the second chapter of our assessment and transformation process.

Critical questions for Phase Two

UCF faces several big qu	Jestions:
--------------------------	-----------

5 1							
 How do we organize IT? How do we fund IT? What services are in the common good of the institution? 							
Recommended Action: For discussion only.

Knight Vision BOT Facilities & Infrastructure Committee Update

November 16, 2021

Knight Vision Overall Program Timeline

G

Knight Vision Progress

Accomplishments

- Workday configuration completed and ready for testing.
- Service Enhancement Transformation (SET)organizational model design approved.
- Identity and Access Management and Integrations Platform implementation projects kicked off.

Immediate Next Steps

- Unit and End-to-End testing for Workday initiated.
- Select Data Analytics & Reporting Ecosystem (DARE) implementation vendor.
- Finalize Reporting & Analytics scope.
- Beginning SET implementation phase.

Overall Status & Trends

- On track with major milestones.
- Workday costs for consulting trending on budget.
- Experiencing resource challenges for data conversions, integrations, and PeopleSoft retrofits.

Top Risks

- SET and Reporting and Analytics costs are anticipated to be higher than initial estimates (costs for SET and reporting consulting/staffing, case management tool.
- UCF's volume and complexity of integrations and data conversions.

150

Knight Vision Program Costs

Knight Vision Phase 1 Scope Item	Planned Cost	Budget Status	Schedule Status	Scope Status	Overall Status
Workday Software HR/Finance/Grants Implementation (Workday + Accenture + Backfill)	\$ 23,847,137	•	•	•	On Track
HR & Finance Service Enhancement Transformation (SET) Implementation* (Consulting + Backfill)	\$ 8,500,000	•	•	•	At Risk (additional consulting and internal staffing, case management tool inflating costs)
Enterprise Reporting & Analytics * (Data Lake/Warehouse, Data Governance Tools, Enterprise Analytics, Backfill)	\$ 2,500,000	•	•	•	At Risk (Data Lake/Warehouse costs expected to be higher than initially planned)
Custom PeopleSoft Applications Replacement* (Consulting, 3rd Party Apps, Custom Apps, Backfill)	\$ 5,000,000	•	•	•	On Track
Enterprise Standard Tools* (Identity Management, API and Integrations Management, and Low Code Development Platforms, Docusign)	\$ 2,000,000	•	•	•	On Track
Adaptive Planning Budget Software Phase 2 Implementation	\$ 450,000		•	•	On Track
Planned Contingency for Non-Workday Scope (remaining)	\$ 1,158,923	•	•	•	On Track
Overall Knight Vision Program*	\$ 43,456,060		•	•	On Track
*Costs for indicated items are estimates. Detailed planning in progress.		Кеу:	On Track	At Risk	Off Track
